

Salton Sea

John Stafford Brown

Salton Sea:

The Salton Sea Karl Anderson, 2011 The Salton Sea was an accident of man created when heavy rainfall caused the Rio Colorado to swell and breach an Imperial Valley dike in 1905 For two years water flowed into the Salton Sink and ancient Lake Cahuilla Today the sea is 227 feet below sea level covers approximately 376 square miles and is California's largest lake During the early 1900s it became an important bird and waterfowl refuge When many species of fish were introduced the Salton Sea also became popular for boating fishing hunting and camping activities Motels yacht clubs and marinas developed around Salton City and North Shore During recent decades the sea has become polluted from agricultural runoff creating a doubtful future for the Salton Sea However it remains a sanctuary for anyone who enjoys bird watching desert landscapes or beautiful farmlands

The Settler Sea Traci Brynne Voyles, 2021-11 2022 Choice Outstanding Academic Title 2022 WHA Caughey Western History Prize for the most distinguished book on the American West Can a sea be a settler What if it is a sea that exists only in the form of incongruous head scratching contradictions a wetland in a desert a wildlife refuge that poisons birds a body of water in which fish suffocate Traci Brynne Voyles's history of the Salton Sea examines how settler colonialism restructures physical environments in ways that further Indigenous dispossession racial capitalism and degradation of the natural world In other words The Settler Sea asks how settler colonialism entraps nature to do settlers work for them The Salton Sea Southern California's largest inland body of water occupies the space between the lush agricultural farmland of the Imperial Valley and the austere desert called America's Sahara The sea sits near the boundary between the United States and Mexico and lies at the often contested intersections of the sovereign lands of the Torres Martinez Desert Cahuilla and the state of California Created in 1905 when overflow from the Colorado River combined with a poorly constructed irrigation system to cause the whole river to flow into the desert this human maintained body of water has been considered a looming environmental disaster The Salton Sea's very precariousness the way it sits uncomfortably between worlds existing always in the interstices of human and natural influences between desert and wetland between the skyward pull of the sun and the constant inflow of polluted water is both a symptom and symbol of the larger precariousness of settler relationships to the environment in the West and beyond Voyles provides an innovative exploration of the Salton Sea looking to the ways the sea its origins and its role in human life have been vital to the people who call this region home

The Salton Sea Daniel Tremblay MacDougal, 1914 Salton Sea Debbie Bentley, 2020 The book addresses an environmental and public health crisis in the Imperial Valley of California The photographs provide a portrait of the Salton Sea in 2018 the first year after water transfers to the lake ceased From this year forward playa exposure will escalate and toxic dust in the wind will increase Salton Sea Project, California United States. Salton Sea Rebecca Cabage, 2016-02-21 A 158 page photo book that covers the Salton Sea in southern California. The images were taken over a 5 year period of time from 2005-2010. The Salton Sea has since gone through a restoration process. Some of the hotels, houses, signs, and other things in this book no longer exist. This book serves as a time capsule. All Photos by Rebecca Cabage. **Proposed Salton Sea Project, Imperial and Riverside Counties, California** United States. Department of the Interior, California. Resources Agency, 1974. *Salton Sea Atlas* Redlands Institute (Redlands, Calif.), 2002. A comprehensive scientific, historical, and physical representation of the Salton Sea region utilizing the latest GIS technology. Birds of the Salton Sea Michael Patten, Guy McCaskie, Philip Unitt, 2003-08-19. The Salton Sea, California's largest inland lake, supports a spectacular bird population that is among the most concentrated and most diverse in the world. Sadly, this crucial stopover along the Pacific Flyway for migratory and wintering shorebirds, landbirds, and waterfowl is dangerously close to collapse from several environmental threats. This book is the first thoroughly detailed book to describe the birds of Salton Sea: more than 450 species and subspecies in all. A major contribution to our knowledge about the birds of western North America, it will also be an important tool in the struggle to save this highly endangered area. Synthesizing data from many sources, including observations from their long-term work in the area, the authors' species accounts discuss each bird's abundance, seasonal status, movement patterns, biogeographic affinities, habitat associations, and more. This valuable reference also includes general information on the region's fascinating history and biogeography, making it an unparalleled resource for the birding community, for wildlife managers, and for conservation biologists concerned with one of the most threatened ecosystems in western North America. **Salt Dreams** William DeBuys, 1999. A history of the Salton Sea which has become a prophetic story of mounting environmental crises that impinge on the water supply of southern California's sixteen million people. The Salton Sea Melvin Amos Brannon, 1914. **Haven Or Hazard** Michael J. Cohen, 1999. **The Great Wall of China and the Salton Sea** Rathbun, 2017. We've been building and making things ever since we stumbled out of Paradise. Some of those things are incredible continuations of God's creation, while others are nothing but ambitious catastrophes. We continue making, says Russell Rathbun, but we've lost ourselves in the process. So how do we find ourselves again, rebuild our connections to each other, the earth, maybe even God? In search of an answer, Rathbun drives cross-country to the Salton Sea and takes a trip to China's Great Wall, interspersing his traveling revelations with engaging musings on Madame Mao's Gang of Four, Grandpa Webb's family secret, the Great Flood, and the Tower of Babel, and a host of other subjects that grab his attention. With cheeky wit and sharp insight, Rathbun uncovers a way of finding ourselves and the deep connections we long for in an increasingly complex world.
