Tenderness and Heat Olga Petri, 2022-06-15 Places of Tenderness and Heat is a ground level exploration of queer St Petersburg at the fin de siècle Olga Petri takes us through busy shopping arcades bathhouses and public urinals to show how queer men routinely met and socialized She reconstructs the milieu that enabled them to navigate a city full of risk and opportunity Focusing on a non Western unexplored and fragile form of urban modernity Petri reconstructs a broad picture of queer sociability In addition to drawing on explicitly recorded incidents that led to prosecution or medical treatment she investigates the many encounters that escaped bureaucratic surveillance and suppression Her work reveals how queer men's lives were conditioned by developing urban infrastructure weather light and lighting and the informal constraints on enforcing law and moral order in the city's public spaces Places of Tenderness and Heat is an ambitious record of the dynamic negotiation of illicit male homosexual sex friendship and cruising and uncovers a historically fascinating urban milieu in which efforts to manage the moral landscape often unintentionally facilitated queer encounters *Translations (with the Original Latin) from Dens' System of Moral Theology* [Petrus]. Dens, 1848 [Seeing Sodomy in the Middle Ages](#) Robert Mills, 2024-05-31 During the Middle Ages in Europe some sexual and gendered behaviors were labeled sodomitical or evoked the use of ambiguous phrases such as the unmentionable vice or the sin against nature How though did these categories enter the field of vision How do you know a sodomite when you see one In *Seeing Sodomy in the Middle Ages* Robert Mills explores the relationship between sodomy and motifs of vision and visibility in medieval culture on the one hand and those categories we today call gender and sexuality on the other Challenging the view that ideas about sexual and gender dissidence were too confused to congeal into a coherent form in the Middle Ages Mills demonstrates that sodomy had a rich multimedia presence in the period and that a flexible approach to questions of terminology sheds new light on the many forms this presence took Among the topics that Mills covers are depictions of the practices of sodomites in illuminated Bibles motifs of gender transformation and sex change as envisioned by medieval artists and commentators on Ovid sexual relations in religious houses and other enclosed spaces and the applicability of modern categories such as transgender butch and femme or sexual orientation to medieval culture Taking in a multitude of images texts and methodologies this book will be of interest to all scholars regardless of discipline who engage with gender and sexuality in their work *Family Code Sel St and Ali Principles Student Edition 06e* Weisberg, D. Polymath, Zoroastro Susan Audrey Grundy, 2024-10-16 This book recovers the lives of four men masked behind one legend. Reinterpreting recently rediscovered documents shows a Tuscan artist Leonardo da Vinci was banished from Florence around 1477 when at the same moment another Leonardo arrived from the East an Ottoman agent from Genoese Caffa in the Black Sea. This Leonardo was a military engineer who began writing technical notes backward in a flourishing Italian script. In Florence around 1500 he met the alchemist and polymath Zoroastro who collaborated in producing the scientific Notebooks. However by the mid sixteenth century all memory of Zoroastro had been erased and the two Leonardos had been conflated into one identity. Crucially an archived document rediscovered around 2021 proved that the Tuscan painter Leonardo da Vinci died in 1499. This information leads to the recovery of the artist who really painted the Mona Lisa. Giovanni Antonio Boltraffio.
