*The Last of an Age* Sooyong Kim, 2017-12-01 In *The Last of an Age* Sooyong Kim explores the relationship between social change and the development of an Ottoman literary canon in the course of the sixteenth century by examining the work and reception of a popular poet Zati 1471-1546 Kim argues that a newly emergent group of bureaucratic literati through the production of authoritative biographical dictionaries ultimately relegated Zati to a lesser literary age driven by a self-fashioning that privileged broad linguistic ability above all else with poetry serving as the main vehicle for demonstrating that This study is interdisciplinary in approach taking insights from literary studies cultural history and social theory It adds to the scholarship on the rise of early modern Ottoman canons in the fields of visual arts and music and complements recent work on court

patronage Framed by ongoing critiques of canon formation among specialists of early modern Europe and late imperial China the study offers a comparative perspective on those issues      An Age of Extremes Joy Hakim,2005 Describes the time in America prior to the first World War the vast differences between the wealthy and the poor the changing from farming to factory work and the inventions of conveniences such as electric lights telephones and bicycles      **Jesus in an Age of Neoliberalism** James G. Treverton,2009-03-23 During the Cold War U S intelligence was concerned primarily with states non state actors like terrorists were secondary Now the priorities are reversed and the challenge is enormous States had an address and they were hierarchical and bureaucratic They thus came with some story Terrorists do not States were over there but terrorists are there and here They thus put pressure on intelligence at home not just abroad The strength of this book is that it underscores the extent of the change and ranges broadly across data collection and analysis foreign and domestic as well as presenting the issues of value that arise as new targets require collecting more information at home      *Protestants in an Age of Science* Theodore Dwight Bozeman,2012-12-01 Since Princeton College and Princeton Seminary were major radii of Realist influence the conservative Presbyterianism headquartered there is an ideal choice for a case study in the American impact of Baconianism Presbyterian thinkers already committed to a synthesis of Protestant religion and Newtonian science were afforded with additional means of elaborating a doxological version of natural science and of defending it against naturalism and other enemies of Christian faith Originally published in 1977 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value      *Asian Nationalism in an Age of Globalization* Roy Starrs,2013-10-23 Topics include Government Intervention and Economic Growth in East Asia Agricultural Nationalism in the Age of Globalization Japan s Dominance and Multi Racial Coalitions in Malaysia      Copyright Law in an Age of Limitations and Exceptions Ruth L. Okediji,2017-03-30 In this book leading scholars analyze the important role played by copyright exceptions in economic and cultural productivity      **Redefining Music Studies in an Age of Change** Edward W. Sarath,David E. Myers,Patricia Shehan Campbell,2016-09-13 Redefining Music Studies in an Age of Change Creativity

Diversity Integration takes prevailing discourse about change in music studies to new vistas as higher education institutions are at a critical moment of determining just what professional musicians and teachers need to survive and thrive in public life. The authors examine how music studies might be redefined through the lenses of creativity diversity and integration which are the three pillars of the recent report of The College Music Society taskforce calling for reform. Focus is on new conceptions for existent areas such as studio lessons and ensembles academic history and theory theory and culture courses and music education coursework but also on an exploration of music and human learning and an understanding of how organizational change happens. Examination of progressive programs will celebrate strides in the direction of the task force vision as well as extend a critical eye distinguishing between premature proclamations of mission accomplished and genuine transformation. The overarching theme is that a foundational systemic overhaul has the capacity to entirely revitalize the European classical tradition. Practical steps applicable to wide ranging institutions are considered from small liberal arts colleges to conservatory programs large research universities and regional state universities.

**Reclaiming Patriotism in an Age of Extremes** Steven B. Smith, 2021-02-23 A rediscovery of patriotism as a virtue in line with the core values of democracy in an extremist age. The concept of patriotism has fallen on hard times. What was once a value that united Americans has become so politicized by both the left and the right that it threatens to rip apart the social fabric. On the right patriotism has become synonymous with nationalism and an us versus them worldview while on the left it is seen as an impediment to acknowledging important ethnic religious or racial identities and a threat to cosmopolitan globalism. Steven B. Smith reclaims patriotism from these extremist positions and advocates for a patriotism that is broad enough to balance loyalty to country against other loyalties. Describing how it is a matter of both the head and the heart, Smith shows how patriotism can bring the country together around the highest ideals of equality and is a central and ennobling disposition that democratic societies cannot afford to do without. *Cosmic Chastity in an Age of Technocratic Lust* JEREMIAH.

BARKER, 2024-10-31 John Paul II and Benedict XVI Jeremiah Barker argues share the theological ethical and spiritual core of Pope Francis social teaching. Reappropriating R. R. Reno's redemption of Francis cogent argument, Barker draws out the underlying rationale of Francis' message which he argues is identical to the two previous popes. Inspired by Francis' call and teaching, Barker's compelling argument is an opportunity to reconsider the legacies of John Paul II and Benedict XVI in the light of contemporary Catholic debates and challenges. A unique and refreshing analysis, Barker's argument is relevant for any Catholic seeking to make sense of these popes' messages.

**Small Crimes in an Age of Abundance** Matthew Kneale, 2010-08-20 The author of the award winning novel *English Passengers* takes readers around the world in twelve deftly crafted stories that illuminate the uncertainties of life at home and abroad. Matthew Kneale received high praise for the prize winning *English Passengers*, an epic romp on the high seas and across nineteenth century cultures ingeniously woven together by a multitude of narrators. In *Small Crimes In An Age of Abundance*, Kneale brings his mastery of storytelling to our

present morally ambiguous world Set in lands ranging from England to China South America the Middle East and Africa these powerfully themed stories follow ordinary people as they try to survive and make sense of their worlds We follow a well intentioned English family who leave their tour group in China to travel alone and collide with the ruthless side of the country slowly becoming complicit in its violence a ploddingly respectable London lawyer who chances upon a stash of cocaine and realizes it offers the wealth and status he hungers for a salesman in Africa who becomes caught up in a riot that turns his life upside down a self doubting suicide bomber Kneale transports readers across continents in a nanosecond reaching to the heart of faraway societies with rare perceptiveness As the stories gain momentum tense funny and always compassionate they make readers see the world in a new way At times reminiscent of Julian Barnes s A History of the World in 10 1 2 Chapters at times Primo Levi s The Periodic Table Small Crimes In An Age of Abundance is a groundbreaking book by a master narrator of the uncertainties of our time

Reading the Bible in an Age of Crisis Bruce Worthington,2015 We live in an age in which economic ecological and

political crises are not the exception but the rule The Cold War polarities that shaped an earlier political exegesis have been replaced Bruce Worthington argues that increasingly crisis is the engine of a global turbo capitalism In this volume edited by Worthington biblical scholars and activists describe and exemplify the shape of a biblical interpretation that takes contemporary crisis seriously as its most important context Succinct opening essays summarize the salient aspects of our critical situation especially in relation to the dominance of capitalism and its pervasive values in later parts contributions address themes of economic political and environmental crisis in dialogue with texts from the First and Second Testaments Throughout the volume the authors are careful to describe the basis for making interpretive analogies across historical cultural and socioeconomic distances between the world of the Hebrew Bible the New Testament and our own Richard A Horsley writes a postscript pointing to next steps in political interpretation
