## **Siberian Survival The Nenets Their:**

*Siberian Survival* Andrei V. Golovnev, Gail Osherenko, 2018-09-05 The Yamal Peninsula in northwestern Siberia is one of the few remaining places on earth where a nomadic people retain a traditional culture Here in the tundra the Nenets one of the few indigenous minorities of the Russian North follow a lifestyle shaped by the seasonal migrations of the reindeer they herd For decades under Soviet rule they weathered harsh policies designed to subjugate them How the Nenets successfully resisted indoctrination from a powerful totalitarian state and how today they face new challenges to the survival of their culture these are the subjects of this compelling and lavishly illustrated book The authors one the head of a team of Russian ethnographers who have spent many seasons on the peninsula the other an American attorney specializing in issues affecting the Arctic introduce the rich culture of the Nenets They recount how Soviet authorities attempted to restructure the native economy by organizing herders into collectives and redistributing reindeer and pasture lands as well as to eradicate the native belief system by killing shamans and destroying sacred sites Over the past century the Nenets have also witnessed the piecemeal destruction of their fragile environment and the forced settlement of part of their population To understand how this society has survived against all odds the authors consider the unique strengths of the culture and the characteristics of the outside forces confronting it Today the Yamal is known for a new reason it is the site of one of the world's largest natural gas deposits The authors discuss the dangers Russian and Western developers present to the Nenets people and recommend policies for land use which will help to preserve this remarkable culture For information on the documentaries about life both human and animal above the Arctic Circle that Andrei V Golovnev and Gail Osherenko have made visit [www.filmfromthenorth.com](http://www.filmfromthenorth.com)

[Research Handbook on Communicating Climate Change](#) David C. Holmes, Lucy M.

Richardson,2020-12-25 Drawing together key frameworks and disciplines that illuminate the importance of communication around climate change this Research Handbook offers a vital knowledge base to address the urgency of conveying climate issues to a variety of audiences     World Folklore for Storytellers: Tales of Wonder, Wisdom, Fools, and Heroes Howard J Sherman,2014-12-18 Here is a treasury of favorite and little known tales from Africa Asia Europe the Americas Australia and Oceania gracefully retold and accompanied by fascinating detailed information of their historic and cultural backgrounds The introduction provides an informative overview of folklore its purpose in world cultures and in contemporary society and popular culture Following this the main sections of the book are arranged by tale type covering wonder tales hero tales tales of kindness repaid and hope and redemption and finally tales of fools and wise people Each section begins by comparing the tales cross culturally explaining similarities and differences in the folkloric narratives Tales from diverse cultures are then presented introduced and retold in a highly readable fashion     Who Owns the Stock? Anatoly M. Khazanov,Günther Schlee,2012-08-01 The issue of collective and multiple property rights in animals such as cattle camels or reindeers among pastoralists has never been a subject of special cross cultural and comparative study Focusing on pastoralist societies in East and West Africa the Far North and Siberia and the Eurasian steppes this volume addresses the issue of property rights and the changes these societies have undergone due to the direct or indirect influence of modernization and globalization processes The contributors also investigate the interplay of older sets of rights and modern marketing policies political ecological and economic effects of collectivization and de collectivization the existence of collective and private property in the Soviet Union and its successor states state taxation and destocking measures in African dry lands and the effects of quarantine as well as import and export regulations The rich and well researched ethnographic historical and economic data in these chapters provides new theoretical insights into the matter of property rights in animals     **Landscape and Culture in Northern Eurasia** Peter Jordan,2016-06-16 This unique volume aims to break down the lingering linguistic boundaries that continue to divide up the circumpolar world to move beyond ethnographic thick description to integrate the study of northern Eurasian hunting and herding societies more effectively by encouraging increased international collaboration between archaeologists ethnographers and historians and to open new directions for archaeological investigation of spirituality and northern landscape traditions Authors examine the life ways and beliefs of the indigenous peoples of northern Eurasia chapters contribute ethnographic ethnohistoric and archaeological case studies stretching from Fennoscandia through Siberia and into Chukotka and the Russian Far East     **The Cambridge History of the Polar Regions** Adrian Howkins,Peder Roberts,2023-05-11 The Cambridge History of the Polar Regions is a landmark collection drawing together the history of the Arctic and Antarctica from the earliest times to the present Structured as a series of thematic chapters an international team of scholars offer a range of perspectives from environmental history the history of science and exploration cultural history and the more traditional approaches of political social economic and imperial history The volume considers

the centrality of Indigenous experience and the urgent need to build action in the present on a thorough understanding of the past Using historical research based on methods ranging from archives and print culture to archaeology and oral histories these essays provide fresh analyses of the discovery of Antarctica the disappearance of Sir John Franklin the fate of the Norse colony in Greenland the origins of the Antarctic Treaty and much more This is an invaluable resource for anyone interested in the history of our planet

**What it Means to be a Herdsman** Joachim Otto Habeck, 2005 In this book author Joachim Otto Habeck takes the reader to the tundra in the Far North of the Russian Federation describing and interpreting the practice of reindeer herding on the land His vivid account of the everyday life of Komi reindeer herders and their family members as they interact with their bosses the town the market and oil companies reveals both the reach of their agency and its limitations Through a meticulous analysis of each of these domains Habeck shows how public discourse about reindeer husbandry as a traditional life style derives from outside the Komi reindeer herding communities yet it has powerful effects on the local actors ability to frame their own existence He argues that the concept of tradition despite its many positive connotations places Komi reindeer herders in a golden cage which leaves no space for acknowledging their drive to innovation and flexibility

**Archaeology** Barry W. Cunliffe, Wendy Davies, Colin Renfrew, 2002 Twenty six leading scholars from around the world have come together to celebrate the strengths the energies and the sheer intellectual excitement of their discipline They unashamedly proclaim that over the last hundred years archaeology has transformed itself from a genteel antiquarian pursuit deeply rooted in the classical tradition to a rigorous and demanding discipline spanning the humanities and the sciences yet at the same time one widely accessible to the public at large The contributors show how our understanding of the past has changed reveal the exciting ideas under current debate and offer their visions of the future The result is a remarkable overview of world archaeology focusing on new and unexpected themes at the cutting edge of the discipline

Red Ties and Residential Schools Alexia Bloch, 2016-03-22 In this book Alexia Bloch examines the experiences of a community of Evenki an indigenous group in central Siberia to consider the place of residential schooling in identity politics in contemporary Russia Residential schools established in the 1920s brought Siberians under the purview of the Soviet state and Bloch demonstrates how in the post Soviet era a time of jarring social change these schools continue to embody the salience of Soviet cultural practices and the spirit of belonging to a collective She explores how Evenki intellectuals are endowing residential schools with new symbolic power and turning them into a locus for political mobilization In contrast to the binary model of oppressed oppressor underlying many accounts of state indigenous relations Bloch's work provides a complex picture of the experiences of Siberians in Soviet and post Soviet society Bloch's research conducted in a central Siberian town during the 1990s is ethnographically grounded in life stories recorded with Evenki women surveys of households navigating histories of collectivization and recent rampant privatization and in residential schools and in museums both central to Evenki identity politics While considering how residential schools once targeted

marginalized reindeer herders especially young girls for socialization and assimilation Bloch reveals how class region and gendered experience currently influence perspectives on residential schooling The analysis centers on the ways vehicles of the Soviet state have been reworked and still sometimes embraced by members of an indigenous community as they forge new identities and allegiances in the post Soviet era **The Conquest of the Russian Arctic** Paul R.

Josephson,2014-06-09 Spanning nine time zones the Russian Arctic was mostly unexplored before the twentieth century Paul Josephson describes the massive effort under Stalin to assimilate the Arctic into the Soviet empire effects still being felt today as Putin redoubles efforts to secure the Arctic which he sees as key to Russia s economic and military status *Slavic*

*Review* ,2000 American quarterly of Soviet and East European studies varies **Arctic Legal Regime for Environmental Protection** Linda Nowlan,2001 For many years concerns have been expressed about environmental issues in the Arctic While the Arctic region unlike Antarctica has been inhabited for thousands of years it is under unique threat because of its vulnerability toward resource exploitation and the deposition of various airborne pollutants With its varied populations and with eight Nations asserting territorial interests the Arctic needs a careful approach to its protection and development This report describes the current Arctic environmental legal regime It also discusses the possibility of negotiating a sustainability treaty for the Arctic with high standards of environmental protection similar to those in the 1991 Protocol on Environmental Protection to the Antarctic Treaty It is hoped that this review of the legal and policy contrasts between the Arctic and Antarctic can help in the consideration of future directions for the Arctic legal regime **Living with Koryak Traditions**

Alexander D. King,2011 An examination of the globalization of culture and the invention of tradition and what it means to modern Koryak people living in post Soviet Siberia *Nomadic and Indigenous Spaces* Judith Miggelbrink,Joachim Otto Habeck,Nuccio Mazzullo,Peter Koch,2016-05-06 This volume is devoted to aspects of space that have thus far been largely unexplored How space is perceived and cognised has been discussed from different stances but there are few analyses of nomadic approaches to spatiality Nor is there a sufficient number of studies on indigenous interpretations of space despite the importance of territory and place in definitions of indigeneity At the intersection of geography and anthropology the authors of this volume combine general reflections on spatiality with case studies from the Circumpolar North and other nomadic settings Spatial perceptions and practices have been profoundly transformed by new technologies as well as by new modes of social and political interaction How do these changes play out in the everyday lives identifications and political projects of nomadic and indigenous people This question has been broached from two seemingly divergent stances spatial cognition on the one hand and production of space on the other Bringing these two approaches together this volume re aligns the different strings of scholarship on spatiality making them applicable and relevant for indigenous and nomadic conceptualizations of space place and territory **Reindeer and Caribou** Morten Tryland,Susan Kutz,2018-11-09 This book is a comprehensive presentation of health and diseases in reindeer and caribou or just Rangifer a key Circumarctic species

with broad social and ecological value It is an essential reference for anyone interested in the biology and health of wild or semi domesticated reindeer and caribou and is more broadly relevant for those with interests in other species of free ranging and captive cervids Beginning with a general introduction to Rangifer as a species it then focuses on Rangifer health as a concept and describes the determinants of health at an individual and population level Chapters cover a range of topics from nutrition and feeding to stress non infectious and infectious diseases meat hygiene capture and restraint diagnosis and treatment of health issues and finally potential impacts of climate change on health of Rangifer Reindeer and Caribou Health and Disease compiles extensive research and experience based information on issues ranging from drug doses for chemical immobilization blood chemistry values and raising an orphaned calf In addition it contains hundreds of high quality colour illustrations that contribute to its value as a diagnostic resource for recognizing various parasites pathogens and signs of disease both in live and dead animals Each chapter is followed by a comprehensive list of references and a list of contact information for all the contributors identifying world experts in the different areas of health for this circumpolar and fascinating species This book is compulsory reading and an indispensable resource for anyone dealing with health in reindeer and caribou including veterinarians wildlife biologists and managers reindeer herders game ranchers zoological husbandry personnel and students with wildlife health

The Institutional Dimensions of Environmental Change Oran R. Young, 2002 A study that lays the foundation for cumulative research on the roles institutions play in causing and confronting environmental changes

Reindeer herder's thinking Kirill Istomin, Mark Dwyer, 2021-11-19 This book is based on more than a decade of anthropological fieldwork and scholarship among Komi and Nenets nomadic reindeer herders of North eastern Europe and North western Siberia Focused on herding techniques and the way of life of arctic nomads the authors cogitate the unique attributes of reindeer herding and how they influence the herder s cognitive skills Two central cognitive abilities are explored the ability to find their way in expansive and homogenous arctic tundra terrain often in extreme weather conditions and navigating with neither maps nor navigation equipment and the ability to decipher and predict reindeer behaviour This book acknowledges and reviews current theories and models of human cognition developed in cognitive science The authors build bridges between cognitive science and anthropology by presenting further case studies that reveal and demystify cognitive mechanisms Axiomatically they challenge the field of anthropology by demonstrating fundamental weaknesses and debunking anthropological theories that ignore cognitive facts The authors advocate that the field of anthropology should no longer isolate itself from other scientific disciplines since in doing so its marginalisation will amplify and its relevance diminish This book exemplifies the contribution of anthropology to building greater understanding of human cognition However this can only be achieved through embracing advancements made in other disciplines rather than ignoring their existence

**Red Nations** Jeremy Smith, 2013-09-12 This book surveys the experiences of non Russian USSR citizens both during and following the collapse of the Soviet Union

Tundra Passages Petra Rethmann, 2010-11-01 A 1990s study on

how the indigenous people in the northern Kamchatka peninsula in the Russian Far East experienced interpreted and struggled with the changing living conditions of post Soviet Russia The book describes how Koriak women and men actively negotiated the manifold historical and social process from tsardom to Soviet state to democracy by protesting accommodating and reinterpreting the factors by which their conditions were made and remade Special emphasis is on how the women in this culture are adjusting and combating their oppressed position in society Annotation copyrighted by Book News Inc Portland OR
