 Transrealist writing treats immediate perceptions in a fantastic way according to science fiction writer and mathematician  
 Rudy Rucker who originated the term In the expanded sense argued in this book it also intensifies imaginative fiction by  
 writing the fantastic from the standpoint of richly personalized experience Transrealism is also related to slipstream writing  
 another category introduced into studies of speculative fiction to account for texts that seem to follow trajectories mapped by  
 the huge body of science fiction accumulated in the last century while retaining a central interest in traditional literary  
 strategies This book examines a variety of work from the transrealist perspective something that has not been done  
 previously It emphasizes the texts of Philip K Dick and Rucker himself while it additionally engages the texts of such  
 slipstream writers as Kurt Vonnegut J G Ballard and John Barth It places its argument against the antihumanist trend in  
 science fiction and builds comparisons with more traditional varieties of science fiction works      **Corresponding Sense**  
 Brook W.R. Pearson,2021-10-01 Corresponding Sense represents a turning point in the application of hermeneutics to New  
 Testament texts Following the example of Hans Georg Gadamer s philosophical hermeneutics Pearson treats several different  
 problems in New Testament interpretation centred around the figure of Paul In so doing he demonstrates how a dialogical  
 approach to the interpretation of ancient texts functions pragmatically to allow for a deeper understanding not only of  
 individual texts but also of their siting with the larger dialectical web of the texts and contexts of the ancient world This  
 approach developed here in connection with the New Testament also has relevance to other literature In Corresponding  
 Sense Pearson outlines what he calls a dialectical topography the tracing of connections and disjunctions between texts and  
 their subject matter both within and outside of the New Testament He uses both theoretical and practical discussion to  
 demonstrate this approach showing how it functions as a new way of approaching a Paul who is a member of a much larger  
 community than simply the Judaism of his fathers a Paul who participates in cultural narratives which extend throughout not  
 only earliest Christianity but also into the wider thought world of the Roman Empire      **True Stories** Francis  
 Spufford,2017-10-03 An irresistible collection of favorite writings from an author celebrated for his bravura style and sheer  
 unpredictability Francis Spufford s welcome first volume of collected essays gathers an array of his compelling writings from  
 the 1990s to the present He makes use of a variety of encounters with particular places writers or books to address deeper  
 questions relating to the complicated relationship between story telling and truth telling How must a nonfiction writer

imagine facts vivifying them to bring them to life How must a novelist create a dependable world of story within which facts are in fact imaginary And how does a religious faith felt strongly to be true but not provably so draw on both kinds of writerly imagination Ranging freely across topics as diverse as the medieval legends of Cockaigne the Christian apologetics of C S Lewis and the tomb of Ayatollah Khomeini Spufford provides both fresh observations and thought provoking insights No less does he inspire an irresistible urge to turn the page and read on [100 Must-read Science Fiction Novels](#) Nick Rennison, Stephen E.
