Setting Down the Sacred Past Laurie F. Maffly-Kipp,2010-04-30 As early as the 1780s African Americans told stories that enabled them to survive and even thrive in the midst of unspeakable assault Tracing previously unexplored narratives from the late eighteenth century to the 1920s Laurie Maffly Kipp brings to light an extraordinary trove of sweeping race histories that African Americans wove together out of racial and religious concerns Asserting a role in God s plan black Protestants sought to root their people in both sacred and secular time A remarkable array of chroniclers men and women clergy journalists shoemakers teachers southerners and northerners shared a belief that narrating a usable past offered hope pride and the promise of a better future Combining Christian faith American patriotism and racial lineage to create a coherent sense of community they linked past to present Africa to America and the Bible to classical literature From

collected shards of memory and emerging intellectual tools African Americans fashioned stories that helped to restore meaning and purpose to their lives in the face of relentless oppression In a pioneering work of research and discovery Maffly Kipp shows how blacks overcame the accusation that they had no history worth remembering African American communal histories imagined a rich collective past in order to establish the claim to a rightful and respected place in the American present Through the transformative power of storytelling these men and women led their people and indeed all Americans into a more profound understanding of their interconnectedness and their prospects for a common future *More Than Freedom* Stephen Kantrowitz, 2013-07-30 A major new account of the Northern movement to establish African Americans as full citizens before during and after the Civil War In *More Than Freedom* award winning historian Stephen Kantrowitz offers a bold rethinking of the Civil War era Kantrowitz show how the fight to abolish slavery was always part of a much broader campaign by African Americans to claim full citizenship and to remake the white republic into a place where they could belong *More Than Freedom* chronicles this epic struggle through the lives of black and white abolitionists in and around Boston including Frederick Douglass Senator Charles Sumner and lesser known but equally important figures Their bold actions helped bring about the Civil War set the stage for Reconstruction and left the nation forever altered *Life Behind a Veil* George C. Wright, 2004-09-01 In the period between the Civil War and the Great Depression Louisville Kentucky was host to what George C Wright calls a polite form of racism There were no lynchings or race riots and to a great extent Louisville blacks escaped the harsh violence that was a fact of life for blacks in the Deep South Furthermore black Louisvillians consistently enjoyed and exercised an oft contested but never effectively retracted enfranchisement However their votes usually did not amount to any real political leverage and there were no radical improvements in civil rights during this period Instead there existed a delicate balance between relative privilege and enforced passivity A substantial paternalism carried over from antebellum days in Louisville and many leading white citizens lent support to a limited uplifting of blacks in society They helped blacks establish their own schools hospitals and other institutions But the dual purpose that such actions served providing assistance while making the maintenance of strict segregation easier was not incidental Whites salved their consequences without really threatening an established order And blacks obliged to be grateful for the assistance generally refrained from arguing for real social and political equality for fear of jeopardizing a partially improved situation and regressing to a status similar to that of other southern blacks In *Life Behind a Veil* Blacks in Louisville Kentucky 1865 1930 George Wright looks at the particulars of this form of racism He also looks at the ways in which blacks made the most of their less than ideal position focusing on the institutions that were central to their lives Blacks in Louisville boasted the first library for blacks in the United States as well as black owned banks hospitals churches settlement houses and social clubs These supported and reinforced a sense of community self esteem and pride that was often undermined by the white world *Life Behind a Veil* is a comprehensive account of race relations black response to white discrimination and

the black community behind the walls of segregation in this border town The title echoes Blyden Jackson's recollection of his childhood in Louisville where blacks were always aware that there were two very distinct Louisvilles one of which they were excluded from

We Can't Go Home Again Clarence E. Walker, 2001-06-14 Afrocentrism has been a controversial but popular movement in schools and universities across America as well as in black communities But in *We Can't Go Home Again* historian Clarence E Walker puts Afrocentrism to the acid test in a thoughtful passionate and often blisteringly funny analysis that melts away the pretensions of this therapeutic mythology As expounded by Molefi Kete Asante Yusef Ben Jochannan and others Afrocentrism encourages black Americans to discard their recent history with its inescapable white presence and to embrace instead an empowering vision of their African specifically Egyptian ancestors as the source of western civilization Walker marshals a phalanx of serious scholarship to rout these ideas He shows for instance that ancient Egyptian society was not black but a melange of ethnic groups and questions whether in any case the pharaonic regime offers a model for blacks today asking if everybody was a King who built the pyramids But for Walker Afrocentrism is more than simply bad history it substitutes a feel good myth of the past for an attempt to grapple with the problems that still confront blacks in a racist society The modern American black identity is the product of centuries of real history as Africans and their descendants created new hybrid cultures mixing many African ethnic influences with native and European elements Afrocentrism replaces this complex history with a dubious claim to distant glory Afrocentrism offers not an empowering understanding of black Americans past Walker concludes but a pastiche of alien traditions held together by simplistic fantasies More to the point this specious history denies to black Americans the dignity and power that springs from an honest understanding of their real history

The Finger of God Robert R. Edgar, 2018-05-24 On the morning of May 24 1921 a force of eight hundred white policemen and soldiers confronted an African prophet Enoch Mgijima and some three thousand of his followers Called the Israelites they refused to leave their holy village of Ntabelanga where they had been gathering since early 1919 to await the end of the world While the Israelites maintained they were there to pray and worship in peace the white authorities viewed them as illegally squatting on land that was not theirs After many months of fruitless negotiations the South African government sent an armed force to Bulhoek a village in the Eastern Cape to expel them In the event that has come to be known as the Bulhoek massacre police armed with rifles machine guns and cannons killed nearly two hundred Israelites wielding knobkerries swords and spears In *The Finger of God* Robert Edgar reveals how and why the Bulhoek massacre occurred Edgar asks Why did Mgijima prophesize that the end of the world was imminent and why did he summon his followers to Ntabelanga Why did the South African government regard the Israelite encampment as a threat Examining this clash between a government and a millennial movement Edgar considers the Bulhoek massacre both as a signal event in South African history and as an example of similar conflicts worldwide
