Confucianism and Women Li-Hsiang Lisa Rosenlee, 2012-02-01 Confucianism and Women argues that Confucian philosophy often criticized as misogynistic and patriarchal is not inherently sexist Although historically bound up with oppressive practices Confucianism contains much that can promote an ethic of gender parity Attacks on Confucianism for gender oppression have marked China s modern period beginning with the May Fourth Movement of 1919 and reaching prominence during the Cultural Revolution of the 1960s and 1970s The West has

also readily characterized Confucianism as a foundation of Chinese women's oppression. Author Li Hsiang-Lisa Rosenlee challenges readers to consider the culture within which Confucianism has functioned and to explore what Confucian thought might mean for women and feminism. She begins the work by clarifying the intellectual tradition of Confucianism and discussing the importance of the Confucian cultural categories *yin yang* and *nei wai* (inner/outer) for gender ethics. In addition, the Chinese tradition of biographies of virtuous women and books of instruction by and for women is shown to provide a Confucian construction of gender. Practices such as widow chastity, footbinding, and concubinage are discussed in light of Confucian ethics and Chinese history. Ultimately, Rosenlee lays a foundation for a future construction of Confucian feminism as an alternative ethical ground for women's liberation.

Moral Exemplars in the Analects Amy Olberding, 2013-03-01 In this study, Olberding proposes a new theoretical model for reading the Analects. Her thesis is that the moral sensibility of the text derives from an effort to conceptually capture and articulate the features seen in exemplars—exemplars that are identified and admired pre-theoretically and thus prior to any conceptual criteria for virtue. Put simply, Olberding proposes an origins myth in which Confucius already and prior to his philosophizing knows whom he judges to be virtuous. The work we see him and the Analects authors pursuing is their effort to explain in an organized, generalized, and abstract way why pre-theoretically identified exemplars are virtuous. Moral reasoning here begins with people and with inchoate experiences of admiration for them. The conceptual work of the text reflects the attempt to analyze such people and parse such experiences in order to distill abstract qualities that account for virtue and can guide emulation.

The Five "Confucian" Classics Michael Nylan, 2008-10-01 The Five Classics associated with Confucius formed the core curriculum in the education of Chinese literati throughout most of the imperial period. In this book, Michael Nylan offers a sweeping assessment of these ancient texts and shows how their influence spread across East Asia. Nylan begins by tracing the formation of the Five Classics canon in the pre-Han and Han periods (206 B.C. to A.D. 220), revising standard views on the topic. She assesses the impact on this canon of the invention of a rival corpus, the Four Books, in the twelfth century. She then analyzes each of the Five Classics, discussing when they were written, how they were transmitted and edited in later periods, and what political, historical, and ethical themes were associated with them through the ages. Finally, she deliberates on the intertwined fates of Confucius and the Five Classics over the course of the twentieth century and shows how the contents of the Five Classics are relevant to much newer concerns.

Transforming Gender and Emotion Sookja Cho, 2018-03-22 The Butterfly Lovers Story, sometimes called the Chinese Romeo and Juliet, has been enduringly popular in China and Korea. In *Transforming Gender and Emotion*, Sookja Cho demonstrates why the Butterfly Lovers Story is more than just a popular love story. By unveiling the complexity of themes and messages concealed beneath the tale's modern classification as a tragic love story, this book reveals the tale as a rich academic subject for students of human emotions and relationships, comparative geography and culture, and narrative adaptation. By examining folk beliefs and ideas that abound in the narrative, including

rebirth and a second life the association of human souls and butterflies and women's spiritual power this book presents the Butterfly Lovers Story as an example of local religious narrative The book's cross cultural comparisons best manifested in its discussion of a shamanic ritual narrative version from the Cheju Island of Korea frame the story as a catalyst for inclusive expansive discussion of premodern Korean and Chinese literatures and cultures This scrutiny of the historical and cultural background behind the formation and popularization of the Cheju Island version sheds light on important issues in the Butterfly Lovers Story that are not frequently discussed either in past examinations of this particular narrative or in the overall literary studies of China and Korea This new open approach presents an innovative framework for understanding premodern literary and cultural space in East Asia

D'Ambrosio, Geir Sigurðsson, Dimitra Amaratidou, Hans-Georg Moeller, 2025-08-15 This book discusses scholars who have all engaged in comparative philosophy projects many of whom first rose to fame because of their penetrating insights into the similarities and differences in Western and Chinese thought They all went beyond simply looking at how one thinker one school or one tradition relates to another each draws on sources from China and the West However their projects from role ethics to concrete metaphysics from critiquing individualism to balancing harmony and justice are attempts at re evaluating the way we view the world and live our lives These projects are systematic thorough and comprehensive descriptions of ourselves the world and our interactions with others They are all comparative but on top of this they also aim at making a point that transcends their comparisons The book thus shows that these great thinkers draw on a multiplicity of resources and while they might find some ideas closer to home than others comparison is a necessary constant Using traditional Confucian vocabulary this type of philosophizing is described as practicing xue normally understood as studying or learning But it also means to copy imitate model or emulate In the process of xue one imitates but with a nod to differences This book honors four models of such an attitude to xue In its examination of some of the most influential scholars in Chinese thought this is a seminal book for scholars and students in Chinese and comparative philosophy
