Tithe of Blood Esther Slade, 2010-12-09 Set in Washington DC and the US island territory of St Croix Tithe of Blood is the coming of age story of Hope Taylor Growing up in Contentment a small close knit community in St Croix Hope is a feisty energetic beauty who develops an early interest in public service In high school she is valedictorian and president of her senior class and voted most likely to succeed by her peers One thing is clear her political aspirations have no limits When Hope arrives on the Howard University campus in Washington DC her freshman year she meets and falls in love with Wes

Carter a former Army Sergeant Hope's ambition is equaled only to Wes and the relationship is doomed. Later when she gets the coveted White House intern position she meets the political insider Trent Williams. After a brief courtship Hope marries Trent in a lavish ceremony in St. Croix. All of Contentment attend the wedding and cheer their beloved daughter. Hope is not aware that on the surface Trent appears to be a successful attorney and political advisor to Washington's elite but underneath he is a functional manic depressive with dark secrets from his childhood. It is not long before Trent's deteriorating mental condition endangers her life and she becomes a victim of his psychotic violent episodes. Hope has a choice to make. She can choose to seek help or continue the charade in order to prevent a public relations nightmare and jeopardize her political career. Her choice will forever change her life and the lives of the people around her. *Tithe of Blood* is written with bluntness as it follows the timely political and emotional journey of Hope. Caryn Taylor **Rx for Hope** Nick Chen, David Tabatsky, 2018-10-16

In our current era of rapidly developing cancer drugs and therapies we also see improvement of cancer treatment outcomes stagnating when it comes to determining quality of life or long term survival. This is because while new treatments are making small incremental progress in outcomes most cancer patients still depend on conventional methods that are both toxic and ineffective. While new cancer drugs are becoming more precise or targeted less attention is being paid to the overall health and wellbeing of the patient which we propose is essential for long term cancer control and improving a patient's quality of life. *Rx for Hope* backed by rigorous science and real life patient cases calls for an urgent reevaluation of the current conventional approach to cancer treatments and encourages a progressive treatment model combining metronomic low dose chemotherapy with complementary integrative medicine. Along with new breakthrough immunotherapy drugs these treatments can potentially create a response powerful enough to not only eradicate the presence of cancer but also to prevent it from returning. Because every 23 seconds someone in America is diagnosed with cancer the number of people affected is growing rapidly. The American Cancer Society estimates that nearly two million new patients will need treatment in the coming year. Judging by current trends and methods of treatment far too many of these people will be treated without the benefits of low dose chemotherapy and even less will enjoy the positive impact of immune supportive complementary integrative medicine. *Rx for Hope* offers insight into a powerful way of treating cancer that patients and doctors can implement immediately for optimal results. *Fighting Cancer with Knowledge and Hope* Richard C. A Larger Hope?, Volume 1 Ilaria L. E. Ramelli, 2019-07-15 In the minds of some universal salvation is a heretical idea that was imported into Christianity from pagan philosophies by Origen c 185-253/4 Ilaria Ramelli argues that this picture is completely mistaken She maintains that Christian theologians were the first people to proclaim that all will be saved and that their reasons for doing so were rooted in their faith in Christ She demonstrates that in fact the idea of the final restoration of all creation apokatastasis was grounded upon the teachings of the Bible and the church's beliefs about Jesus' total triumph over sin death and evil through his incarnation crucifixion resurrection and ascension Ramelli traces the Christian roots of Origen's teaching on apokatastasis She argues that he was drawing on texts from Scripture and from various Christians who preceded him theologians such as Bardaisan Irenaeus and Clement She outlines Origen's often misunderstood theology in some detail and then follows the legacy of his Christian universalism through the centuries that followed We are treated to explorations of Origenian universal salvation in a host of Christian disciples including Athanasius Didymus the Blind the Cappadocian fathers Evagrius Maximus the Confessor John Scotus Eriugena and Julian of Norwich
