to discover that the Army had conducted no formal review of this alarming situation including from the standpoint of military psychiatry and had lost or destroyed all of the pertinent clinical records In addition to permitting a study of the psychological wounds and their treatment in Vietnam these records would have been priceless in the treatment of the legions of veterans who presented serious adjustment problems and Post traumatic Stress Disorder As a consequence Dr Camp has been relentless in combing the professional civilian and surviving military literature including unpublished documents to construct a compelling narrative documenting the successes and failures of Army psychiatry and the Army leadership in Vietnam in responding to these psychiatric and behavioral challenges The result is a book that is both scholarly and intensely personal includes vivid case material and anecdotes from colleagues who also served there and is replete with illustrations and correspondence It presents the story of Vietnam in a fresh manner through the psychiatrist s eyes and sensibilities
