Alber,C. Coe,T. Thelen,2013-07-17 Drawing on international case

studies the contributors extrapolate a systematization of the ways in which siblingship is conceived on the basis of shared parentage shared childhoods and reciprocal care They explore what makes these relations worth maintaining and how they contribute to community processes and to material and emotional survival **Why Siblings Matter** Naomi White,Claire

Hughes,2017-10-02 Many people grow up with at least one sibling These siblings are often fellow travellers through adversity or significant life events they can act as a source of support for some children while a source of conflict for others

For these reasons siblings are a potentially powerful influence on development and this book is one of the first of its kind to provide an overview of cutting edge psychological research on this important relationship. *Why Siblings Matter* is a cornerstone text on siblinghood. Integrating findings from a 10 year longitudinal study alongside wider research it provides a lifespan perspective examining the impact of sibling relationships on children's development and well being. This text situates siblings in their historical developmental and family context, considers the influence of siblings on children's development and adjustment and provides an introduction to new research on siblings in diverse contexts. The authors discuss sibling relationships in varied populations such as siblings with disabilities, siblings in different cultures and siblings in non traditional families while also considering the practical implications of research. Covering both classical studies and new results, this book offers take home messages for promoting positive sibling interactions. It will be invaluable reading for students and researchers in developmental psychology and family studies and professionals in education, health and social work.

***The Right Spouse*** Isabelle Clark-Decès, 2014-04-30. *The Right Spouse* is an engaging investigation into Tamil South Indian preferential close kin marriages, so called Dravidian Kinship. This book offers a description and an interpretation of preferential marriages with close kin in South India as they used to be arranged and experienced in the recent past and as they are increasingly discontinued in the present. Clark-Decès presents readers with a focused anthropology of this waning marriage system, its past, present and dwindling future. The book takes on the main pillars of Tamil social organization, considers the ways in which Tamil intermarriage establishes kinship and social rank and argues that past scholars have improperly defined Dravidian kinship. Within her critique of past scholarship, Clark-Decès recasts a powerful and vivid image of preferential marriage in Tamil Nadu and how those preferences and marital rules play out in lived reality. What Clark-Decès discovers in her fieldwork are endogamous patterns and familial connections that sometimes result in flawed relationships, contradictory statuses and confused roles. The book includes a fascinating narration of the complex terrain that Tamil youth currently navigate as they experience the complexities and changing nature of marriage practices and seek to reconcile their established kinship networks to more individually driven marriages and careers.

***The Cultural Dialectics of Knowledge and Desire*** Charles William Nuckolls, 1996. ***Siblings in Adolescence*** Aiden Sisler, Angela Ittel, 2014-11-27. How do brothers and sisters shape one another? *Siblings in Adolescence* provides a comprehensive overview of the most up to date international empirical research on the sibling bond during the critical adolescent years. The authors examine how the relationship impacts on adolescent development as well as the effect on and within the family using evidence from behaviour genetics, cross cultural studies and research utilizing both quantitative and qualitative methods. The book presents a multifaceted dynamic view of the adolescent sibling relationship drawing on perspectives from sociological, psychological and ecological and systems science. It introduces a novel theoretical perspective which covers sibling dynamics across various key environments such as their families, communities and cultures. Parents and siblings will also find useful coverage of the

following issues school and life transitions parental separation health illness and disability diverse family experiences Siblings in Adolescence will be indispensable for advanced undergraduate and postgraduate students studying human development and will supplement postgraduate courses for teachers counsellors and social youth and health workers It will also be required reading for all those who work and do research with families and young people *Brothers and Sisters* Henry Abramovitch, 2014-11-18 Growing up we typically spend more time with our brothers and sisters than we do with our parents In an age of divorce mobility and alienation the sibling bond is often the only one that really lasts Given that brothers and sisters are such a fundamental aspect of human existence it is remarkable that they have received so little in depth attention in the field of psychology Henry Abramovitch's *Brothers and Sisters* explores the tension between the myth and reality of brothers and sisters in a variety of cultures and through the poignant brother sister stories in the Bible Abramovitch looks at the developmental sequence in the sibling relationship as brothers or sisters struggle to find their place with each other concluding with a very personal account of his own relationship with his brother and sister *The Women of Totagadde* Helen E. Ullrich, 2017-03-02 This book depicts one South Indian village during the fifty year period when women's education became a possibility and then a reality Despite illiteracy religious ritual marking them as inferior and pre pubertal marriages the daughters and granddaughters of the silent passive women of the 1960s have morphed into assertive self confident millennial women Helen E Ullrich considers the following questions can education alter the perception of women as inferior and forever childlike What happens when women refuse the mantle of socialized passivity Throughout *The Women of Totagadde* Helen Ullrich pushes us to consider how women's lives and society at large have been altered through education **Handbook of Cultural Developmental Science** Marc H. Bornstein, 2014-06-03 Researchers and theoreticians commonly acknowledge the profound impact of culture on all aspects of development However many in the field are often unaware of the latest cultural literatures or how development proceeds in places other than their home locations This comprehensive handbook covers all domains of developmental science from a cultural point of view and in all regions of the globe Part 1 covers domains of development across cultures and Part 2 focuses on development in different places around the world The Handbook documents child and caregiver characteristics associated with cultural variation and it charts relations between cultural and developmental variations in physical mental emotional and social development in children parents and cultural groups This contemporary and scholarly resource of culture in development covers theoretical methodological substantive and ethnic issues as well as geographic approaches Each chapter includes an introduction historical and demographic considerations theory an overview of the most important classical and modern research studies recommended future directions in theory and research and a conclusion The chapters focus on children from the prenatal stage through adolescence Interdisciplinary in nature the Handbook will appeal to human development theoreticians researchers and students in psychology education and pediatrics Ideal for those new to the field readers will appreciate the

plethora of cultural examples from all fields of child and human development and developmental examples from all fields of cultural study

**Women, Family, and Child Care in India** Susan Christine Seymour, 1999-01-28 Documents the lives of 24 families in India over almost thirty years

**The Anthropology of Learning in Childhood** David F. Lancy, John Bock, Suzanne Gaskins, 2010 The Anthropology of Learning in Childhood offers a large mural like portrait of childhood across time culture species and environment Even a casual reading of the literature on childhood will persuade one that learning is a very important topic that commands the attention of tens of thousands of scholars and practitioners Yet anthropological research on children has exerted relatively little influence on this community This book will change that The book demonstrates that anthropologists studying childhood can offer a description and theoretically sophisticated account of children's learning and its role in their development socialization and enculturation Further it demonstrates the particular contribution that children's learning makes to the construction of society and culture as well as the role that culture acquiring children play in human evolution Chapters have been contributed in archaeology primatology biological and cultural anthropology and cross cultural psychology

*Kinship and Behavior in Primates* Bernard Chapais, Carol M. Berman, 2004-03-04 Annotation This book presents a series of review chapters on the various aspects of primate kinship and behavior The relatively new molecular data allow one to assess directly degrees of genetic relatedness and kinship relations between individuals A considerable body of data on intergroup variation based on experimental studies in both free ranging and captive groups has accumulated This allows a full and satisfying reconsideration of this broad area of research

**Emotional Intelligence for Students, Parents, Teachers and School Leaders** Mabel Gonzales, 2022-03-10 This book heightens readers awareness of the importance of emotional intelligence and how it impacts our lives It inspires parents teachers and school leaders to learn more about emotional intelligence as a process of self improvement relational skills and to help our students to develop emotional intelligence from an early stage of their lives There are four parts in the book Part 1 explains the importance of emotional intelligence in every aspect of our lives It presents models and theories of emotional intelligence and explains how our emotions control our mind body and spirit Part 2 gives insights into how emotions play a significant role in our relationships with others Part 3 takes the reader from family to the workplace and highlights the importance of becoming more aware of our emotions at work and how we relate to others Part 4 emphasises the importance of helping our students to develop essential emotional intelligence to face this increasingly complex and challenging world

*The Succeeders* Andrea Flores, 2021-09-07 This book a story of social reproduction and change illustrates how the larger ideological struggles over who belongs in this country who is valuable and who is an American are worked out by young people through their everyday acts of striving in school and caring for friends and family It uses the experiences of everyday high schoolers some undocumented and some from families with mixed legal standing to understand the roles that education and a broad definition of achievement play in shaping how young people who are today the focus of xenophobic ire come to understand their national identity and sense of belonging to the United States

**Parents' Cultural Belief Systems** Sara Harkness, Charles M. Super, 1996-01-01 This illuminating new volume offers a multifaceted view of parenting cultural belief systems their origins in culturally constructed parental experience their expressions in parental practices and their consequences for children s well being and growth Discussing issues with implications beyond the study of parenthood the book shows how the analysis of child outcomes which relate to parents cultural belief systems or parental ethnotheories can provide valuable insights into the nature and meaning of family and self in society and in some cases a basis for culturally sensitive therapeutic interventions Illuminating the powerful influence of parents cultural belief systems on the health and development of children this volume will be welcomed by a broad audience Anthropologists and psychologists interested in

cultural theory and the interface of self and society will find a rich source of ideas and information Parent educators family therapists pediatricians and others who deal with ethnically diverse populations will discover invaluable information on what makes parents think and act the way they do The book can be used as a primary text for courses in cognitive anthropology and cultural psychology and as an auxiliary text for culturally oriented courses in lifespan development education health and human services

*Relationship Pathways* W. Andrew Collins, 2012 This volume is designed to guide the reader through the research on close relationships before during and after adolescence It begins with a section on developmental pathways and processes The next section is devoted to family relationships during the transitions into adolescence and young adulthood The final two sections concern peer relationships

Patients and Agents Alyson Callan, 2012-08-01 Sylhet the area of Bangladesh most closely associated with overseas migration has seen an increase in remittances sent home from abroad introducing new inequalities Social change has also been mediated by the global forces of Western biomedicine and orthodox Islam This book examines the effects of these modernizing trends on mental health and on local traditional healing as the new inequalities have exacerbated existing social tensions and led to increased vulnerability to mental illness It is the young women of Sylhet who are most affected The global economy has increased competition for resources and led to marriage being seen as a route to economic advancement Parents prefer to give their daughters in marriage to families that will widen their social contacts and enhance their economic and social standing Accordingly the young wife's outsider status and hence vulnerability to mental illness has increased as it is no longer customary to give daughters in marriage to local kin Yet patients and their families do not work out tensions passively They are active agents in the construction of their own diagnosis The extent to which patients act or are acted upon is an investigation that runs throughout the book
