Housman Country Peter Parker, 2017-06-20 Parker's beautiful Housman Country tells you everything you want to know about the life and influence of England's most satirised but inimitable poets Evening Standard A New York Times Book Review Editor's Choice Nominated for the 2017 PEN Bograd Weld Prize for Biography A E Housman's A Shropshire Lad made little impression when it was first published in 1896 but has since become one of the best loved volumes of poetry in the English language Its evocation of the English countryside thwarted love and a yearning for things lost is as potent today as it was more than a century ago and the book has never been out of print In Housman Country Peter Parker explores the

lives of A E Housman and his most famous book and in doing so shows how A Shropshire Lad has permeated English life and culture since its publication The poems were taken to war by soldiers who wanted to carry England in their pockets were adapted by composers trying to create a new kind of English music and have influenced poetry fiction music and drama right up to the present day Everyone has a personal land of lost content with blue remembered hills and Housman has been a tangible and far reaching presence in a startling range of work from the war poets and Ralph Vaughan Williams to Inspector Morse and Morrissey Housman Country is a vivid exploration of England and Englishness in which Parker maps out terrain that is as historical and emotional as it is topographical A rich blend of literary criticism and cultural history The Spectator

English Farmworkers and Local Patriotism, 1900-1930 Nicholas Mansfield, 2017-03-02 This new study looks at the ways in which the years surrounding the First World War shaped the lives of the rural workforce in Britain and how the patriotism unleashed by the war was used by those in power to blur class divisions and build conservative attitudes in rural communities Using the area of Shropshire and the Marches as a focus the book looks at farmworkers and their trade unions the structures of agrarian economy class divisions local loyalties cultural institutions and political organisations From 1917 the growing power of the farmworkers unions and the rural labour movement mounted a challenge to the landed elites and sought a radical change from rural poverty The author shows how the elites met this threat dynamically by creating a range of new village institutions such as ploughing matches Women s Institutes village halls war memorials and the British Legion The extraordinary growth of rural radicalism at the end of the war was diffused by popular conservatism and local patriotism Influenced by wartime experiences the period 1900 1930 saw a change in rural society from parochial concerns to a new sense of loyalty to county and to the English nation The Lost Girls Andrew Radford, 2007 The Lost Girls analyses a number of British writers between 1850 and 1930 for whom the myth of Demeter s loss and eventual recovery of her cherished daughter Kore Persephone swept off in violent and catastrophic captivity by Dis God of the Dead had both huge personal and aesthetic significance This book in addition to scrutinising canonical and less well known texts by male authors such as Thomas Hardy E M Forster and D H Lawrence also focuses on unjustly neglected women writers Mary Webb and Mary Butts who utilised occult tropes to relocate themselves culturally and especially in Butts s case to recover and restore a forgotten legacy the myth of matriarchal origins These novelists are placed in relation not only to one another but also to Victorian archaeologists and especially to Jane Ellen Harrison 1850 1928 one of the first women to distinguish herself in the history of British Classical scholarship and whose anthropological approach to the study of early Greek art and religion both influenced and became transformed by the literature Rather than offering a teleological argument that moves lock step through the decades The Lost Girls proposes chapters that detail specific engagements with Demeter Persephone through which to register distinct literary cultural shifts in uses of the myth and new insights into the work of particular writers

Farmers, Consumers, Innovators Christopher Dyer, Richard Jones, 2016-09-01 Joan Thirsk was the leading English

agrarian historian of the late 20th century Perhaps best known for her research into regional farming she also wrote much about rural industry changing tastes and fashions and innovations in the rural economy This book is based on a conference held in her honor following her death in 2013 that was intended not to look back but rather to identify Joan Thirsk's relevance for historians now and to present new work that has been influenced and inspired by her **Great Britain** J. B. Mitchell, 1962-01-02 Originally published in 1962 this volume comprises a series of essays on British geography by various authors Covering both human and physical areas the text provides an insight into the astonishing geographical variety of Britain The respective themes of the essays are accordingly very different portraying the essential variety of the subject matter This is a fascinating book that will be of value to anyone with an interest in British geography and the development of geographical models Exploring Britain Automobile Association (Great Britain), 2001-04 Explore Britain on foot by bike by horse by balloon by barge or boat by car by train from coast to coast *Humanistic Geography and Literature (RLE Social & Cultural Geography)* Douglas Pocock, 2014-01-23 This book introduces the beginning student to the major concepts materials and tools of the discipline of geography While it presents geographic theory as whole and for each of its parts the chief emphasis is on concrete analysis and example rather than on abstraction an approach which has proven more successful for undergraduate courses than those with a more heavily theoretical bias The text was extensively re written for the third edition which enhanced its clarity and effectiveness with expanded cartographic coverage *Lords of the Central Marches* Brock Holden, 2008-08-07 In the Middle Ages the March between England and Wales was a contested militarised frontier zone a land of war With English kings distracted by affairs in France English frontier lords were left on their own to organize and run lordships in the manner that was best suited to this often violent borderland The centrepiece of the frontier society that developed was the feudal honour and its court and in the March it survived as a functioning entity much longer than in England However in the twelfth century as the growing power of the English crown threatened Marcher honours their lords asserted their independence from the king's courts and the March became a land where the king's writ did not run At the same time the increased military capability of their Welsh adversaries put the Marcher lordships under enormous military and financial strain Brock Holden describes how this unusual frontier society developed in reaction to both the challenge of the native Welsh and the power of the English kings Through a multi faceted examination political economic social legal and military of the lordships of the Central March of Wales it examines how the feudal matrix of Marcher power developed over the course of the eleventh to thirteenth centuries The Northern Marches Cledwyn Hughes, 1953 **A Regional Geography of the World** Leonard Brooks, 1921 **The world** Leonard Brooks, 1922 *A Regional Geography of Africa and Europe* Leonard Brooks, 1921 A Regional Geography of the British Isles and Europe Leonard Brooks, 1921

The New Sporting Magazine ,1835 **Custom and Commercialisation in English Rural Society** J. Bowen,A. Brown,2016-03-01 English rural society underwent fundamental changes between the thirteenth and eighteenth centuries with urbanization commercialization and industrialization producing new challenges and opportunities for inhabitants of rural communities However our understanding of this period has been shaped by the compartmentalization of history into medieval and early modern specialisms and by the debates surrounding the transition from feudalism to capitalism and landlord tenant relations Inspired by the classic works of Tawney and Postan this collection of essays examines their relevance to historians today distinguishing between their contrasting approaches to the pre industrial economy and exploring the development of agriculture and rural industry changes in land and property rights and competition over resources in the English countryside
