## **Of Time And An Island:**

**Of Time and an Island** John Keats, 1987-04-01 Thirty years ago John Keats and his family purchased a two acre island in the St Lawrence River at a time when boats were still lovingly crafted of wood and an island could be had for 4 000 Depending on the elements and on their own resourcefulness the Keats family thrives in the rhythms of island life fishing learning to navigate the river and read the clouds for weather acquiring an Indian view of time maintaining a house several boats and three children on a windswept rock But more than a book about a single family s adventures this one is strong witness that we all need islands of our own in the midst of life Originally published in 1974 *Of Time and an Island* was chosen as a Book of the Month Club alternate selection

**An Island Out of Time** Tom Horton, 1996 A classic of Chesapeake Bay literature Tom Horton s *An Island Out of Time* chronicles the three years Horton and his family spent on Smith Island a marshy archipelago in the middle of Maryland s famous estuary The result is an intimate portrait of a deeply traditional community that lived much as their ancestors did three hundred years before attuned to the habits of blue crab oyster and waterfowl In a new afterword for this edition Horton brings the story of Smith Island and its people up to the present

**The Ordnance Survey and Modern Irish Literature** Cólín Parsons, 2016-04-15 The Ordnance Survey and Modern Irish Literature offers a fresh new look at the origins of literary modernism in Ireland tracing a history of Irish writing through James Clarence Mangan J M Synge W B Yeats James Joyce and Samuel Beckett Beginning with the archives of the Ordnance Survey which mapped Ireland between 1824 and 1846 the book argues that one of the sources of Irish modernism lies in the attempt by the Survey to produce a comprehensive archive of a land emerging rapidly into modernity The Ordnance Survey instituted a practice of depicting the country as modern fragmented alienated and troubled both diagnosing and representing a landscape burdened with the paradoxes of colonial modernity Subsequent literature returns in varying ways both imitative and combative to the complex representational challenge that the Survey confronts and seeks to surmount From a colonial mapping project to an engine of nationalist imagining and finally a framework by which to evade the claims of the postcolonial nation the Ordnance Survey was a central imaginative source of what makes Irish modernist writing both formally innovative and politically challenging Drawing on literary theory studies of space the history of cartography postcolonial theory archive theory and the field Irish Studies *The Ordnance Survey and Modern Irish Literature* paints a picture of Irish writing deeply engaged in the representation of a multi layered landscape

*Poetry and Islands* Rajeev S. Patke, 2018-03-01 In all cultures and times the poetic imagination has fed on the natural attributes of islands An island is either a destination or a home or a place of exile

and imprisonment or simply a place to sojourn It is an ideal vehicle for journeys treated as allegories or for acts of finding that turn into acts of losing or the reverse transformation An island is not a continent yet it can be an archipelago An island is both a place in itself and a pretext for imaginings that need a local habitation and a name It can give relief and pleasure or it can frustrate isolate and negate Above all it both invites and resists or contains or constrains the imagination Poetry and Islands explores how islands become repositories of human longings and desires a locus for some of our deepest fears and fantasies It balances historical and geographical reference with a selective approach to poems and poets in English and in translations into English The study of particular poems in which islands figure in exemplary ways is balanced by a more detailed discussion of the poets who have played a major role in shaping human responses to islands on a global scale

*Beyond the City Limits* R.W. Sandwell, 1998-12-01 Historians have not usually identified British Columbia as a rural province B C historiography has been dominated by mining logging and fishing and theorized within the context of large scale laissez faire capitalism and economic individualism Silences in the historical record have exacerbated this situation and lent tacit support to the dominance of resource based capitalism as the shaping force in B C history The essays in *Beyond the City Limits* all published here for the first time decisively break this silence and challenge traditional readings of B C history In this wide ranging collection R W Sandwell draws together a distinguished group of contributors who bring expertise methodologies and theoretical perspectives taken from social and political history environmental studies cultural geography and anthropology They discuss such diverse topics as Aboriginal White settler relations on Vancouver Island pimping and violence in northern BC and the triumph of the coddling moth over Okanagan orchardists to show that a narrow emphasis on resource extraction capitalist labour relations and urban society is simply not broad enough to adequately describe those who populated the province's history By challenging the dominant urban based and overwhelmingly capitalist interpretation of the province's history the provocative essays in *Beyond the City Limits* expand our understanding of what rural was and
