Biographical Books, 1950-1980 R.R. Bowker Company. Department of Bibliography, 1980 **The Crisis of Global Capitalism** Adrian Pabst, 2012-10-25 The current economic crisis stems from a deeper crisis of cultural imagination and civilisational ethics here is the starting point of this collection of essays which draw a new political economy facing the crisis of Western civilization This book gathers together a range of audacious and provocative readings of Caritas in Veritate the first papal encyclical that addresses issues immediately relevant for political economic and social theory These readings embody the kind of fruitful dialogue Pope Benedict XVI wanted to generate with his radical discourse for an alternative political economy *The Crisis of Causality* Han van Ruler, 1995-07-01 The Crisis of Causality deals with the reaction of the Dutch Calvinist theologian Gisbertus Voetius 1589 1676 to the New Philosophy of Ren Descartes 1596 1650 Voetius not only criticised the Cartesian idea of a mechanical Universe he also foresaw that shifting conceptions of natural causality would make it impossible for theologians to explain the relationship between God and Creation in philosophical terms This threatened the status of theology as a scientific discipline Apart from a detailed analysis of the Scholastic and Cartesian notions of causality the book offers new perspectives on related subjects such as seventeenth century university training and the Cartesian method of science It will be of great importance to any student of seventeenth century intellectual history philosophy theology and history of science *The Crisis of Confidence in the Catholic Church* Raymond G. Helmick SJ, 2014-09-01 The Catholic Church in the United States and Europe has seen declining numbers both in regular attendance and in clergy and religious life Scandals have torn at people's allegiance and feelings of disappointment disillusion and anger have become widespread Church authorities have seemed reluctant to acknowledge or address these problems and have responded with vexation to those who raise them from the Right or Left The Crisis of Confidence in the Catholic Church examines the roots of this crisis in light of the nature of the Church community its institutional structure and the historical experiences that have brought it to this pass Raymond Helmick SJ traces the problems of the Catholic Church far back in its history concentration of Church leadership on control of the Christian population a requirement of obedience to their rulings rather than on the Gospel values of Jesus the defensiveness and self-righteousness in the face of any criticism Helmick also emphasizes the role of the Second Vatican Council as it brought the Church to an awareness of its potentiality for an active life of faith by its total membership How will the Church revive Helmick believes that a new growth of Christianity can come now only by a return to the love and care of its original premises to the things that are redolent of the life of Jesus The new evangelization can only be done by living a Christian life giving an example Monographic Series Library of Congress, 1977 **The Civic World of Early Renaissance Florence** Gene A. Brucker, 2015-03-08 Professor Brucker contends that changes in the social order provide the key to understanding the transition of Florence from a medieval to a Renaissance city In this book he shows how Florentine politics were transformed from corporate to elitist He bases his work

on a thorough examination of archival material providing a full socio political history that extends our knowledge of the Renaissance city state and its development The author describes the restructuring of the political system showing first how the corporate entities that comprised the traditional social order had lost cohesiveness after the Black Death He traces the process of readjustment that began during the guild regime of 1378 1382 and analyzes the impact of foreign affairs During the crisis years of the Visconti wars the distinctive features emerged of an elitist regime whose vitality was demonstrated following the death of Giangaleazzo Visconti and whose membership and style the author discusses in detail Originally published in 1977 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Subject Catalog, 1977 Library of Congress,1977 **Saint Bernard of Clairvaux** Bruno S. James,Bruno Scott James,1957 **Saint Bernard of Clairvaux** Watkin Wynn Williams,1935 **Alfred Loisy and the Making of History of Religions** Annelies Lannoy,2020-08-10 This monograph studies the professionalization of History of religions as an academic discipline in late 19th and early 20th century France and Europe Its common thread is the work of the French Modernist priest and later Professor of History of religions at the Coll ge de France Alfred Loisy 1857 1940 who participated in many of the most topical debates among French and international historians of religions Unlike his well studied Modernist theology Loisy s writings on comparative religion and his rich interactions with famous scholars like F Cumont M Mauss or J G Frazer remain largely unknown This monograph is the first to paint a comprehensive picture of his career as a historian of religions before and after his excommunication in 1908 Through a contextual analysis of publications by Loisy and contemporaries and a large corpus of private correspondence it illuminates the scientification of the discipline

between 1890 1920 and its deep entanglement with religion politics and society Particular attention is also given to the role of national and transnational scholarly networks and the way they controlled the theoretical and institutional frameworks for studying the history of religions Subject Catalog Library of Congress,1970 Finding Christ in the Crisis Father Harrison Ayre,Michael R. Heinlein,2020-09-25 The COVID 19 pandemic has greatly affected the life of the Church Because of the suspension of public Masses and the disruption of parish life many feel disconnected from Christ and his Church As Catholics we are wrestling with the theological and spiritual ramifications of the pandemic and how to discern God s will in this time of crisis In Finding Christ in the Crisis What the Pandemic Can Teach Us Fr Harrison Ayre and Michael Heinlein shed light on what God might be saying to us now both in the Church and in the world Through scriptural interpretation and examination of particular realities of the Faith we can realize that while we may at times be restricted in our access to the sacraments and even to pastoral leadership the effects of this pandemic are by no means a defeat Instead as men and women of faith we have an opportunity to rediscover the heart of our Catholic identity and to find God in the midst of the storm **A**

Companion to the Great Western Schism (1378-1417) ,2009-09-30 The division of the Church or Schism that took place between 1378 and 1417 had no precedent in Christianity No conclave since the twelfth century had acted as had those in April and September 1378 electing two concurrent popes This crisis was neither an issue of the authority claimed by the pope and the Holy Roman Emperor nor an issue of authority and liturgy The Great Western Schism was unique because it forced upon Christianity a rethinking of the traditional medieval mental frame It raised question of personality authority human fallibility ecclesiastical jurisdiction and taxation and in the end responsibility in holding power and authority This collection presents the broadest range of experiences center and periphery clerical and lay male and female Christian and Muslim Theology including exegesis of Scripture diplomacy French literature reform art and finance all receive attention

Relics, Shrines and Pilgrimages Antón M. Pazos,2020-03-04 Since Late Antiquity relics have provided a privileged spiritual bond between life and death between human beings and divinity Royalty nobility and clergy all tried to obtain the most prestigious remains of sacred bodies since they granted influence and fame and allowed the cult around them to be used as a means of sacralization power and propaganda This volume traces the development of the veneration of relics in Europe and how these objects were often catalysts for the establishment of major pilgrimage sites that are still in use today The book features an international panel of contributors taking a wide ranging look at relic worship across Europe from Late Antiquity until the present day They begin with a focus on the role of relics in Jacobean pilgrimage before looking at the link between relics and their shrines more generally The book then focuses in on two major issues in the study of relics the stealing of relics Furta Sacra and their modern day scientific examination and authentication These topics demonstrate not only symbolic importance of relics but also their role as physical historical objects in material religious expression This is a fascinating collection featuring the latest scholarship on relics and pilgrimage across Europe It will therefore be of great
