Rosenfeld,2023-11-27 Praise for Gravity Drive I started reading Gravity Drive Key to the Cosmos after dinner figuring I d get a couple chapters into it just to see how it started and couldn t put it down I read the whole thing straight through Well done I thoroughly enjoyed the story and the characters I loved the aliens Jerry Olton Nebula Award winning author of over 15 novels and 150 published stories including numerous Authorized Star Trek novels Note This is a work of fiction Since the invention of rockets their propulsion systems have gone essentially unchanged We still depend on blasting some type of propellant out the rear to shoot the rocket forward Newton s Third Law check it out There s two main problems with this method propellant is always in limited supply and therefore you can t really go very fast This is why we use gravitational assist from planets and the Sun to get us places It still takes years and that s just inside our solar system What if we could go to our Moon in hours or Mars in a couple days and even turn around mid flight if we forgot our toothbrush This is the story behind the development of the Gravity Drive propulsion system WAIT Spoiler Alert and the profound effect it has not just on space exploration but on all of humanity it s benefits for Earth s ecology and most importantly it s role in humanities future in the greater galactic community The story follows an engineer who has a close encounter and decides he s far more interested in how the UFO flies than who might be inside After designing the first gravity drive propulsion system he receives confirmation of his design when he meets up with two engineers who have been studying the crashed Alien craft from 1947 Roswell And yes you ll finally hear the true story of that night in 1947 Roswell and why the US government has kept it covered up The three engineers become fast friends and together with NASA they build the first fully functional gravity drive space craft and fly off to many adventures among the cosmos with a slightly wacky alien AI the friendly kind and meet some very interesting aliens OK we re getting into some real spoiler territory here so you ve been warned again After bringing additional advanced technology back to humanity courtesy of some friendly aliens our four heroes start humanity down a path of cleaning up the mess we ve made of our Earth and it s inhabitants So it s time for a very long nap and we wake up just in time for the second book It s thousands of years later and humans have really worked their butts off to make the Earth a paradise once again when along comes the Universe to snatch it all away The only hope for saving life on Earth rests with their new best friend and previously mentioned artificial intelligence Jason Hence the title of the second book With the Ark fully loaded we head into the third book where we quickly discover that the Universe doesn t play fair and is determined to destroy all life on Earth once and for all It s time for humanity to get serious about deep space exploration and find us some new homes out there in the cosmos The only problem is there just aren t a lot of no vacancy signs You ll love the way the trilogy wraps up and the important messages not so

discreetly hidden in the story After all they re important and I don t want you to miss them in case you fall asleep a lot while reading I hope you enjoy these three books as much as I enjoyed writing them and Thank You for your choice in literature It shows you have Great Taste **Prevention 2008 Shortcuts to Big Weight Loss** Chris Freytag,2007 *Rebelliously Happy 3-in-1 Collection* Julie Schooler,2021-02-15 This is not said lightly this boxset WILL help you to be happy no matter what Do you struggle to get out of bed each morning Do you feel anxious stressed and overwhelmed every single day Have you got a fairly decent life and still feel something is missing This Rebelliously Happy 3 in 1 Collection has the wisdom and tools to help you become less busy and distracted and instead focus on being rebelliously happy Follow the short chunked down chapters in this boxset to find out how to control your thoughts so they work for you use natural daily rituals to feel in control in this uncertain time learn a simple three step process for handling your emotions better bust myths around meditation and learn how to do it easily every day discover how breathing the right way can change your life yes really reclaim all that fun love and energy you know you still have deep inside you Rediscover Your Sparkle will give you all the ingredients you need to create a delicious and simple recipe to rediscover your sparkle It will provide compelling reasons why a gratitude practice is a game changer upgrade your joy to a level that most people cannot fathom explain why being extraordinary is your birth right What s stopping you from being the happy person you want to be Not when the time is right but today Love love love this book I have a ladies group on Facebook so that we can all read it together and start doing the challenges in the book as well Probably one of the best feel good self help books I ve read Crappy to Happy will give you the simplest and easiest ways to tap into your inner wisdom and remember how to love your life It explains the three tiers to ultimate happiness and fulfilment how a few simple tweaks to your mindset language and physiology have the power to take your daily life from crappy to happy Don t wait to struggle through another crappy day to read this book I like the daily and weekly challenges and it s the best approach to starting meditation that I ve read Embrace Your Awesomeness will encourage you to clear away your learned negative thought patterns and simply be the best person you were born to be It is not about fixing you as you are not broken It is about becoming the real you It also will help you act confidently even if you have low self esteem love yourself even though that may sound excruciating learn how to overcome perfectionism procrastination and people pleasing Imagine being at your absolute optimum no matter what It s time to get out of your own way Amusing anecdotes very poignant observations and simple yet out of the box instructions got me back on track to experience a more fulfilling life What s stopping you from being the rebelliously happy person you deserve to be To add some much needed fun joy and cheer back into your life buy this boxset today **PC Mag** ,1995-09-12 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology PC Mag ,1997-05-27 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest
