Saga America:

Saga America Barry Fell, 1980 Dr Barry Fell and Emeritus Professor at Harvard documents trans Atlantic Old World incursions with much fresh evidence of Libyan Carthaginian Celtic Greek Roman and Viking presences on the east Coast But even more extraordinary is his documentation of pre Columbian Europeans and North Africans in the far West Graeco Libyans Dr Fell demonstrates used their sophisticated navigational skills to cross the Indian and Pacific Oceans to reach and settle in California and Nevada from the third century B C Their inscriptions in the form of petroglyphs have been carefully recorded in the past by scholars but until Dr Fell translated them their significance was a matter of mystified conjecture and they were ascribed vaguely to some lost Indian culture Dr Fell describes how Thomas Jefferson had suspected a relationship between some American Indian and North African languages In Jefferson s spirit Fell pursued his researches in North Africa and found astounding confirmation of his discoveries both in complementary documentation and in the enthusiastic recognition by North African scholars

Viking America Geraldine Barnes, 2001 Viking America examined through the writing and rewriting of the Vinland story from the middle ages to the twentieth century The accounts in the Vinland sagas of the great voyages to the northeast coast of America in the early years of the eleventh century have often been obscured by detailed argument over the physical identity of the West Atlantic land which its Scandinavian discoverers named Vinland Geraldine Barnes leaves archaeological evidence aside and returns to the Old Norse narratives Groenlendinga saga Saga of Greenlanders and Eiriks saga rauða Saga of Eric the Red in her study of the writing and rewriting of the Vinland story from the middle ages to the late twentieth century She sets the sagas in the context of Iceland s transition from paganism to Christianity later chapters explore the Vinland story in relation to issues of regional pride and national myths of foundation in nineteenth and early twentieth century America to the ethos of popular imperialism during the same period in English literature and in the late twentieth century to postcolonial concerns

The Viking Discovery of America Helge Ingstad, Anne Stine Ingstad, 2000 Faced with harsh conditions in their Greenland home a group of Vikings took the reins of fate into their own hands With incredible luck skill and fortitude they discovered lands filled with a profusion of wood wild game and fertile land In the sagas that grew from this discovery the lands were given names that resonated with hope and promise Almost 1000 years later a husband and wife team united their talents Intrigued by allusions in the ancient sagas to fabled Vinland they considered the scholarship on Viking culture and technology they studied maps and they researched intensively the prominent theories on Vinland s location And finally their efforts bore fruit when a remote Newfoundland peninsula yielded up a soapstone spindle whorl a Viking ring pin and what had to be the overgrown remnants of over a dozen
