The Subject of Prostitution Jane Scoular, 2015-12-22 The Subject of Prostitution offers a distinctive analysis of the links between prostitution and social theory in order to advance a critical analysis of the relationship of law to sex work Using the lens of social theory to disrupt fixed meanings the book provides an advanced analytical framework through which to understand the complexity and contingencies of sex work in late modernity The book analyses contemporary citizenship discourse and the law's ability to meet the competing demands of empowerment by sex workers and protection by radical feminists who view prostitution as the epitome of patriarchal sexual and economic relations Its central focus is the role of law in both structuring and responding to the problem of prostitution By developing a distinctive constitutive approach to law the author offers a more advanced analytical framework from which

to understand how law matters in contemporary debates and also suggests how law could matter in more imaginative justice reforms This is particularly pertinent in a period of unprecedented legal reform both internationally and nationally as legal norms simultaneously attempt to protect empower and criminalise parties involved in the purchase of sexual services The Subject of Prostitution aims to overcome the current aporia in these debates and suggest new ways to engage with the subject and law As such The Subject of Prostitution provides an advanced theoretical resource for policymakers researchers and activists involved in contemporary struggles over the meanings and place of sex work in late modernity Sexual Cultures Jeffrey Weeks,1996-07-13 The new sociology of sexuality has a two fold aim to demonstrate how the social shapes the sexual and to analyse how the sexual in turn becomes a focal point for personal identity cultural anxiety value debates and political action Drawing on papers from the 1994 British Sociological Association annual conference on Sexualities in Social Context this volume brings together key contributors to this stimulating new approach Topics covered include theoretical developments the relationship between history and contemporary controversies community and identity especially in the context of AIDS value conflicts and changes in the meanings of intimacy The book as a whole offers a significant intervention into debates on sexuality and a thoughtful contribution to the broadening of the sociological agenda

Rethinking Prostitution Graham Scambler,2003-09-02 The growth of AIDS has focused renewed attention on the institution of prostitution In contrast to the moral panic reaction of some sectors of society very different initiatives are being displayed by other groups in relation to the need to scrutinize the social moral and legal status of prostitution and to reflect on the arguments in support of and against legalising brothels paying particular concern to prostitutes own health Rethinking Prostitution covers male as well as female sex workers and considers in detail their status in law drugs issues of health and health care the changing nature of sex work partners boyfriends and pimps and the potential for redefining prostitution By drawing on the expertise of researchers across all aspects of the industry this up to date text focuses on an institution and industry ripe for re assessment Rethinking Prostitution will be of considerable interest to students lecturers and researchers in medical sociology and women s studies as well as to social workers in training and practice

Perspectives on Sex

Crime & Society David W. Selfe, Vincent Burke, 2012-11-12 Concerned with an analysis of sexual offences and sexual behaviour from a variety of perspectives this work considers the construction and interpretation of relationships between sexual behaviour and the criminal process by analyzing the criminalization and decriminalization of certain conduct

Prostitution Policy in the Nordic Region May-Len Skilbrei, Charlotta Holmström, 2016-04-08 There is great interest internationally in the development of prostitution policies in the Nordic countries after Sweden Norway and Iceland have introduced general bans against buying sex whilst selling sex remains legal In addition there is a partial ban against buying sex in Finland This is a different approach from that of several other European countries where we have seen a decriminalisation of third party involvement in prostitution as well as to that of the USA which criminalises both the buying and selling of sexual services Thus the Nordic countries are often treated as representatives of a Nordic model of prostitution policies In this book the first on the subject Skilbrei and Holmström argue that these models of policies or policy regimes tend to ignore the trajectories contexts and consequences of the full range of approaches to prostitution thus they are too simplistic and static Prostitution policies in the Nordic countries are multifaceted and dynamic and cannot be represented as following a straight path and detached from empirical contexts Their analysis treats Nordic prostitution policies both as a product of history of current national and Nordic debates and of international obligations and changes in the international

and national prostitution markets Furthermore they argue that a broad understanding of the relevant context is necessary so as to place Nordic prostitution policies within broader policy concerns related to gender class ethnicity sexuality social welfare immigration and organised crime as well as to neoliberal forms of governance

Of Vice and Women Margaretha Järvinen,1993 This work discusses society's attempts to define and understand sexual relations whether in the form of public or secluded encounters Using three general perspectives to classify earlier and more recent research Järvinen analyzes the content and implications of these theoretical frameworks She shows that the the systematization of controlling prostitution as a functionalist approach starkly demonstrates the underlying assumptions of past and to a certain extent current strategies to control commercial sex The author fully acknowledges the feminist perspective of prostitution and its disclosure of gender biased power relations Her efforts to interweave constructionist thinking with a massive empirical analysis of the control of prostitution merit special attention

Sex Work Teela Sanders,2005 Sex Work describes how women create complex psychological and emotional techniques to maintain their sanity while selling sex and explains how the indoor sex markets in Britain have a distinct occupational culture with a set of social norms code of conduct and moral hierarchies

Legal Protection of Children Against Sexual Exploitation in Taiwan Amy H.L. Shee,2019-05-23 First published in 1998 this volume responds to child prostitution being recognised as a major social problem in modern capitalist Taiwan It is defined both legally and socially as a problem of sexual transactions involving children and juveniles thus the issue of child maltreatment is submerged under other concerns However the main concern of this book is the protection of children from maltreatment so related socio legal measures will be examined by this parameter During the social campaigns against child prostitution structural problems such as police corruption male sexual perversion socio economic inequality and the maladjustment of aboriginal people in the modern Taiwanese society are subjugated to increasing criticism Nevertheless efforts to encounter any of them have had very limited accomplishment This book intends to show that the functions of law in the prevention and treatment of the social problem of child prostitution cannot work as intended if those structural problems are not properly tackled Suggestions are also made to address the need to reconceptualise the problem in the analytical framework of child maltreatment and to recommend the direction for reformation of policy and practice

Health and Work Lesley Doyal,Norma Daykin,1999-07-13 Occupational health issues have been identified as crucially important in the debate about socio economic determinants of health and illness Yet few texts have addressed issues of work and health in any depth while interest in the field continues to grow Health and Work explores current debates about inequalities in health focusing on the consequences of new patterns of employment for health stress and the quality of working life Drawing on multidisciplinary perspectives in an international global context each chapter examines changing discourses of risk and health and identifies implications for policy and practice within the health care arena as well as in relation to the management of the work environment

Misconceiving Mothers Laura E. Gómez,1997 A tiny African American baby lies in a hospital incubator tubes protruding from his nostrils head and limbs He couldn t take the hit the caption warns If you re pregnant don t take drugs Ten years earlier this billboard would have been largely unintelligible to many of us But when it appeared in 1991 it immediately conjured up several powerful images the helpless infant himself his unseen environment a newborn intensive care unit filled with babies crying inconsolably and the mother who did this crack addicted and unrepentant Misconceiving

Motherhood is a case study of how public policy about reproduction and crime is made. Laura E. Gomez uses secondary research and first hand interviews with legislators and prosecutors to examine attitudes toward the criminalization and or medicalization of drug use during pregnancy by the legislature and criminal justice system in California. She traces how an initial tendency toward criminalization gave way to a trend toward seeing the problem of crack babies as an issue of social welfare and public health. It is no surprise that in an atmosphere of mother blaming particularly targeted at poor women and women of color crack babies so easily captured the American popular imagination in the late 1980s. What is surprising is the way prenatal drug exposure came to be institutionalized in the state apparatus. Gomez attributes this circumstance to four interrelated causes: the gendered nature of the social problem, the recasting of the problem as fundamentally medical rather than criminal, the dynamic nature of the process of institutionalization and the specific features of the legal institutions that is the legislature and prosecutors offices that became prominent in the case. At one level *Misconceiving Mothers* tells the story of a particular problem at a particular time and place how the California legislature and district attorneys grappled with pregnant women's drug use in the late 1980s and early 1990s. At another level the book tells a more general story about the political nature of contemporary social problems. The story it tells is political not just because it deals with the character of political institutions but because the process itself and the nature of the claims making concern the power to control the allocation of state resources. A number of studies have looked at how the initial criminalization of social problems takes place. *Misconceiving Mothers* looks at the process by which a criminalized social problem is institutionalized through the attitudes and policies of elite decision makers. Author note: Laura E. Gomez is Acting Professor of Law and Sociology, University of California, Los Angeles.

Social Pedagogy for the Entire Lifespan Jacob Kornbeck, Niels Rosendal Jensen, 2012-06. The ambition of this two volume publication is to illustrate the applicability of social pedagogy as an academic and professional paradigm to work with the most diverse target populations. It is launched at a moment when important and highly interesting developments can be observed in the United Kingdom: a country without a traditional social pedagogy model has started importing social pedagogy from countries with a social pedagogy tradition. *Social Pedagogy for the Entire Lifespan* illustrates how social pedagogy as a model in theory and practice has been and is currently being used around and across Europe for work with people of all age groups. Volume II proposes chapters on work with adults including social problems, physical and mental disabilities and older people, written by authors based in Belgium, Denmark, Norway, Poland, Spain, Sweden and Switzerland. Readers will find chapters discussing the implications regarding the use of educational theories to conceptualise social pedagogy as well as the relevance of life long learning debates not only in academia but also in politics. The global worldwide dimension is covered by a chapter on the relationship between Latin American and European social pedagogy.

Crossing Borders and Shifting Boundaries M. Morokvasic-Müller, Umut Erel, Kyoko Shinozaki, 2013-11-11. The two volumes *Gender and Migration: crossing borders and shifting boundaries* offer an interdisciplinary perspective on women and

men on the move today exploring the diversification of migratory patterns and its implication in different parts of the world It reflects the vibrant scholarly debates as well as unique learning and teaching experiences of the Project Area Migration the International Women s University While pointing to historical continuities it is shown how contemporary ways of bridging time and space are shaped by the new opportunities or lack of them related to the process of globalization This shaping is gendered Gendering migration paves the way for further intersectional analysis Vol I critically examines mobility globalization and migration policy from a gender perspective It includes case studies on internal and international migratory processes in and from Latin America Europe Africa Asia and North America Furthermore it makes an important contribution to the issue of agency and empowerment emerging from migrant women s experience
