Of Minimal Things Studies On The Notion Of Relation:

Of Minimal Things Rodolphe Gasché, 1999 Om begreppet relation fr mst inom fenomenologisk och existentialistisk filosofi

Of Minimal Things Rodolphe Gasche, 2022 Of Minimal Things is an exploration and reassessment of the philosophical notion of relation In contrast to the scholastic ontological conception of relation as a thing of diminished being this book views relation as the minimal and elemental theme and structure of philosophy Drawing radical conclusions from the classical understanding of relation as a being toward another it argues that rethinking relation engages the very possibility and limits of philosophical discourse In the author s studies of Nietzsche and Benjamin Husserl and Heidegger Derrida and Blanchot relation is shown to be central to their thought and to undergo elaborations that escape the ontological categorial and formalist ways in which the concept has traditionally been interpreted Comprehending relation in terms of determination foundation mediatization translation or communication these authors are shown to draw out and refine a host of structural implications of the notion that unseat its formalist and categorial conception Studying the writings of Mallarmé and Kafka the author argues that rethought from and in light of the other to which a relation tends philosophy necessarily opens up to and is implicated in its others one such possible other being literature

The Primacy of Semiosis Paul Bains, 2014-01-16 The Primacy of Semiosis provides a semiotic that subverts the opposition between realism and idealism one in which what have been called nature and culture interpenetrate in an expanding collective of human and non human

Sovereign Lives Jenny Edkins, Michael J. Shapiro, Veronique Pin-Fat, 2012-10-02 For International Relations scholars discussions of globalization inevitably turn to questions of sovereignty How much control does a country have over its borders people and economy Where does that authority come from Sovereign Lives explores these changes through reading of humanitarian intervention human rights discourses securitization refugees the fragmentation of identities and the practices of development

The Multidimensionality of Hermeneutic Phenomenology Babette Babich, Dimitri Ginev, 2014-01-15 This book offers new reflections on the life world from both phenomenological and hermeneutic perspectives It presents a prism for a new

philosophy of science and technology especially including the social sciences but also the environment as well as questions of ethics and philosophical aesthetics in addition to exploring the themes of theology and religion Inspired by the many contributions made by the philosopher Joseph Kockelmans this book examines the past present and future prospects of hermeneutic phenomenology It raises key questions of truth and method as well as highlights both continental and analytic traditions of philosophy Contributors to The Multidimensionality of Hermeneutic Phenomenology include leading scholars in the field as well as new voices representing analytic philosophers of science hermeneutic and phenomenological philosophers of science scholars of comparative literature theorists of environmental studies specialists in phenomenological ethics and experts in classical hermeneutics

Deconstruction and Democracy Alex Thomson, 2007-12-15 No democracy without deconstruction Deconstruction and Democracy evaluates and substantiates Derrida's provocative claim assessing the importance of this influential and controversial contemporary philosopher's work for political thought Derrida addressed political questions more and more explicitly in his writing yet there is still confusion over the politics of deconstruction Alex Thomson argues for a fresh understanding of Derrida's work which acknowledges both the political dimension of deconstruction and its potential contribution to our thinking about politics The book provides cogent analysis and exegesis of Derrida's political writings explores the implications for political theory and practice of Derrida's work and brings Derrida's work into dialogue with other major strands of contemporary political thought Deconstruction and Democracy is the clearest and most detailed engagement available with the politics of deconstruction and is a major contribution to scholarship on the later works of Jacques Derrida most notably his Politics of Friendship

Choreographing Relations Petra Sabisch, 2011 Choreographing Relations undertakes the experiment of a conceptual site development of contemporary choreography by means of practical philosophy Guided by the radically empiricist question What Can Choreography Do the book investigates the performances of Antonia Baehr Juan Dominguez Xavier Le Roy and Eszter Salamon and the philosophical works of Gilles Deleuze and Félix Guattari It establishes a relation between these practitioners as an encounter in method and develops method as a singular material and experimental practice In view of these singular methods and the participatory relations to which they give rise Choreographing Relations offers a prolific inventory of representational procedures that qualitatively transformed choreography and philosophy at the turn of the twentieth century

The Essentialist Villain Mikko Tuhkanen, 2018-04-25 Since his first publications in the late 1950s Leo Bersani's work has influenced numerous scholarly fields from studies of French modernism and realist fiction to psychoanalytic criticism and film theory It has occasionally helped precipitate the emergence of new disciplinary fields such as queer theory in the late 1980s The Essentialist Villain is the first book length study of this impressively rich oeuvre Mikko Tuhkanen tracks the unfolding of Bersani's onto ethics aesthetics paying particular attention to his persistent references to essence a concept central to classical speculative philosophy which has fallen into distinct disfavor since the emergence of deconstructive thought Because of his early

influences particularly Gilles Deleuze's philosophy Bersani remains an ontologist through decades when deconstruction seems to have all but disallowed any thought of being Tuhkanen also locates Bersani's thought amidst numerous literary artistic and philosophical interlocutors including Deleuze Freud Proust Laplanche Beckett Baudelaire Genet Leibniz and others

Reading and Responsibility Derek Attridge, 2011-09-14 Newly available in paperback this book traces a close engagement with Derrida's writing over two decades examining the relationship between deconstruction literature and ethics

Milieus of Minutiae Elizabeth Brogden, Christiane Frey, 2024-12-19 The long history of tiny matter's in the sciences thought and culture From catastrophic weather and steady warming caused by the accumulation of carbon particles in the Earth's atmosphere to societies brought to a standstill by microscopic viruses the new millennium has reminded us of how the minutest of phenomena can have outsized effects This notion is one that has preoccupied the European and Anglo American cultural imaginary since at least early modernity *Milieus of Minutiae* brings together an interdisciplinary group of scholars to investigate various forms and appearances of minutiae prior to and beyond the advent of magnification The collection illuminates connections between the empirical practices and technologies with which minutiae have come to be associated and the broader more diffuse discourses from the philosophical to the artistic that have attended theories of smallness before and after Hooke's *Micrographia* Placing essays on Renaissance poetry Romantic fiction and matters of punctuation alongside essays on early modern germ theory and the optics of microscopic technology this rigorously framed volume extends from sixteenth century pathology to twentieth century architectural theory natural science to literature and art

Unbridled William Robert, 2022-02-14 A study of religion through the lens of Peter Shaffer's play *Equus* In *Unbridled* William Robert uses *Equus* Peter Shaffer's enigmatic play about a boy passionately devoted to horses to think differently about religion For several years Robert has used *Equus* to introduce students to the study of religion provoking them to conceive of religion in unfamiliar even uncomfortable ways In *Unbridled* he is inviting readers to do the same A play like *Equus* tangles together text performance practice embodiment and reception Studying a play involves us in playing different roles as ourselves and others and those roles as well as the imaginative work they require are critical to the study of religion By approaching *Equus* with the reader turning the play around and upside down *Unbridled* transforms standard approaches to the study of religion engaging with themes including ritual sacrifice worship power desire violence and sexuality as well as thinkers including Judith Butler Sigmund Freud Karl Marx Friedrich Nietzsche and Jonathan Z Smith As *Unbridled* shows the way themes and theories play out in *Equus* challenges us to reimagine the study of religion through open questions contrasting perspectives and alternative modes of interpretation and appreciation

Foundations of Public Law Martin Loughlin, 2012-09-27 *Foundations of Public Law* offers an account of the formation of the discipline of public law with a view to identifying its essential character explaining its particular modes of operation and specifying its unique task Building on the framework first outlined in *The Idea of Public Law* OUP 2003 the book conceives public law broadly as a type of law that

comes into existence as a consequence of the secularization rationalization and positivization of the medieval idea of fundamental law Formed as a result of the changes that give birth to the modern state public law establishes the authority and legitimacy of modern governmental ordering Public law today is a universal phenomenon but its origins are European Part I of the book examines the conditions of its formation showing how much the concept borrowed from the refined debates of medieval jurists Part II then examines the nature of public law Drawing on a line of juristic inquiry that developed from the late sixteenth to the early nineteenth centuries extending from Bodin Althusius Lipsius Grotius Hobbes Spinoza Locke and Pufendorf to the later works of Montesquieu Rousseau Kant Fichte Smith and Hegel it presents an account of public law as a special type of political reason The remaining three Parts unpack the core elements of this concept state constitution and government By taking this broad approach to the subject Professor Loughlin shows how rather than being viewed as a limitation on power law is better conceived as a means by which public power is generated And by explaining the way that these core elements of state constitution and government were shaped respectively by the technological bourgeois and disciplinary revolutions of the sixteenth century through to the nineteenth century he reveals a concept of public law of considerable ambiguity complexity and resilience

Comparative Political Theory and Cross-Cultural Philosophy Jin Y. Park, 2009-06-16 *Comparative Political Theory and Cross Cultural Philosophy* Essays in Honor of Hwa Yol Jung explores new forms of philosophizing in the age of globalization by challenging the conventional border between the East and the West as well as the traditional boundaries among different academic disciplines The essays in this volume examine diverse issues encompassing globalization cosmopolitanism public philosophy political ecology ecocriticism ethics of encounter and aesthetics of caring They examine the philosophical traditions of phenomenology of Husserl Merleau Ponty and Heidegger the dialogism of Mikhail Bakhtin the philosophy of mestizaje literature and Asian philosophical traditions This rich comparative and cross cultural investigation of philosophy and political theory demonstrates the importance of cultural and cross cultural understanding in our reading of philosophical texts exploring how cross cultural thinking transforms our understanding of the traditional philosophical paradigm and political theory This volume honors the scholarship and philosophy of Hwa Yol Jung who has been a pioneer in the field of comparative political theory cross cultural philosophy and interdisciplinary scholarship In one of his earliest publications *The Crisis of Political Understanding* 1979 Jung described the urgency and necessity of breakthrough in political thinking as a crisis and he followed up on this issue for his half century of scholarship by introducing Asian philosophy and political thought to Western scholarship demonstrating the possibility of cross cultural philosophical thinking In his most recent publications Jung refers to this possibility as transversality or transuniversality a concept which should replace the outmoded Eurocentric universality of modernist philosophy Jung expounds that in transversality differences are negotiated and compromised rather than effaced and absorbed into sameness This volume is a testimony to the very possibility of

Literature, Autonomy and Commitment Aukje van Rooden, 2019-06-27 It is

often argued that a new form of committed literature is needed Embracing the 18th century Romantic idea of aesthetic autonomy literature is believed to have turned its back to everyday social and political reality One of the central questions occupying contemporary literary debates is therefore whether literary autonomy is essential to modern literature autonomism or should be abandoned anti autonomism Aukje van Rooden argues that the debate between autonomists and anti autonomists cannot be anything but a fruitless tug of war because it is based on a distorted historical picture In order to make sense of the social relevance of contemporary literature a new theoretical paradigm has to be formulated Literature Autonomy and Commitment not only offers an historical conceptual reconstruction of the Romantic paradigm and the theoretical impasse it has created but also sketches the outline of a new paradigm called the relational paradigm based on the relational ontologies developed in 20th and 21st century philosophy Ellipsis William S. Allen,2012-02-01 What is the nature of poetic language when its experience involves an encounter with finitude with failure loss and absence For Martin Heidegger this experience is central to any thinking that would seek to articulate the meaning of being but for Friedrich Hlderlin and Maurice Blanchot it is a mark of the tragic and unanswerable demands of poetic language In Ellipsis a rigorous original study on the language of poetry the language of philosophy and the limits of the word William S Allen offers the first in depth examination of the development of Heidegger s thinking of poetic language which remains his most radical and yet most misunderstood work that carefully balances it with the impossible demands of this experience of finitude an experience of which Hlderlin and Blanchot have provided the most searching examinations In bringing language up against its limits Allen shows that poetic language not only exposes thinking to its abyssal grounds but also indicates how the limits of our existence come themselves traumatically impossibly to speak Beckett, Derrida, and the Event of Literature Asja Szafraniec,2007 The late Jacques Derrida s notion of literature is explored in this new study Starting with Derrida s self professed inability to comment on the work of Samuel Beckett whom Derrida nevertheless considered one of the most interesting and exemplary writers of our time Asja Szafraniec argues that the shared feature of literary works as Derrida understands them is a double juridical economical gesture and that one aspect of this notion the juridical is more hospitable to Beckett s oeuvre than the other She then discusses other contemporary philosophical approaches to Beckett including those of Gilles Deleuze Stanley Cavell and Alain Badiou The book offers an innovative analysis of Derrida s approach to literature as well as an overview of current philosophical approaches to contemporary literature and a number of innovative readings of Beckett s work **Persons in Relation** Najib George Awad,2014 Tracing out the origins of the Trinitarian revival in the modern era through to the destabilizing effects of postmodernity on Trinitarian discourse the author provides a critical hermeneutic for the evaluation and implementation of Trinitarian theology in the contemporary world **Derrida and the Time of the Political** Suzanne Guerlac,Pheng Cheah,2009-01-16 A collection assessing the implications of Derridas thought for contemporary political theory and politics Communication in Modern Social Ordering Kai

Eriksson, 2011-07-21 *Communication in Modern Social Ordering* investigates the modern history of communication in relation to the thinking of the political community in the United States. By illustrating the intertwining of the technological developments in communication methods and its community building effects, the different representations of society and their political implications are examined against the development of communication systems from the telegraph to the telephone to computer networks. It was the telegraph that made communication a continual process, thus freeing it from the rhythmical motion of the postal service and from physical transportation in general, and provided both a model and a mechanism of control. Using the theories of both Foucault and Heidegger to provide a lens for new investigation, the author studies not the meanings of communication and its logic as such, but rather the conditions and structures that allow meanings and logic to be formulated in the first place. The book offers an original combination of historical analysis with an ontological discussion of the evolution of telecommunications in the U.S. as a phenomenon of modern social ordering.
