The Legal Protection of Rights in Australia Matthew Groves, Janina Boughey, Dan Meagher, 2019-11-14 How do you protect rights without a Bill of Rights Australia does not have a national bill or charter of rights and looks further away than ever from adopting one But it does have a range of individual elements sourced from common law statute and the Constitution which though unsystematic do provide Australians with some meaningful rights protection This book outlines and explains the unique human rights journey of Australia It moves beyond

the criticisms long made of the Australian position that its formalism legalism and exceptionalism compromise its capacity for rights protection to consider how the many elements of its novel legal structure operate This book analyses the interlocking legal framework for the protection of rights in Australia A key theme of the book is that the many different elements of a fragmented scheme can add up to something significant albeit with significant gaps and flaws like any other legal rights protection framework It shows how the jumbled influences of a common law heritage a written constitution differing paths taken by jurisdictions within a single federal state statutory and common law innovations and a strong dose of comparative legal influences have led to the unique patchwork of rights protection in Australia It will provide valuable reading for all those researching in human rights constitutional and comparative law *Australian National Bibliography: 1992* National Library of Australia, 1988 Sustainable Communities, Sustainable Environments, 2007-01-01 Sustainable Communities Sustainable Environments What is enacted when we engage with these ideas Sustainability is a term increasingly used to describe the broader purpose and goal for education as we move further into the UN declared Decade of Education for Sustainable Development UNDESD This book provides a variety of international perspectives from the traditional fields of science and technology education as teachers primary through tertiary teacher educators and academic researchers engage with this topic The book provides a collection of new works which will help to describe for educators what it is we develop and what it is we sustain when we engage in education for sustainable development ESD **Accounts of My Travels** F.
