Right to a Human Minimum Stephen Onyango Ouma, 2025-08-02 This book provides a profound exploration of the concept of a human minimum as articulated by the renowned African philosopher H Odera Oruka It delves into the pressing issue of global inequality and examines how basic rights such as access to food shelter education and healthcare are fundamental to human dignity and should be accessible to all regardless of socioeconomic status In a world where the gap between the rich and the poor continues to widen Oruka's philosophical framework is a blueprint for addressing this divide Through a critical analysis of Oruka's work this book presents the philosophy of a human minimum and describes why basic rights are essential to ensuring justice equity and sustainable development It contextualizes these ideas within contemporary challenges including poverty unemployment and the global disparities exacerbated by economic systems that favor wealth accumulation by the few This exploration pushes beyond abstract theory offering practical insights into policy solutions and societal

structures that can uphold the dignity of every individual It argues that achieving this requires not only ethical responsibility but systemic change in political and economic structures By rethinking development governance and social justice through the lens of Oruka's philosophy the book presents a compelling case for policies and actions that guarantee the human minimum for all This book is of interest to scholars of philosophy social justice advocates policymakers and anyone committed to addressing global inequality It provides a roadmap for how societies can move toward a more equitable future

Hegel's Twilight Mogobe B. Ramose, 2013 Professor Heinz Kimmerle encountered African philosophy at a time when his specialisation in the philosophy of Hegel had attained world recognition For Hegel African philosophy did not exist in Sub Saharan Africa exactly the area in which Kimmerle made his first contact with African philosophy Hegel's philosophy was not a stranger to Sub Saharan Africa This was because the Western educational paradigm was imposed upon the conquered colonized peoples during the period of colonisation Unlike Hegel Kimmerle took African philosophy seriously and engaged initially in dialogues with African philosophy Out of the unfolding dialogues grew intercultural philosophy spearheaded by Kimmerle's penetrating insightful and incisive critique of some of the fundamental presuppositions of Hegel's philosophy The essays contained in this book focus on the evolution of Kimmerle's conception and meaning of intercultural philosophy Underlying this are recognition and respect for other modes of doing philosophy as manifestations of intercultural philosophy To deny dialogues if you prefer polylogue among world philosophies is to reject the very basis of philosophy Thus a crucial dimension of philosophy would be precluded which can be found in this book namely the critical evaluation of Kimmerle's conception and meaning of intercultural philosophy
