Precolumbian Flora and Fauna Jeanette Favrot Peterson, Judith Strupp Green, 1990 *Cycles of Time and Meaning in the Mexican Books of Fate* Elizabeth Hill Boone, 2013-05-17 In communities throughout precontact Mesoamerica calendar priests and diviners relied on pictographic almanacs to predict the fate of newborns to guide people in choosing marriage partners and auspicious wedding dates to know when to plant and harvest crops and to be successful in many of life's activities As the Spanish colonized Mesoamerica in the sixteenth century they made a determined effort to destroy these books in which the Aztec and neighboring peoples recorded their understanding of the invisible world of the sacred calendar and the cosmic forces and supernaturals that adhered to time Today only a few of these divinatory codices survive Visually complex esoteric and strikingly beautiful painted books such as the famous Codex Borgia and Codex Borbonicus still serve as portals into the ancient Mexican calendrical systems and the cycles of time and meaning they encode In this comprehensive study Elizabeth Hill Boone analyzes the entire extant corpus of Mexican divinatory codices and offers a masterful explanation of the genre as a whole She introduces the sacred divinatory calendar and the calendar priests and diviners who owned and used the books Boone then explains the graphic vocabulary of the calendar and its prophetic forces and describes the organizing principles that structure the codices She shows how they form almanacs that either offer general purpose guidance or focus topically on specific aspects of life such as birth marriage agriculture and rain travel and the forces of the planet Venus Boone also tackles two major areas of controversy the great narrative passage in the Codex Borgia which she freshly interprets as a cosmic narrative of creation and the disputed origins of the codices which she argues grew out of a single religious and divinatory system

Jeanette Favrot Peterson, 2014-07-03 Winner Charles Rufus Morey Award 1993 The valley of Malinalco Mexico long renowned for its monolithic Aztec temples is a microcosm of the historical changes that occurred in the centuries preceding and following the Spanish conquest in the sixteenth century In particular the garden frescoes uncovered in 1974 at the Augustinian monastery of Malinalco document the collision of the European search for Utopia with the reality of colonial life In this study Jeanette F Peterson examines the murals within the dual heritage of pre Hispanic and European muralism to reveal how the wall paintings promoted the political and religious agendas of the Spanish conquerors while preserving a record of pre Columbian rituals and imagery She finds that the utopian themes portrayed at Malinalco and other Augustinian monasteries were integrated into a religious and political ideology that in part camouflaged the harsh realities of colonial policies toward the native population That the murals were ultimately whitewashed at the end of the sixteenth century suggests that the spiritual conquest failed Peterson argues that the incorporation of native features ultimately worked to undermine the orthodoxy of the Christian message She places the murals imagery within the pre Columbian tlacuilo scribe painter tradition traces a Sahag n connection between the Malinalco muralists and the native artists working at the Franciscan school of Tlatelolco and explores mural painting as an artistic response to acculturation The book is beautifully illustrated with 137 black and white figures including photographs and line drawings For everyone interested in the encounter between European and Native American cultures it will be essential reading *Visions of Paradise* Robert Stephen Haskett, 2005 Cuernavaca often called the Mexican Paradise or Land of Eternal Spring has a deep rich history Few visitors to this modern resort city near Mexico City would guess from its Spanish architecture and landmarks that it was governed by its Tlalhuican residents until the early nineteenth century Formerly called Cuauhnahuac the city was renamed by the Spanish in the sixteenth century when Hernando Cort s built his stone palacio on its main square and thrust Cuernavaca into the colonial age In *Visions of Paradise* Robert Haskett presents a history of Cuernavaca basing his account on an important body of late seventeenth century historical records known as primordial titles written by still unknown members of the Native population Until comparatively recently these indigenous language documents have been dismissed as false or forged land records Haskett however uses these Nahuatl texts to present a colorful portrait of how the Tlalhuicas of Cuernavaca and its environs made intellectual sense of their place in the colonial scheme conceived of their relationship to the sacred worlds of both their native religion and Christianity and defined their own history Surveying the local history of Cuernavaca from precontact observations by the Aztecs through postclassic times to the present with a concentration on early colonial times Haskett finds that the Native authors of the primordial titles crafted a celebratory history proclaiming themselves to be an enduringly autonomous essentially unconquered people who triumphed over the rigors of the Spanish
