A New Imperial History of Northern Eurasia, 1700-1918 Marina B. Mogilner, Alexander Semyonov, Ilya V. Gerasimov, Sergey Glebov, 2025-02-20 A New Imperial History of Northern Eurasia 1700 1918 proposes a new language for studying and conceptualizing the spaces societies and institutions that existed on the territory of today s Northern Eurasia until recently part of the USSR Traditional concepts and genealogies that frame human experience have to be avoided or reframed this is not the story of a certain present day state or people evolving through consecutive historical stages Rather the book s point of departure is a modern analytical approach to the problem of human diversity as a fundamental social condition In the form of cooperation and confrontation various attempts to manage diversity fostered processes of societal self organization as new ideas practices and institutions were developed virtually from scratch or radically altered when borrowed Essentially this is the story of individuals and societies who creatively responded to their natural and social environments and sought answers to universal problems in unique historical circumstances This volume which brings together leading scholars from both the

United States and Russia covers the period during which the enormous landmass from the Carpathian Mountains in the west to the Pacific Ocean in the east from the Polar Circle in the north to the steppe belt in the south was put under the control of a single polity the Russian Empire Previously the competing local scenarios of self organization had taken specific political forms that suited them best This book shows that the Russian Empire faced the daunting task of coordinating multifaceted diversity within a single political and legal body under constantly changing domestic and international circumstances The study reveals that to this end the imperial regime employed various means from violence to science from segregation to integration and yet was still unable to block multiple political actors within the empire from advancing their own strategies of belonging resistance and participation

Dissent on the Margins Emily B. Baran, 2016 Emily B Baran offers a gripping history of how a small American based religious community the Jehovah s Witnesses found its way into the Soviet Union after World War II survived decades of brutal persecution and emerged as one of the region s fastest growing religions after the Soviet Union s collapse in 1991 In telling the story of this often misunderstood faith Baran explores the shifting boundaries of religious dissent non conformity and human rights in the Soviet Union and its successor states Soviet Jehovah s Witnesses are a fascinating case study of dissent beyond urban intellectual nonconformists Witnesses who were generally rural poorly educated and utterly marginalized from society resisted state pressure to conform They instead constructed alternative communities based on adherence to religious principles established by the Witnesses international center in Brooklyn New York The Soviet state considered Witnesses to be the most reactionary of all underground religious movements and used extraordinary measures to try to eliminate this threat Yet Witnesses survived while the Soviet system did not After 1991 they faced continuing challenges to their right to practice their faith in post Soviet states as these states struggled to reconcile the proper limits on freedom of conscience with European norms and domestic concerns Dissent on the Margins provides a new and important perspective on one of America s most understudied religious movements

Religion in Today's World Melissa M. Wilcox, 2013-12-19 Religion is a major force in contemporary society. It is also one of the least understood social and political influences on individuals and communities. In this innovative collection of original essays and classic readings, experts explore the significance of contemporary religiosity as a source of meaning and motivation, how it unites and divides us, and how it is used politically and culturally. Readers will be introduced to the broad debates in ways that will equip them to analyze, discuss, and make their own judgments about religion and society. This book should be read by anyone interested in understanding religion as a central source of meaning and politics and is ideally suited for undergraduate teaching on religion and social issues and from a global perspective. *Crimea in War and Transformation* Mara Kozelsky, 2019 Crimea in War and Transformation is the first exploration of the civilian experience during the Crimean War, from its beginning with Russian mobilization in 1852 and lasting through demobilization in 1857, the conflict devastated the peoples and landscapes of Crimea as well as the volatile southern borderlands of the Russian Empire, leading to the largest war recovery program yet undertaken by the Russian government. Moderniser of Russia K. Boterbloem, 2013-02-27 This book investigates Russia's transformation into a European Power by way of the activities of the tsarist translator and official Andrei Vinius, who became an important advisor to Peter the Great. Vinius emerges as an influential conduit of Western culture and technology who played a key role in transforming Muscovy into Russia. State Responses to Minority Religions Dr David M. Kirkham, 2013-12-06 This book explores state responses to minority religions in four parts. The volume provides a legal and normative overview of the variety of responses available to states and looks at Islamic majority countries. It also focuses on Western Europe, paying particular attention to the rise in the twentieth century of the sect and exploration of the European Court of Human Rights. **The Ottoman East in the Nineteenth Century** Ali Sipahi, Dzovinar Derderian, Yasar Tolga Cora, 2016-06-10 The Ottoman East, what is also called Western Armenia, Northern Kurdistan, or Eastern Anatolia, compared to other peripheries of the Ottoman Empire, has received very little attention in Ottoman historiography. So-called taboo subjects such as the fate of Ottoman Armenians and the Kurdish Question during the latter years of the Ottoman Empire have contributed to this dearth of analysis. By integrating the Armenian and Kurdish elements into the study of the Ottoman Empire, this book seeks to emphasise the interaction of different ethno-religious groups. As an area where Ottoman centralization faced unsurpassable challenges, the Ottoman East offers an ideal opportunity to examine an alternative social and political model for imperial governance and the means by which provincial rule interacted with the Ottoman centre. Discussing vital issues across this geographical area, such as trade routes, regional economic trends, migration patterns, and the molding of local and national identities, this book offers a unique and fresh approach to the history and politics of modernization and empire in the wider region. *Stolen Churches or Bridges to Orthodoxy?* Vladimir Latinovic, Anastacia K. Wooden, 2021-02-02 Throughout their shared history, Orthodox and Eastern Catholic Churches have lived through a very complex and sometimes tense relationship, not only theologically but

also politically In most cases such relationships remain to this day indeed in some cases the tension has increased In July 2019 scholars of both traditions gathered in Stuttgart Germany for an unprecedented conference devoted to exploring and overcoming the division between these churches This book the first in a two volume set of the essays presented at the conference explores historical and theological themes with the goal of healing memories and inspiring a direct dialogue between Orthodox and Eastern Catholic Churches Like the conference the volume brings together representatives of these Churches as well as theologians from different geographical contexts where tensions are the greatest The published essays represent the great achievements of the conference willingness to engage in dialogue general openness to new ideas and opportunities to address difficult questions and heal inherited wounds

Ransel, Bożena Shallcross, 2005-06-15 Highlights Poland's central role in the formation of a modern Russian identity *Eastern Christians in Anthropological Perspective* Chris Hann, Hermann Goltz, 2010-05-27 This collection of essays is a welcome and refreshing gift in a virtual desert. There has been very little comparative anthropological research on the Eastern churches and this volume will fill that gap. Michael Herzfeld, author of *Evicted from Eternity: The Restructuring of Modern Rome*. At long last there is a book on the anthropology of Christianity that devotes direct and sustained attention to the diverse Eastern Christian Churches, both Orthodox and Catholic. This book should be read by anyone who thinks anthropologically about Christianity. Scales will fall from their eyes and they will behold an entire wing of Christianity that has until now gone mostly unnoticed and practically untheorized. Douglas Rogers, author of *The Old Faith and the Russian Land: A Historical Ethnography of Ethics in the Urals*.
