Zoo Studies Paul A. Rees, 2023-06-01. Zoos and aquariums are culturally and historically important places where families enjoy their leisure time and scientists study exotic animals. Many contain buildings of great architectural merit. Some people consider zoos little more than animal prisons while others believe they play an important role in conservation and education. Zoos have been the subject of a vast number of academic studies whose results are scattered throughout the literature. This interdisciplinary volume brings together research on animal behaviour, visitor studies, zoo history, human-animal relationships, veterinary medicine, welfare, education, enclosure design, reproduction, legislation and zoo management conducted at around 200 institutions located throughout the world. The book is neither pro nor anti zoo and attempts to strike a balance between praising zoos for the good work they have done in the conservation of some species while recognising that they face many challenges in making themselves relevant in the modern world.

Marxism and Decolonization in the 21st Century Sabelo J. Ndlovu-Gatsheni, Morgan Ndlovu, 2021-07-22. Marxism and Decolonization in the 21st Century is a ground-breaking work that highlights the resurgence and insurgence of Marxism and decolonization and the ways in which decolonization and decoloniality are grounded in the contributions of Black Marxism, the Radical Black tradition and anti-colonial liberation traditions. Featuring leading and young scholars and activists, this book is a practical scholarly intervention that shows how democratic Marxism and decoloniality might converge to provoke planetary decolonization in the 21st century. At the centre of this process, enabled by both increasing human entanglements and the resilience of racism, the volume's contributors analyse converging forces of anti-imperialism, anti-colonialism, anti-patriarchy, anti-sexism, Indigenous People's movements, eco-feminist formations and intellectual movements levelled against Eurocentrism. This book will be of great interest to students, scholars and intellectuals interested in Marxism, decolonization and transnational activism.
