Richter, 2017-09-26 This volume accompanies a major international loan exhibition featuring more than three hundred works of art many rarely or never before seen in the United States It traces the development of gold working and other luxury arts in the Americas from antiquity until the arrival of Europeans in the early sixteenth century Presenting spectacular works from recent excavations in Peru Colombia Panama Costa Rica Guatemala and Mexico this exhibition focuses on specific places and times crucibles of innovation where artistic exchange rivalry and creativity led to the production of some of the greatest works of art known from the ancient Americas The book and exhibition explore not only artistic practices but also the historical cultural social and political conditions in which luxury arts were produced and circulated alongside their religious meanings and ritual functions Golden Kingdoms creates new understandings of ancient American art through a thematic exploration of indigenous ideas of value and luxury Central to the book is the idea of the exchange of materials and ideas across regions and across time works of great value would often be transported over long distances or passed down over generations in both cases attracting new audiences and inspiring new artists The idea of exchange is at the intellectual heart of this volume researched and written by twenty scholars based in the United States and Latin America **The Oxford Handbook of the Aztecs** Deborah L. Webster,2001 This reference is devoted to the pre Columbian archaeology of the Mesoamerican culture area one of the six cradles of early civilization It features in depth articles on the major cultural areas of ancient Mexico and Central America coverage of important sites including the world renowned discoveries as well as many lesser known locations articles on day to day life of ancient peoples in these regions and several bandw regional and site maps and photographs Entries are arranged alphabetically and cover introductory archaeological facts flora fauna human growth and development nonorganic resources chronologies of various periods Paleoindian Archaic Formative Classic and Postclassic and Colonial cultural features Maya regional summaries research methods and resources ethnohistorical methods and sources and scholars and research history Edited by archaeologists Evans and Webster both of whom are associated with Pennsylvania State University c Book News Inc **City of Sacrifice** David Carrasco,2000-12-08 At an excavation of the Great Aztec Temple in Mexico City amid carvings of skulls and a dismembered warrior goddess David Carrasco stood before a container filled with the decorated bones of infants and children It was the site of a massive human sacrifice and for Carrasco the center of fiercely provocative questions If ritual violence against humans was a profound necessity for the Aztecs in their capital city is it central to the construction of social order and the authority of city states Is civilization built on violence In City of Sacrifice Carrasco chronicles the fascinating story of Tenochtitlan the Aztec capital investigating Aztec religious practices and demonstrating that religious violence was integral to urbanization the city itself was a temple to the gods That Mexico City the largest city on earth was built on the ruins of Tenochtitlan is a point Carrasco poignantly considers in his comparison of urban life from antiquity to modernity Majestic in scope City of Sacrifice illuminates not only the rich history of a major Meso american city but also the inseparability of two passionate human impulses urbanization and

religious engagement It has much to tell us about many familiar events in our own time from suicide bombings in Tel Aviv to rape and murder in the Balkans The Death of Aztec Tenochtitlan, the Life of Mexico City Barbara E. Mundy, 2018-03-22 Winner Book Prize in Latin American Studies Colonial Section of Latin American Studies Association LASA 2016 ALAA Book Award Association for Latin American Art Arvey Foundation 2016 The capital of the Aztec empire Tenochtitlan was in its era one of the largest cities in the world Built on an island in the middle of a shallow lake its population numbered perhaps 150 000 with another 350 000 people in the urban network clustered around the lake shores In 1521 at the height of Tenochtitlan s power which extended over much of Central Mexico Hernando Cort s and his followers conquered the city Cort s boasted to King Charles V of Spain that Tenochtitlan was destroyed and razed to the ground But was it Drawing on period representations of the city in sculptures texts and maps *The Death of Aztec Tenochtitlan the Life of Mexico City* builds a convincing case that this global capital remained through the sixteenth century very much an Amerindian city Barbara E Mundy foregrounds the role the city s indigenous peoples the Nahua played in shaping Mexico City through the construction of permanent architecture and engagement in ceremonial actions She demonstrates that the Aztec ruling elites who retained power even after the conquest were instrumental in building and then rebuilding the city Mundy shows how the Nahua entered into mutually advantageous alliances with the Franciscans to maintain the city s sacred nodes She also focuses on the practical and symbolic role of the city s extraordinary waterworks the product of a massive ecological manipulation begun in the fifteenth century to reveal how the Nahua struggled to maintain control of water resources in early Mexico City
