Shrinking Forests:

Shrinking Forests Jenny E. Tesar, Bernard S. Cayne, 1991 Explores the crucial role of the forest ecosystem and how its invaluable resources are endangered by pollution development and lack of careful conservation *Rain Forests* Adele Richardson, 2001-09 Discusses the plants animals and climate of a rain forest ecosystem A Political Ecology of Forest Conservation in India Amrita Sen, 2021-11-25 This book critically explores the political ecology of human marginalization wildlife conservation and the role of the state in politicizing conservation frameworks drawing on examples from forests in India The book specifically demonstrates the nuances within human environmental linkages by showing how environmental concerns are not only ecological in content but also political In India a large part of the forests and their surrounding areas were inhabited far before they were designated as protected areas and inviolate zones with the local population reliant on forests for their survival and livelihoods Thus socioecological conflicts between the forest dependents and official state bodies have been widespread This book uses a political ecology lens to explore the complex interplay between current norms of forest conservation and environmental subjectivities illustrating contemporary articulation of forest rights and the complex mediations between forest dependents and different state and non state bodies in designing and implementing regulatory standards for wildlife and forest protection It foregrounds the issues of identity migration and cultural politics while discussing the politics of conservation Through a political ecology approach the book not only is human centric but also makes significant use of the role of non humans in foregrounding the conservation discourse with a particular focus on tigers The book will be of great interest to students and academics studying forest conservation human wildlife interactions and political ecology Protecting Earth's Land Valerie Rapp, 2015-08-01 Nearly all living things depend on Earth's land and its resources to survive But did you know that people do many things that hurt the land The damage sometimes destroys forests which are home to diverse ecosystems and are important in producing oxygen and water And in many parts of the world damaged land produces less food less wood and less of many things that people need We must join together in the quest to find better ways to use and take care of Earth's land With engaging text and eye catching images plus a special Going Green section this book tells you all about Earth's land and what you can do to protect it *Rain Forests* Susie Brooks, 2016-07-15 Deep within the rain forest are trees that could cure diseases venomous spiders and a whole lot of rain From the Amazon to Costa Rica the world's rain forests are fascinating places to learn about Readers explore life under the canopy in this book discovering the many amazing plants and animals that make their homes there as well as each rain forest's climate and environment Full color photographs show the brilliant green of rain forest trees and give readers up close encounters with animals only found there such as the adorable aye aye **Emerging Threats to Tropical Forests** William F. Laurance, Carlos A. Peres, 2006-10 Publisher Description Plants and the Environment Jennifer Boothroyd, 2008-01-01 An engaging look at the ways that plants interact with people and animals **Sustainable Goat Production in the Changing**

Climate Veerasamy Sejian,M.V. Silpa,D. Thirunavukkarasu,2025-06-01 Sustainable Goat Production in the Changing Climate aims to make the global scientific and academic communities aware of the potential of goats as a livestock of the future When compared to more popular meat sources like cattle and swine goats have a lower carbon footprint and can aid in mitigating the effects of climate change as well as improving food production poverty and equity issues This book will discuss the implications of climate change on goat production systems and emphasize the physiological potential of goats to adapt to erratically changing climatic conditions Furthermore the book includes chapters on strategies to mitigate the effects of climate change on goat production and highlights novel technologies used to assess the impact of heat stress in goats Technology transfer strategies and policy related issues will also be covered Written and edited by an international team of experts on goats livestock animal agriculture and climate smart food systems Sustainable Goat Production in the Changing Climate will appeal to a broad audience from researchers to livestock specialists veterinarians and policymakers in food and sustainability Explores the potential of goats as future livestock species for animal origin foods Summarizes the impact of climate change on goats and goat production systems Proposes technological interventions ranging from management to bio technological solutions Identifies gaps in technology transfer activities and policymaking and provides solutions **Where**

landscapes once shaped by heavy industry that are being re colonized naturally by forests These new types of urban woodlands are often overlooked by ecologists foresters and planners Individual chapters consider urban woodlands from the perspectives of ecology environmental sociology forestry nature conservation and landscape architecture Climate Change and Capitalism in Australia Hans A. Baer, 2021-09-30 Recognizing that climate politics has been an increasingly contentious and heated topic in Australia over the past two decades this book examines Australian capitalism as a driver of climate change and the nexus between the corporations and Coalition and Australian Labor parties As a highly developed country Australia is punching above its weight in terms of contributing to greenhouse gas emissions despite rising temperatures droughts water shortages and raging bushfires storm surges and flooding and the bleaching of the Great Barrier Reef Drawing upon both archival and ethnographic research Hans Baer examines Australian climate politics at the margins namely the Greens the labour union the environmental NGOs and the grass roots climate movement Adopting a climate justice perspective which calls for system change not climate change as opposed to the conventional approach of seeking to mitigate emissions through market mechanisms and techno fixes particularly renewable energy sources this book posits system challenging transitional steps to shift Australia toward an eco socialist vision in keeping with a burgeoning global socio ecological revolution Accessibly written and including an interview with renowned comedian and climate activist Rod Quantock OAM this book is essential reading for academics students and general readers with an interest in climate change and climate activism The Geobiology and Ecology of Metasequoia Ben A. LePage, Christopher J. Williams, Hong Yang, 2005-03-30 The plant fossil record indicates that the genus Metasequoia was widely distributed throughout the Northern Hemisphere from the early Late Cretaceous to the Pliocene Today the genus has shrunk to one species with approximately 5 000 mature individuals in southeastern China s Xishui Valley This book distills the current understanding of the biology ecology and physiology of fossil and living Metasequoia current research directions and problems that remain unresolved The Riddled Chain Jeffrey Kevin McKee, 2000 Had any link in the evolutionary chain of events been slightly different then our species would not be as it is today or our ancestors may not have survived at all BOOK JACKET

Collapse Jared Diamond, 2013-03-21 From the author of Guns Germs and Steel Jared Diamond s Collapse How Societies Choose to Fail or Survive is a visionary study of the mysterious downfall of past civilizations Now in a revised edition with a new afterword Jared Diamond s Collapse uncovers the secret behind why some societies flourish while others founder and what this means for our future What happened to the people who made the forlorn long abandoned statues of Easter Island What happened to the architects of the crumbling Maya pyramids Will we go the same way our skyscrapers one day standing derelict and overgrown like the temples at Angkor Wat Bringing together new evidence from a startling range of sources and piecing together the myriad influences from climate to culture that make societies self destruct Jared Diamond s Collapse also shows how unlike our ancestors we can benefit from our knowledge of the past and learn to be survivors A grand sweep

from a master storyteller of the human race Daily Mail Riveting superb terrifying Observer Gripping the book fulfils its huge ambition and Diamond is the only man who could have written it Economis This book shines like all Diamond s work Sunday Times

The Devouring Dragon Craig Simons,2025-06-25 China s rise is assaulting the natural world at an alarming rate In a few short years China has become the planet s largest market for endangered wildlife its top importer of tropical trees and its biggest emitter of greenhouse gases Its rapid economic growth has driven up the world s very metabolism in Brazil farmers clear large swaths of the Amazon to plant soybeans Indian poachers hunt tigers and elephants to feed Chinese demand in the United States clouds of mercury and ozone drift earthward after trans Pacific jet stream journeys Craig Simons The Devouring Dragon looks at how an ascending China has rapidly surpassed the U S and Europe as the planet s worst polluting superpower It argues that China s most important 21st century legacy will be determined not by jobs corporate profits or political alliances but by how quickly its growth degrades the global environment and whether it can stem the damage Combining in depth reporting with wide ranging interviews and scientific research The Devouring Dragon shines a spotlight on how China has put our planet s forests wildlife oceans and climate in jeopardy multiplying the risks for everyone in our burgeoning increasingly busy world
