Youth Violence I. M. Rachia, 1999 This bibliography comprises a selection of Library of Congress catalog records for some 1 500 books periodicals and websites related to youth violence Anyone wanting such a bibliography could probably compile it from the Library of Congress web site and the deficiencies in conception and design of this product defy understanding A brief preface sounds an alarm no one should be surprised that youth violence lurks behind every school house door but sets forth no criteria for selection of citations no indication of time frame purpose or audience Entries are arranged alphabetically by title within chapters on school violence guns and youth gangs campus violence dating and violence and periodicals and Web sites Unforgivably primitive alphabetic sorting puts all titles beginning with The together the same with other articles and in addition those titles are indexed together Though the title indicates the presence of abstracts there are none except the summaries supplied by Library of Congress for juvenile titles of which there are many Cross referencing and indexing except by title are absent The compiler's credentials motivation and orientation are not cited Furthermore with better design the contents would have consumed half the number of pages and a few typeface variations would have eased scanning Annotation copyrighted by Book News Inc Portland OR

Handbook of Drug Abuse Prevention Zili Sloboda, William J. Bukoski, 2007-08-06 There are a number of reasons why this book is important First there is no one source that summarizes what we know about the prevention of substance abuse from the research field so the book serves as a repository of accumulated knowledge on prevention theory intervention design and development and prevention research methodology Second as an evolving field prevention science has only begun to assert itself in both the arenas of practice and policy The

formation of the Society for Prevention Research in 1991 was the first recognition that a science of prevention existed and required a separate forum to present the rapidly growing content of the field for discussion and review Finally there is a need to establish a baseline a reference point against which progress in the field of prevention science can be assessed This book serves all of these purposes The idea for this book grew from the observation in the early 1990s that after decades of attempts to develop effective interventions to prevent drug use among children and adolescents in the United States that we were finally having success particularly in addressing the initiation of use These successes are the result of research that has provided a better understanding of the factors and processes associated with the onset of substance use

Strengths-Based School Counseling JohnP. Galassi,2017-07-05 Despite calls for a more preventive and developmental mode of functioning school counseling has tended to be driven by a reactive and sometimes crisis orientation Like social workers and school counseling and clinical psychologists school counselors typically function to alleviate deficits often in a small percentage of the students they serve Although this orientation has served school counselors well in many instances it is not empowering it does not serve all students and it does not replace those deficits with the type of positive characteristics and abilities that schools are attempting to develop This is the first book to provide a comprehensive look at the theory research and intervention strategies that comprise a strengths based developmental approach to school counseling In keeping with ASCA recommendations the Strengths Based School Counseling SBSC framework discusses academic personal social and career development outcomes for all students at the elementary middle and secondary school levels Other key features include integrative framework SBSC builds upon contemporary research from a variety of areas school counseling developmental psychology school psychology education positive psychology resiliency and social work evidence based interventions detailed examples of successful evidence based interventions and environments are presented at the elementary middle and high school levels for each major developmental area academic personal social and career identified

in ASCA's National Model readability and pedagogy beautifully written the text includes lists of key points tables of student strengths illustrative examples and student exercises
