Office A Facet Of Urban Growth:

The Office Peter Cowan, 1967 *The Office* Daniel Fine, John Ireland, 1969 **The Office** Peter Cowan, Daniel Fine, 1969 **A History of the Office and Office Work** Rob Harris, 2025-04-08 This book brings together the office and office working as an economic construct as a business function as a building type and as a mode of work It explores social and economic relations and it traces the evolution of work and the environment and equipment needed to support it over the last 400 years In so doing it helps to fill a void in popular understanding of the office The role of the office has been examined over the past three years in ways that it has never been examined before Whilst the existential crisis arising from COVID 19 has settled somewhat there remain big questions over the future of office workers and office real estate This book is a timely well researched and fascinating contribution to the debate Rob Harris explores how the nature of work has changed and continues to change placing the events surrounding COVID 19 into a longer term perspective and asking what is the future of the office Will it go through a radical reinvention How will office work evolve in the future Whither office buildings The book emphasises the continuum of change and that today s events are simply the latest stage of change rather than something entirely novel This book will be of interest to anyone with a stake in the built environment whether as an investor occupier owner manager or advisor It is equally accessible to those with a non technical background including students on courses such as economic history economics geography real estate and urban planning London's Global Office Economy Rob Harris, 2021-04-07 London s Global Office Economy From Clerical Factory to Digital Hub is a timely and comprehensive study of the office from the very beginnings of the workplace to its post pandemic future The book takes the reader on a journey through five ages of the office encompassing sixteenth century coffee houses and markets eighteenth century clerical factories the corporate offices emerging in the nineteenth to the digital and network offices of the twentieth and twenty first centuries While offices might appear ubiquitous their evolution and role in the modern economy are among the least explained aspects of city development One third of the workforce uses an office and yet the buildings themselves their history design construction management and occupation have received only piecemeal explanation mainly in specialist texts This book examines everything from paper clips and typewriters to design and construction to workstyles and urban planning to explain the evolution of the office economy Using London as a backdrop Rob Harris provides built environment practitioners academics students and the general reader with a fascinating illuminating and comprehensive perspective on the office Readers will find rich material linking fields that are normally treated in isolation in a story that weaves together the pressures exerting change on the businesses that occupy office space with the motives and activities of those who plan supply and manage it Our unfolding understanding of offices the changes through which they have passed the nature of office work itself and its continuing evolution is a fascinating story and should appeal to anyone with an interest in contemporary society and its relationship with work *Office of International Affairs, Department of Housing and Urban*

Development United States. Department of Housing and Urban Development. Office of International Affairs, 1971 **Office Development** Michael Bateman, 2021-11-30 Originally published in 1985 this book examines the impact financial institutions have on the location of investment of vast resources including office development An analysis of their behaviour is crucial to an understanding of the 20th Century urban development process This book documents some of the international activity of property investment Some cities in the UK USA and France are examined in detail to demonstrate the huge physical impact of this development process The constraints on office development are also discussed A recurring theme is the power of the supply side of the development industry in comparison with the relatively weak position of the office end user *Progress in Industrial Geography (Routledge Revivals)* Michael Pacione, 2014-06-03 This edited collection first published in 1985 deals with a number of the major themes central to the study of industrial geography Topics under discussion include new methodologies the growing service industries foreign investment and the industrial geography of the developing world With a detailed introduction from Michael Pacione and comprehensive coverage the title reflects the extent to which the field of industrial geography changed over the second half of the twentieth century in response to economic change incorporating the growth of multinational enterprises and the influence of globalisation alongside traditional discussion of the manufacturing industry Providing an essential background to developments in industrial geography this title will be valuable to students with an interest in the economics characteristics and advancement of industrial change *Urbanization and Urban Planning in Capitalist Society* Michael Dear, Allen Scott, 2018-06-12 Originally published in 1981 *Urbanization and Urban Planning in Capitalist Society* is a comprehensive collection of papers addressing urban crises Through a synthesis of current discussions around various critical approaches to the urban question the book defines a general theory of urbanization and urban planning in capitalist society It examines the conceptual preliminaries necessary for the establishment of capitalist theory and provides a theoretical exposition of the fundamental logic of urbanization and urban planning It also provides a detailed discussion of commodity production and its effects on urban development Facets of Globalization Shahid Yusuf, Simon J. Evenett, Weiping Wu, 2001-01-01 Since 1985 national economies have become increasingly integrated into a global network At the same time both population and production in developing countries are becoming concentrated in urban regions This in turn has generated demands for more local autonomy shifting more decision making to sub national levels Globalization is expected to continue leading to greater openness and international mobility of capital and people There are few reasons to believe that these trends will abate if anything they are likely to intensify the focus on cities and sharpen competition among these for international and local resources This volume underscores the transformative role of globalization and urbanization and shows the interplay between the two forces *Western Europe* Hugh Clout, Mark Blacksell, Russell King, David Pinder, 2014-09-19 *Western Europe* provides a balanced appraisal of common characteristics and shared problems of the eighteen states lying to the west of the former Iron Curtain **The Many Facets**

of Human Settlements Irene Tinker, Mayra Buvinić, 2014-05-18 The Many Facets of Human Settlements Science and Society focuses on communications energy and planning and design issues besetting human settlements The book also tackles rural and urban development types of habitats industrialization and lifestyles The selection first discusses the influence of technology in shaping lifestyles including advanced urban systems programs on communications and technology assessment of telecommunication transportation interactions Concerns include goals for the performance of human settlements and innovations for cities of the future overview of studies and experiments pursued by the New Rural Society and concept for a nationwide satellite communication systems to serve rural areas The text then looks at the sources of energy in human settlements Topics include alternatives to gas heat coal oil solar heating heat pump and action plan The book examines energy conservation in housing design ecotechnologies and ecocommunities bioshelters and their implications for lifestyle high rise habitat and energy and rural development The text also tackles industrialization and urbanization in Japan Considerations include population density and urbanization environmental disruption and Japan as a postindustrial society The selection is a vital source of data for readers interested in the issues and factors influencing human settlements

Office Markets and Public Policy Colin Jones, 2013-03-04 This is the first book that looks at how offices and office markets in cities have changed over the last 30 years It analyses the long term trends and processes within office markets and the interaction with the spatial economy and the planning of cities It draws on examples around the world and looking forward at the future consequences of information communication technologies and the sustainability agenda it sets out the challenges that now face investors The traditional business centres of cities are losing their dominance to the brash new centres of the 1980s and 1990s as the concept of the central business district becomes more diffuse Edge cities business space and office parks have entered the vocabulary as offices have also decentralised The nature and pace of changes to office markets set within evolving spatial structures of cities has had implications for tenants and led to a demand for shorter leases The consequence is a rethink of the traditional perception of property investment as a secure long term investment and this is reflected in reduced investment holding periods by financial institutions Office Markets land management property and real estate urban planning and urban studies It will also be of interest to researchers property professionals policy makers and planning practitioners Essays on World Urbanization Ronald Jones, 1975 **Department of housing**

and urban development United States. Congress. House. Committee on Appropriations. Subcommittee on Independent Offices and Department of Housing and Urban Development, 1967 **Independent Offices and Department of Housing and Urban Development Appropriations** United States. Congress. House. Committee on Appropriations. Subcommittee on Independent Offices, United States. Congress. House. Committee on Appropriations. Subcommittee on Independent Offices and Dept. of Housing and Urban Development, 1959 Planning. Current Literature, 1970 Sick Building Syndrome Jack Rostron, 2005-08-04 Sick building syndrome is for many of us an enigma The legislative precedents currently being set in

North America underline the need for rational examination of the problem This new collection of expert writing will help unravel the complex issues involved The book explores sick building syndrome from a range of perspectives architectural medical psychological and legal Each chapter offers detailed insights into the condition and taken together they highlight the need for a collaborative approach The effects of sick building syndrome should not be underestimated as it is thought that up to 30 percent of refurbished buildings may suffer from the condition Extreme cases may lead to increased absenteeism among employees reduced performance and ultimately building closure *The Office Book* Judy Graf Klein,1982 Ideas and designs for contemporary work spaces **The European Office** Juriaan van Meel,2000
