Of Walls And Bridges The United States And Eastern Europe

Bennett Kovrig

Of Walls And Bridges The United States And Eastern Europe:

Of Walls and Bridges Bennett Kovrig, 1991-06 In this ambitious work Bennett Kovrig lucidly traces the economic political and ideological developments that have characterized U S relations with Eastern Europe since World War II Kovrig provides a refreshingly objective examination of the complex evolution of events that led to the end of the cold war His account of the days prior to America's global confrontation with the U S S R when U S interests in Eastern Europe were minimal of the economic and psychological warfare of the cold war and of the growing diversity of Eastern European nations that contributed to the upheavals of 1989 offers a rich and comprehensive background to the current scenario *The American Bibliography of Slavic and East European Studies* Patt Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology

Red Reckoning Mark Boulton, Tobias T. Gibson, 2023-11-15 Though it ended more than thirty years ago the Cold War still casts a long shadow over American society Red Reckoning examines how the great ideological conflict of the twentieth century transformed the nation and forced Americans to reconsider almost every aspect of their society culture and identity Using an interdisciplinary approach the volume's contributors examine a broad array of topics including the Cold War's impact on national security race relations gun culture and masculinity law college football advertising music film free speech religion and even board games Above all Red Reckoning brings a vitally important era back to life for those who lived through it and for students and scholars wishing to understand it *Eisenhower* P G. Boyle, 2015-11-17 Eisenhower is the president who established America as a superpower He had already launched his reputation as the leading US military figure in the Second World War and then as supreme commander of the land forces of the newly created NATO This book looks at how Eisenhower held power in the political field and to what extent his political career was a success This text is ideal for undergraduate courses in 20th Century American History and American Studies **Encyclopedia of the Kennedys** Joseph M. Siracusa, 2012-09-07 An expansive reference that overviews John F Kennedy's presidency covering the people places and events that comprised the political landscape of the Kennedy era The Kennedy family has played a leading role in the annals of American politics for over 100 years no greater than when John F Kennedy JFK became the 35th president of the United States The celebrity surrounding the circumstances of his presidency particularly his sudden assassination made JFK the object of many enduring myths that he might have been one of the country's greatest leaders had he lived that he would have kept the United States out of Vietnam and that he was a martyr to right wing assassins Encyclopedia of the Kennedys The People and Events That Shaped America is a three volume reference set that provides an in depth look at JFK's presidency including his foreign and domestic policies political allies and enemies and major events and speeches This A Z encyclopedia also contains entries on the events of the 1960s that changed our nation forever such as JFK's assassination and the Warren

Commission report the space program and the My Lai Massacre as well as the individuals who defined the time such as writers Norman Mailer and James Baldwin folk musicians Bob Dylan and Joan Baez and activists Cesar Chavez and Martin Luther King Jr Appendices provide a substantial archive of primary documents and identify officeholders during JFK's presidency while an annotated bibliography supplies sources for additional research

Dueling Visions Ronald R. Krebs, 2001 The presidential election of 1952 unlike most others before and since was dominated by foreign policy from the bloody stalemate of Korea to the deepening menace of international communism During the campaign Dwight Eisenhower and his spokesmen fed the public's imagination with their promises to liberate the peoples of Eastern Europe and created the impression that in office they would undertake an aggressive program to roll back Soviet influence across the globe But time and again during the 1950s Eisenhower and his advisers found themselves powerless to shape the course of events in Eastern Europe they mourned their impotence but did little In *Dueling Visions* Ronald R. Krebs argues that two different images of Eastern Europe's ultimate status competed to guide American policy during this period Finlandization and rollback Rollback championed by the Joint Chiefs of Staff and the Central Intelligence Agency was synonymous with liberation as the public understood it detaching Eastern Europe from all aspects of Soviet control Surprisingly the figure most often linked to liberation Secretary of State John Foster Dulles came to advocate a more subtle and measured policy that neither accepted the status quo nor pursued rollback This American vision for the region held up the model of Finland imagining a tier of states that would enjoy domestic autonomy and perhaps even democracy but whose foreign policy would toe the Soviet line Krebs analyzes the conflicting logics and webs of assumptions underlying these dueling visions and closely examines the struggles over these alternatives within the administration Case studies of the American response to Stalin's death and to the Soviet Yugoslav rapprochement reveal the eventual triumph of Finlandization both as vision and as policy Finally Krebs suggests the study's implications for international relations theory and contemporary foreign affairs

The Crisis of Détente in Europe Leopoldo Nuti, 2008-11-11 This edited volume is the first detailed exploration of the last phase of the Cold War taking a critical look at the crisis of détente in Europe in the late 1970s and early 1980s The transition from détente to a new phase of harsh confrontation and severe crises is an interesting indeed crucial phase of the evolution of the international system This book makes use of previously unreleased archival materials moving beyond existing interpretations of this period by challenging the traditional bipolar paradigm that focuses mostly on the role of the superpowers in the transformation of the international system The essays here emphasize the combination and the interplay of a large number of variables political ideological economic and military and explore the topic from a truly international perspective Issues covered include human rights the Euromissiles the CSCE Commission on Security and Cooperation in Europe the Revolution in Military Affairs economic growth and its consequences

Revolutionary Movements in World History James DeFronzo, 2006-07-20 This groundbreaking three volume encyclopedia is the first to focus exclusively on the revolutionary

movements that have changed the course of history from the American and French Revolutions to the present ABC CLIO is proud to present an encyclopedia that reaches around the globe to explore the most momentous and impactful political revolutions of the last two and a half centuries exploring their origins courses consequences and influences on subsequent individuals and groups seeking to change their own governments and societies In three volumes Revolutionary Movements in World History covers 79 revolutions from the American and French uprisings of the late 18th century to the rise of communism Nazism and fascism from Ho Chi Minh and Fidel Castro to the Ayatollah al Qaeda and the fall of the Berlin wall Written by leading experts from a number of nations this insightful cutting edge work combines detailed portrayals of specific revolutions with essays on important overarching themes Full of revealing insights compelling personalities and some of the most remarkable moments in the world s human drama Revolutionary Movements in World History offers a new way of looking at how societies reinvent themselves

International History of the Twentieth Century Antony Best,2004 Using their thematic and regional expertise four prominent authors have produced an authoritative yet accessible account of the history of international relations in the last century covering events in Europe Asia the Middle East Africa and the Americas

A Companion to Dwight D. Eisenhower Chester J. Pach,2017-04-07 A Companion to Dwight D Eisenhower brings new depth to the historiography of this significant and complex figure providing a comprehensive and up to date depiction of both the man and era Thoughtfully incorporates new and significant literature on Dwight D Eisenhower Thoroughly examines both the Eisenhower era and the man himself broadening the historical scope by which Eisenhower is understood and interpreted Presents a complete picture of Eisenhower s many roles in historical context the individual general president politician and citizen This Companion is the ideal starting point for anyone researching America during the Eisenhower years and an invaluable guide for graduate students and advanced undergraduates in history political science and policy studies Meticulously edited by a leading authority on the Eisenhower presidency with chapters by international experts on political international social and cultural history

Outcast Europe: The Balkans, 1789-1989 Tom Gallagher,2013-11-14 Examining two centuries of Balkan politics from the emergence of nationalism to the retreat of Communist power in 1989 this is the first book to systematically argue that many of the region s problems are external in origin A decade of instability in the Balkan states of southeast Europe has given the region one of the worst images in world politics The Balkans has become synonymous with chaos and extremism Balkanization meaning conflict arising from the fragmentation of political power is a condition feared across the globe This new text assesses the key issues of Balkan politics showing how the development of exclusive nationalism has prevented the region s human and material resources from being harnessed in a constructive way It argues that the proximity of the Balkans to the great powers is the main reason for instability and decline Britain Russia Austria Hungary France and finally the USA had conflicting ambitions and interests in the region Russia had imperial designs before and after the 1917 Revolution The Western powers sometimes tolerated these

or encouraged undemocratic local forces to exercise control in order to block further Soviet expansion. Leading authority Tom Gallagher examines the origins of these Western prejudices towards the Balkans, tracing the damaging effects of policies based on Western lethargy and cynicism and reassesses the negative image of the region, its citizens, their leadership skills, and their potential to overcome crucial problems.

America and the Cold War, 1941-1991 Norman A. Graebner, Richard Dean Burns, Joseph M. Siracusa, 2010-05-05 Three distinguished diplomatic historians offer an assessment of the Cold War in the realist tradition that focuses on balancing the objectives of foreign policy with the means of accomplishing them. *America and the Cold War 1941-1991: A Realist Interpretation* is a sweeping historical account that focuses on the policy differences at the center of this conflict. In its pages, three preeminent authors offer an examination of contemporary criticism of the Cold War, documenting the views of observers who appreciated that many policies of the period were not only dangerous but could not resolve the problems they contemplated. The study offers a comprehensive chronicle of U.S.-Soviet relations broadly conceived, from World War II to the collapse of the Soviet Union. It places the origins of the Cold War as related to the contentious issues of World War II and stresses the failure of Washington to understand or seriously seek settlement of those issues. It points out how nuclear weaponry gradually assumed political stature and came to dominate high-level Soviet-American diplomatic activity at the same time, discounting the notion that the Cold War was a global ideological confrontation for the future of civilization. A concluding chapter draws lessons from the Cold War decades, showing how they apply to dealing with nation-states and terrorist groups today.

Belligerents, Brinkmanship, and the Big Stick John M. Dobson, 2009-07-14 This encyclopedia offers authoritative coverage of the concepts, traditions, events, and individuals that shaped United States foreign relations from the American Revolution to the present. *Belligerents, Brinkmanship, and the Big Stick: A Historical Encyclopedia of American Diplomatic Concepts* is the first comprehensive encyclopedic work to focus specifically on America's extraordinary history of political engagement with the world. With hundreds of alphabetically organized entries and a rich collection of primary sources, it offers a unique way of understanding the centrality of diplomacy and the role of foreign relations throughout U.S. history. The encyclopedia is divided into five chronological sections, each containing a brief introduction, topical entries, biographical portraits, and representative documents. It is designed to help readers gain a deeper understanding of both general ideas as well as specific policies like the Monroe Doctrine, the Open Door Policy, and Shuttle Diplomacy. By examining seminal events, important ideas, and individual contributions in the context of U.S. history, the encyclopedia reveals the underlying traditions and motivations of American foreign policy as it has evolved over time.

American Diplomacy and the End of the Cold War Robert L. Hutchings, 1997 Hutchings adds a scholar's balanced judgment and historical perspective to his insider's view from the White House as he reconstructs how things looked to policymakers in the United States and in Europe, describes how and why decisions were made, and critically examines those decisions in the light of what can now be known.

A Companion to American Foreign Relations Robert

Schulzinger,2008-04-15 This is an authoritative volume of historiographical essays that survey the state of U S diplomatic history The essays cover the entire range of the history of American foreign relations from the colonial period to the present They discuss the major sources and analyze the most influential books and articles in the field Includes discussions of new methodological approaches in diplomatic history Democracy Promotion, National Security and Strategy Robert Pee,2015-07-24 This book investigates the relationship between democracy promotion and US national security strategy through an examination of the Reagan administration s attempt to launch a global campaign for democracy in the early 1980s which culminated in the foundation of the National Endowment for Democracy in 1983 and through an analysis of the early political interventions of the Endowment until 1986 A case study of the formation and early operations of the National Endowment for Democracy under the Reagan administration based on primary documents from both the national security bureaucracy and the private sector shows that while democracy promotion provided a new tactical approach to the conduct of US political warfare operations these operations remained tied to the achievement of traditional national security goals such as destabilising enemy regimes and building stable and legitimate friendly governments rather than being guided by a strategy based on the universal promotion of democracy This book will be of interest to students and scholars of US Foreign Policy Democracy Promotion and for those seeking to gain a better understanding of the Reagan Administration

Historical Dictionary of the Cold War Joseph Smith,Simon Davis,2017-03-15 Cold war was a term coined in 1945 by left leaning British writer George Orwell to predict how powers made unconquerable by having nuclear weapons would conduct future relations It was popularized in 1947 by American journalist Walter Lippmann amid mounting tensions between the erstwhile World War II Allies the capitalist democracies the United States of America and Britain versus the Soviet Union a communist dictatorship As the grand alliance of the Big Three they had defeated Nazi Germany its satellites and Japan in World War II but became rivals who split the world into an American led Western bloc and Soviet led Eastern bloc Both were secured from direct attack by arraying ever greater nuclear and conventional forces against the other while seeking global supremacy by other means The 45 year Cold War lasted until the Soviet Union collapsed between 1989 and 1991 This second edition of Historical Dictionary of the Cold War contains a chronology an introduction and an extensive bibliography The dictionary section has over 400 cross referenced entries on important personalities crucial countries and peripheral conflicts the increasingly lethal weapons systems and the various political and military strategies This book is an excellent resource for students researchers and anyone wanting to know more about this crucial period in history

International History of the Twentieth Century and Beyond Anthony Best,2008 This major global history of the twentieth century is written by four prominent international historians for first year undergraduate level and upward Using their thematic and regional expertise the authors cover events in Europe Asia the Middle East Africa and the Americas from the last century and beyond Among the areas this book covers are the decline of European hegemony over the international

order the diffusion of power to the two superpowers the rise of newly independent states in Asia and Africa the course and consequences of the major

Anatomy of Mistrust Deborah Welch Larson, 2000 Synthesizing different understandings of trust and mistrust from the theoretical traditions of economics psychology and game theory Larson analyzes five cases that might have been turning points in U S Soviet relations

Eastern Europe in the Twentieth Century - And After R. J. Crampton, 2002-04-12 Covering all key Eastern European states and their history right up to the collapse of communism this second edition of Eastern Europe in the Twentieth Century And After is a comprehensive political history of Eastern Europe taking in the whole of the century and the geographical area Focusing on the attempt to create and maintain a functioning democracy this new edition now examines events in Bosnia and Herzegovina includes a new consideration of the evolution of the region since the revolutions of 1989 91 surveys the development of a market economy analyzes the realignment of Eastern Europe towards the West details the emergence of organized crime discusses each state individually includes an up to date bibliography Eastern Europe in the Twentieth Century And After provides an accessible introduction to this key area which is invaluable to students of modern and political history
