The Cumulative Book Index ,1995 A world list of books in the English language **Shakespeare and the Cultural Politics of Conversion** Stephen Wittek,2022-09-17 This book takes a close look at Shakespeare s engagement with the flurry of controversy and activity surrounding the concept of conversion in post Reformation England For playhouse audiences during the period conversional thought encompassed a markedly diverse fluid amalgamation of ideas practices and arguments centered on the means by which an individual could move from one category of identity to another In an analysis that includes chapter length readings of The Taming of the Shrew Henry IV Part I The Merchant of Venice Othello and The Tempest the book argues that Shakespearean drama made a unique and substantive intervention in public discourse surrounding conversion and continues to speak meaningfully about conversional experience for audiences in the present age It will be of particular benefit to students and scholars with an interest in theatrical history performance theory theology cultural studies race studies and gender studies *An Empire Nowhere* Jeffrey Knapp,2023-04-28 What caused England s literary renaissance One answer has been such unprecedented developments as the European discovery of America Yet

England in the sixteenth century was far from an expanding nation Not only did the Tudors lose England's sole remaining possessions on the Continent and thanks to the Reformation grow spiritually divided from the Continent as well but every one of their attempts to colonize the New World actually failed Jeffrey Knapp accounts for this strange combination of literary expansion and national isolation by showing how the English made a virtue of their increasing insularity Ranging across a wide array of literary and extraliterary sources Knapp argues that English poets rejected the worldly acquisitiveness of an empire like Spain's and took pride in England's material limitations as a sign of its spiritual strength In the imaginary worlds of such fictions as *Utopia* *The Faerie Queene* and *The Tempest* they sought a grander empire founded on the otherworldly virtues of both England and poetry itself This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1992
