This fantastic collection of true tales celebrates the strange and curious secrets of Merseyside's history. The fifty stories inside from the lion in the wheelbarrow on the tightrope to the twelve young women smothered by the incurable malady they caught of some sailors the true tale of the man in the iron coffin and the strange and mysterious disappearance of the Everest mountaineers from Birkenhead uncover some truly amazing and extraordinary facets of the area's history and heritage. Richly illustrated and compiled by Liverpool's own historian Ken Pye this book will delight residents and visitors alike. **Inshore**

Craft Basil Greenhill, Julian Mannering, 2013-04-15 This comprehensive reference work describes and illustrates some 200 types of inshore craft that once fished and traded under oar and sail around the coasts of the British Isles. The types are arranged by coastal area and each is described in terms of its shape and design, fitness for location and purpose, build, evolution and geographical distribution. Details of dimensions, rig, building materials, seamanship and the survival of examples are given where known, while hundreds of line drawings and photographs show the vessels in their original forms. A team of twelve experts describe all these boat types and in addition there are introductions to the main geographic areas outlining the physical environments, fisheries and other uses of the sea that have influenced boat design. Maps of all the areas show ports and physical features. At the beginning of the last century sail and oar dominated fisheries and local trade; one hundred years later those craft have all but vanished. This book brings alive for maritime historians and enthusiasts traditional boat sailors, modelmakers and all those with an interest in local history the vast array of craft that were once such a significant feature of our inshore seas. **Inshore Craft** is a spectacular achievement. *Wooden Boat Magazine*
