#### **Sails The Wind Left Behind:**

Sails the Wind Left Behind Alessandra Lynch, 2002 In her first collection Alessandra Lynch deftly combines the surreal and the lyric into a striking and confident whole At times witty at times dreamlike the poems revel in dense Symbolist like imagery juxtaposition wordplay and rhyme By refusing a certain kind of transparency direct statement and traditional allusion Lynch excavates the shadowy region of the psyche From a rich profusion of images emerge themes of unrealized desire and the ways in which we may fail to be present in our own lives or to others. The poems seek to resolve these themes suggesting how words in memorializing the disorientations of life reorient us that it is in the tokens and monuments of our failed desires broken promises Sails the wind left behind that we are able to find ourselves from Where I live I live in a past passage of the rageful crow and its stalkfirst feet it has staked my sleep and forced me to crawl through flamethrown dawn I begin my day in slow burn the stove unlit and the flower's mouth stuffed with bribecloth and weep I begin stacking wood in a miniature village wearing the flint of wake and the stone of sleep I live in a sleeve of love which won t have me leaning against moonhay which don't love me strumming a stack tune in three fingered rain Alessandra is shockingly good The heroic of her narrative reminds me of Emily Dickinson when it isn t reminding me of Hart Crane I have loved her work for years and once they get the hang of it the rest of the world will too Bless this magnificent new book Gerald Stern Alessandra Lynch was raised north of New York City She holds a BA from Sarah Lawrence College and an MFA from the University of Iowa Writers Workshop Currently she teaches creative writing and English to high school students **Left Behind** Paul Collier, 2024-08-06 The bestselling author of The Bottom Billion returns to examine the fate of the poorest regions of the world some of which exist in the richest nations Since the 1970s the Western consensus in economic policy has been governed by the assumption that any poor area a city a state or even an entire country will find a way to progress through market forces If local economies fail to revive and market shifts have made a location unsuited to business needs the workforce can and should relocate to more prosperous locales Either way no outside intervention is necessary one way or another the problem will work itself out Except it doesn't Using examples of the left behind regions renowned development economist Paul Collier shows that centralized western economies have been the most ineffective to alleviate poverty even if nationally the country seems to be growing South Yorkshire once a hub of the steel industry is now the poorest region in England From the United States to Japan Zambia to Colombia regions and nations experiencing economic decline find themselves with little recourse ignored by the powers that could come to their aid In Left Behind Collier examines how this one size fits all hands off approach to economic policy has devastated areas and nations all over the world and made society vastly more unequal With keen insight he draws lessons from such disparate fields as behavioral psychology evolutionary biology and moral philosophy to explain how we can adapt to the needs of individual economies in order to build a brighter and fairer global future Ships.
