years of continuously deepening reflection the book presents the full range of Strauss's contributions as a modern Jewish thinker These essays and lectures also offer Strauss's mature considerations of some of the great figures in modern Jewish thought such as Baruch Spinoza Hermann Cohen Franz Rosenzweig Martin Buber Theodor Herzl and Sigmund Freud They also encompass his incisive analyses and original explorations of modern Judaism which he viewed as caught in the grip of the theological political crisis from German Jewry anti-Semitism and the Holocaust to Zionism and the State of Israel from the question of assimilation to the meaning and value of Jewish history In addition Strauss's two sustained interpretations of the Hebrew Bible are also reprinted These essays and lectures cumulatively point toward the postcritical reconstruction of Judaism which Strauss envisioned suggesting it rebuild along Maimonidean lines Thus the book lends credence to the view that Strauss was able to uncover and probe the crisis at the heart of modern Jewish thought and history perhaps with greater profundity than any other contemporary Jewish thinker *Religious Ethics* William Schweiker, David A.

Benson Professor of Philosophy University of Oklahoma,2000-01-05 While the early Platonic dialogues have often been explored and appreciated for their ethical content this is the first book devoted solely to the epistemology of Plato s early dialogues Author Hugh H Benson argues that the characteristic features of these dialogues Socrates method of questions and answers elenchos his fascination with definition his professions of ignorance and his thesis that virtue is knowledge are decidedly epistemological In this thoughtful study Benson uncovers the model of knowledge that underlies these distinctively Socratic views What emerges is unfamiliar yet closer to a contemporary conception of scientific understanding than ordinary knowledge **The Knowledge of Life** Witness Lee,1987-06-01 In The Knowledge of Life Witness Lee illuminates the path that leads to life beginning with regeneration and advancing to knowing and living according to the inward sense of life The Knowledge of Life provides an excellent foundation for the genuine experience of Christ and a helpful introduction to Witness Lee s companion book The Experience of Life **Dictionary of the Old Testament: Pentateuch** T. Desmond Alexander,David W. Baker,2010-05-11 Exploring the major themes and issues of the Pentateuch this encyclopedic work offers authoritative overviews detailed examinations and new insights from the world of the ancient Near East Edited by T Desmond Alexander and David W Baker **Duality in Genesis** Chris Oxley,2025-08-19 This short book will appeal to those who have difficulty with the Hebrew creation story found in the first three chapters in the book of Genesis as well as those who ask the question where did the universe and modern humankind come from If the Hebrew creation story was inspired by God then it should bear some resemblance to the modern scientific understanding of the origins of the cosmos and the modern Homo sapiens if it does not then basic biblical truths have to be

questioned The Hebrew creation story which was not divinely dictated is treated solely as an ancient timeless scientific road map founded on the science of that time The story has been revisited based on our understanding of today s science which suggests prior information had been released three times into the creation 1 giving rise to the universe 2 the first living cell and 3 the transformation of the Homo sapiens to modern Homo sapiens This book offers an intriguing and fascinating way of relooking at the Hebrew creation story that bears a resemblance to our understanding of modern scientific ideas **The Penumbra of Ethics** V. A. Demant,2018-04-18 Rev Vigo Auguste Demant 1893 1983 was a significant theologian and social commentator of the first half of the twentieth century This book contains his up until now unpublished Gifford Lectures in which Demant provides cultural analysis as he attempts to address why humanity struggles so much with modernity and living in the contemporary world The lectures have additional notes and commentary to make them comprehensible since not all of them are complete The first chapters set Demant in his context and the final section provides assessment of both his ideas and his impact Although Demant died in 1983 his ideas continue to prove influential to thinkers and theologians today

Providence in the Story of Scripture Adamson Co,2025-05-06 The doctrine of providence is often too abstract complex or detached from real life situations for introductory students Drawing on years of experience in the classroom and the church Adamson Co offers an introductory guide that uses the creation motif of the Bible to highlight the importance of providence for the Christian life Co begins with a brief introduction to providence to give students the state of the question He then explores the classical theme of the seventh and eighth days of creation as a helpful way to understand providence He sets providence and human existence within the metanarrative of the Bible while explicating the doctrine in an overview fashion Co demonstrates how the seventh and eighth days of creation bring clarity to traditional issues raised in systematic theology such as preservation governance and concurrence the problem of evil and divine sovereignty and human free will Providence in the Story of Scripture challenges readers to live out a life of partnership with God in his providence and shows how the blessed hope of the Christian faith is God s life transforming providence for today The book includes a foreword by Kevin J Vanhoozer

new reading of the character and development of Latin Trinitarian theology in the fourth and fifth centuries Although Augustine is the principal focus he is treated here as an inheritor of an earlier Latin tradition Antecedent theologians most notably including Marius Victorinus are given a revised interpretation and Augustine himself is explored from multiple angles At every turn developments in Augustine s thought are shown to be a response to the anti Nicene theologies of the period Most significantly this view decries the modern systematic tendency to engage with Augustine only through a simplified version of late nineteenth century categories This accusation invites the question of how far modern theology can actually engage with Patristic theology at all but Barnes offers a way forward
