**Concerning the Gods and the Universe. Edited with Prolegomena and Translation by Arthur Darby Nock,...**

Salluste le philosophe,Sallustius,1926      *Christianity, Philosophy, and Roman Power* Lea Niccolai,2023-06-01 This book rethinks the Christianisation of the late Roman empire as a crisis of knowledge pointing to competitive cultural re assessment as a major driving force in the making of the Constantinian and post Constantinian state Emperor Julian s writings are re assessed as key to accessing the rise and consolidation of a Christian politics of interpretation that relied on exegesis as a self legitimising device to secure control over Roman history via claims to Christianity s control of paideia This reconstruction infuses Julian s reaction with contextual significance His literary and political project emerges as a response to contemporary reconfigurations of Christian hermeneutics as controlling the meaning of Rome s culture and history At the same time understanding Julian as a participant in a larger debate re qualifies all fourth century political and episcopal discourse as a long knock on effect reacting to the imperial mobilisation of Christian debates over the link between power and culture      *In Praise of Constantius* Alan J. Ross,Associate Professor of Classics Alan J Ross,2025-10-30 *In Praise of Constantius* argues that prominent pagan orators in Late Antiquity used the performance of speeches of praise to control and respond to significant shifts in their own careers and in imperial policy during the early decades of Roman Christian monarchy Combining literary and historical analysis the book charts the development of Greek prose literature beyond the early centuries of Roman control of the eastern Mediterranean      **Sacrifice in Pagan and Christian Antiquity** Robert J. Daly,2019-08-22 Robert J

Daly S J examines the concept of sacrifice in the ancient Mediterranean world and discusses how the rise of bloodless Christian sacrifice and the use of sacrificial language in reference to highly spiritualized Christian lives would have seemed unsettling and radically challenging to the pagan mind Acknowledging the difficulties posed by an overwhelmingly Christian scholarly narrative around the topic of sacrifice Daly specifically sets out to tell the non Christian side of this story He first outlines the pagan trajectory and then the Jewish Christian trajectory before concluding with a representative series of comparisons and contrasts Covering the concept of sacrifice in relation to prayer ethics and morality the rhetoric and economics of sacrificial ceremonies and heroes and saints Daly finishes with an estimation of how this study might inform further study of sacrifice      **A Handbook of Greek Mythology** H. J. Rose,2004-08-02 In this new and substantially revised edition of H J Rose s classic survey and analysis of the evolution and tradition of Greek myth Robin Hard adds various

features which bring the work up to date with contemporary scholarship and address the needs of students a new preface analysing and contextualising H J Rose s attitude to myth a new chapter devoted to the epic and other poetic sources of the myths narrative prose mythography and the various forms of rationalisation a new chapter examining the relationship between the different myths of Gods and heroes with genealogical tables Robin Hard shows how the myths of individual families and distinct locations hold together to form a coherent pseudo historical pattern extensively revises and simplifies notes a new annotated bibliography A Handbook of Greek Mythology presents a invaluable and user friendly guide to the myths and legends of ancient Greece their genesis sources development and significance

**Perspectives of Jesus in the Writings of Paul** Gerry Schoberg, 2014-02-27 The critical question of the relationship between Jesus and Paul has been well established in New Testament studies for over 150 years and it needs to be addressed with all the tools of historical criticism that scholarship has developed So states Gerry Schoberg at the beginning of this new and important work that does just that By coupling comparative instances in the gospels and the works attributed to Paul Schoberg invites the reader to enquire more profoundly than in past studies as to the nature of the relationship between Jesus and the most dramatic of Christian converts At the heart of this study is not only the question of whether the New Testament truly gives a unified vision of the Christian movement but also how the early followers of Jesus felt able to draw such insightful conclusions about him Answering such questions through the study of Jesus and Paul offer an insight as to how one is to make theological sense of the many details experienced from day to day and thereby live a life in Christ

**Decline and Change in Late Antiquity** J.H.W.G. Liebeschuetz, 2024-10-28 The essays in this second collection of articles by Professor Liebeschuetz deal with several aspects of the history of Late Antiquity One theme is the prehistory of Late Antique ethical monotheism which is illustrated by studies of pagan cults Mithraism and Judaism Several essays discuss the nature of the people who took over large areas of the Western Roman Empire especially the Visigoths and the Vandals The author insists that the continuing ethnogenesis of these groups was made possible by customs and traditions some of them going back before the entry of these peoples into the Empire It is argued that the fact that formal possession of Roman citizenship became unimportant helped the barbarian settlers to expand their groups and to consolidate their ethnic solidarity Other papers deal with the historiography of Late Antiquity and more generally with the writings of historians from Thucydides to A H M Jones and Peter Brown The anxiety of

today's historians to reject the concept of decline is linked to current political concerns especially to the ideology of multiculturalism. A recurring theme is the relationship between the historian's own background and his or her writing.

The Nation and Athenæum, 1926      **Intolerance, Polemics, and Debate in Antiquity** George H. van Kooten, Jacques van Ruiten, 2019-10-01 In *Intolerance, Polemics, and Debate in Antiquity* scholars reflect on politico-cultural, philosophical, and religious forms of critical conversation in the ancient Near Eastern, Biblical, Graeco-Roman, and early Islamic world. They enquire into the boundaries between debate, polemics, and intolerance and address their manifestations in both philosophy and religion. This cross-cultural and inclusive approach shows that debate and polemics are not so different as often assumed, since polemics may also indicate that ultimate values are at stake. Polemics can also have a positive effect, stimulating further cultural development. Intolerance is more straightforwardly negative. Religious intolerance is often a justification for politics, but also elite rationalism can become totalitarian. The volume also highlights the importance of the fluency of minorities in the dominant discourses and of their ability to develop contrapuntal lines of thought within a common cultural discourse.

**The Expository Times** James Hastings, Ann Wilson Hastings, Edward Hastings, 1927      Oxford University Gazette University of Oxford, 1927      **A Handbook of Greek Mythology** Herbert Jennings Rose, 1929 This book is a facsimile reprint of the original. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high-quality modern editions that are true to the original work.      **Notes and Queries**, 1927      *The Doctrine of Salvation in the First Letter of Peter* Martin Williams, 2011-10-13 The prevalence of salvation language in the first letter of Peter has often been acknowledged, though rarely investigated in depth. In this book, Martin Williams presents an account exploring the concept of salvation in this theologically rich letter. He brings together the disciplines of hermeneutics, New Testament studies, and systematic and historical theology in order to explore the language of salvation which resonates within the text. The book also elaborates on a methodological level the segregation which has arisen between biblical studies and theological studies. In doing this, Williams identifies a basis for how there can be interaction between these two different viewpoints. This book will be a valuable resource for students and scholars interested in the exegesis and theology of 1 Peter, the doctrine of salvation, and biblical interpretation.
