through the Lens of Socio-legal and Policy Framework Adv Dr Shalu Nigam, 2024-02-18 Motherhood is a powerful virtue. However, in a patriarchal society, it is construed narrowly to uphold the heteronormative family norms which prioritize men over women. This traditional framework overlooks the diverse family forms and alienates female-headed households. Rather, families headed by lone mothers are chastened and labelled as broken, pathological, and degenerative. Despite constitutional guarantees of equality and justice, the state and society alienate them, deny them visibility, and absolve themselves of the responsibilities of protecting their citizenship rights. Nevertheless, for ages, single mothers, despite all hardships, have been defying patriarchal norms and are bringing up their children solely with little support available from their families, society, or the state. Rather, they are challenging the dominant and hegemonic male breadwinner and provider model. This work examines this active and empowered notion of motherhood or feminist and emancipatory mothering while focusing on how lone mothers are redefining and reshaping the socio-cultural norms to pave the social transformation through their maternal activism. With the increase in the number of female-headed households, this work recommends the need for an alternative approach to disrupt the dominant themes of victimhood, poverty, destitution, and neglect by deploying the axis of intersectionality. It suggests that the state needs to evolve a comprehensive empowerment framework to specifically recognize the entitlements of single mothers as citizens and take steps to advance their citizenship rights.

What About Us? Maureen Freely, 2012-02-16 This work explores why feminism comes into conflict with women who have children and why women with children suffer when they try to put feminist ideas into practice.

Feminisms Maggie Humm, 2014-06-11 This major textbook for women's studies provides an excellent and wide-ranging introduction to feminist ideas and perspectives on issues such as the family, sexuality, work, education, patriarchy, race, language, culture, and representation. It brings together over seventy key excerpts.

Making Sense of Motherhood Beth M. Stovell, 2016-02-02 Motherhood provides a crucial place for exploring human life and its meaning. Within motherhood lies a deep tension between the pain, crisis, and association with death in motherhood and the joy, transformation, and life in motherhood. Few metaphors in Scripture or in life stand so firmly between life and death, love and loss, and joy and deep pain. After all, motherhood's meaning in part comes again and again at these crucial crossroads. Thus, motherhood has powerful implications for our biblical and theological understanding. Bringing together Jewish and ecumenical Christian scholars from North America, Oceania, and South America, this edited volume provides biblical and theological perspectives on understanding motherhood. The authors reflect upon a selection of biblical texts, systematic theologians, and Christian spiritual traditions to dialogue with the experience of maternity in its diverse manifestations. The purpose of the book is to provide essays that, through these biblical and theological lenses, engage the question of motherhood today, from the experience of pregnancy and birth to raising children to losing children and coping with grief. In this way, this volume helps to make sense of the complexity of motherhood.

Motherhood and Meaning in Medieval Sculpture Marian Bleeke, 2017 An examination of women as mothers in

medieval French sculpture What can medieval sculptural representations of women tell us about medieval women's experiences of motherhood Presumably the work of male sculptors working for clerical patrons these sculptures are unlikely to have been shaped by women's maternal experiences during their production Once produced however their beholders would have included women who were mothers and potential mothers thus opening a space between the sculptures intended meanings and other meanings liable to be produced by these women as they brought their own interests and concerns to these works of art Building on theories of reception and response this book focuses on interactions between women as beholders and a range of sculptures made in France in the twelfth through sixteenth centuries aiming to provide insight into women's experiences of motherhood particular sculptures considered include the Annunciation and Visitation from Reims cathedral the *femme aux serpents* from Moissac the *transi* of Jeanne de Bourbon Vendôme the Eve from Autun and a number of French Gothic Virgin and Child sculptures Marian Bleeke is Associate Professor of Art History and Chair of the Department of Art and Design at Cleveland State University Twenty-first-Century Motherhood Andrea O'Reilly, 2010-09-28 Andrea O'Reilly's coverage is comprehensive Her book reflects current trends in the field particularly the examination of reproductive technologies and the Internet and their implications for motherhood and mothering Heather Hewett State University of New York New Paltz writer and editor of the Global Mama column for Girl with Pen www.girlwopen.com *Handbook of Gender Studies in the Dutch Caribbean*, 2024-04-30 Edited by Rose Mary Allen and Sruti Bala this comprehensive handbook of gender studies scholarship on the Dutch Caribbean islands thematically covers the history of movements for gender equality the relation of gender to race colonialism sexuality and the arts and popular culture The handbook offers unparalleled insights into a century of debates around gender from the six islands of the Dutch Caribbean Curaçao Bonaire Aruba St Maarten St Eustatius and Saba This handbook makes gender studies in the Dutch Caribbean accessible to an international readership Besides key academic writings it includes primary historical sources translations from Papiamentu and Dutch as well as personal memoirs and poetry *Part of Nature, Part of Us* Helen Vendler, 1980 A collection of book reviews and essays on more than forty modern American poets Mothers of Invention So Mayer, Corinn Columpar, 2022-04-05 This collection belongs on the bookshelves of students and scholars of cinema and media studies feminist and queer media studies labor studies filmmaking and production and cultural studies *Erased* Anna Malaika Tubbs, 2025-05-20 The new book from the New York Times bestselling author of *The Three Mothers* In *Erased* Anna Malaika Tubbs recovers all that American patriarchy has tried to destroy Patriarchy has oppressed women and denied their contributions worldwide but the United States of America has its own unique gendered hierarchy Dr Anna Malaika Tubbs applies her signature blend of approachable yet rigorous analysis in this definitive and groundbreaking history of American patriarchy She proves that humanity in the United States is determined by gender in a limited and flawed binary that is also always tied to whiteness Tubbs shows how a fabricated hierarchy became so deeply ingrained over time that it now goes

unnoticed along with everything it intentionally conceals From the founding fathers to the current Supreme Court justices from the treatment of enslaved women to the American maternal health crises from the exclusion of women in the Constitution to the continued lack of an Equal Rights Amendment Tubbs brings together academic research the stories of freedom fighters both past and present and her own experiences to reveal what is erased in the wake of American patriarchy The system has survived by hiding the tools that are necessary to dismantle it But Tubbs beautifully reminds us that those tools including our intuition courage ancient wisdom and power are still well within our reach Erased is the story of the United States from a new perspective one where the people who shaped this country who have been oppressed and whose contributions have been denied are at the center reminding us that we can restore what has been strategically kept from us Once again Dr Anna Malaika Tubbs has written a book that will be a touchstone for conversations on gender race and equity for years to come

Stigma's Impact on People With Mental Illness: Advances in Understanding, Management, and Prevention Leandro Fernandes Malloy-Diniz,Antônio Geraldo da Silva,Alexandre Paim Diaz,Milton Wainberg,Alexandre Andrade Loch,Antonio Palha,2021-09-13 *The Motherhood Business* Anne Teresa Demo,Jennifer L. Borda,Charlotte H. Kroløkke,2015-11-13 The essays in *The Motherhood Business* examine how consumer culture both constrains and empowers contemporary motherhood The collection demonstrates that the logic of consumerism and entrepreneurship has redefined both the experience of mothering and the marketplace *Motherhood in the Media* Barbara Barnett,2016-02-19 This book examines contemporary media stories about women who kill their children By analyzing media texts motherhood blogs and journalistic interviews the book seeks to understand better maternal violence and the factors that lead women to harm their children The central thesis of this book is that media practices have changed dramatically during the past 50 years as has society's views on appropriate feminine behavior yet definitions of characteristics of good mothers remain largely defined by 1950s sitcoms Victorian ideals and Christian theology The book contends that in spite of media saturation in American society and the media's increased opportunities to tell complex and nuanced stories news media narratives continue to situate maternal violence as rare unfathomable and unpredictable The news media's shift in focus from public service to profit making industry has encouraged superficial coverage of maternal violence as reporters look for stories that sell not stories that explain Motherhood blogs in contrast offer an opportunity for women to tell their own stories about motherhood based on experience Interviews with journalists offer insights into how the structure of their jobs dictates media coverage of this intimate form of violence
