We stood in and as we approached I went aloft on the little stump of a mast to look about me The leaden coloured sea  
generally becomes several shades lighter in tropical countries as you approach the shore unless the latter be regularly up  
and down and deep close to In the present instance however although it gradually shoaled the blue water instead of growing  
lighter and greener and brightening in its approach to the land became gradually of a chocolate colour as the turbid flow of  
the river feathered out like a fan all round the mouth of it But as the tide made the colour changed by the turgid stream  
being forced back again and before it was high water the bar was indicated by a semicircle of whitish light green where the  
long swell of the sea gradually shortened until it ended in small tumbling waves that popped about and frothed as if the  
ebullitions had been hove up and set in motion by some subterraneous fire But as yet the water did not break on any part of  
the crescent shaped ledge of sand      **The cruise of the midge** Marryat,1836      **An introduction to the study of
