Sichuan Four Rivers:

Rivers of the World James Penn, 2001-12-12 Rivers of the World vividly written and meticulously researched is a rich and thorough treatment of some 200 of the world's rivers. In this comprehensive treatment of the major rivers of the world, author James R. Penn's purpose is not just to feature geographic data but to tell a story of historical drama, poetic significance, and cultural relationships. The book shows glimpses of Chairman Mao boosting his image by swimming in the Yangtze, Indian middlemen residing on both sides of the Columbia River exacting tolls from travelers like Lewis and Clark, and near the Dordogne in southwest France, Paleolithic cave art paintings and designs in rock shelters and subterranean caverns which are textbook examples of early human creativity and artistic impulse. In nearly 200 entries ranging from a few paragraphs to several pages, Rivers of the World covers all of the great rivers of the world including the Nile, Niger, Amazon, and Mississippi, as well as smaller waterways that illustrate important themes or represent trends. The book includes bibliographies for each river.

Ancient Central China Rowan K. Flad, Pochan Chen, 2013-01-21 An up-to-date synthesis of archaeological discoveries in the upper and middle Yangzi River region of China, including the Three Gorges Dam reservoir zone.

Stairway to Heaven James M. Hargett, 2012-02-16 Located in a remote area of modern Sichuan province, Mount Emei is one of China's most famous mountains and has long been important to Buddhists. Stairway to Heaven looks at Emei's significance in Chinese history and literature while also addressing the issue of sense of place in Chinese culture. Mount Emei's exquisite scenery and unique geographical features have inspired countless poets, writers, and artists. Since the early years of the Song dynasty (960-1279), Emei has been best known as a site of Buddhist pilgrimage and worship. Today, several Buddhist temples still function on Emei, but the mountain also has become a scenic tourist destination attracting more than a million visitors annually. Author James M. Hargett takes readers on a journey to the mountain through the travel writings of the twelfth-century writer and official Fan Chengda. 1126-1193. Fan's diary and verse accounts of his climb to the summit of Mount Emei in 1177 are still among the most informative accounts of the mountain ever written. Through Fan's eyes, words, and footsteps, and with background information and commentary from Hargett, the reader will experience some of the ways Emei has been constructed by diverse human experience over the centuries.

The Yangtze River Earle Rice, 2012-09-30 The Yangtze River in China is the world's third longest, trailing just the Nile and Amazon. The river provided inspiration for American author Pearl S. Buck, who grew up nearby and eventually wrote *The Good Earth*, one of the most notable books of the 20th century. The Yangtze begins more than four miles above sea level in one of the world's most spectacular mountains and passes through thick forests and lovely alpine meadows during its descent. As it starts to level out, many of China's most important and culturally significant cities line its banks. It becomes a vital means of commerce, and several dams provide power to hundreds of millions of people. Finally, the Yangtze reaches the East China Sea, nearly 4,000 miles from its source.

The 14th Dalai Lama Siren, 1997

Taxing Heaven's Storehouse Paul J. Smith, 2020-10-26 Tea growing was a prosperous

industry in Sichuan when Wang Anshi's New Policies created a Tea Market Agency to buy up Sichuanese tea and trade it to Tibetan tribesmen for cavalry horses. At first the highly autonomous agency not only acquired the needed horses but made a profit. After the Jurchen conquest of North China, however, market realities changed and the combined Tea and Horse Agency's once successful policies ruined; tea farmers failed to meet quotas for horses and ran a deficit. Paul J. Smith details the workings of Sichuan tea farming and the tea trade, examines the geopolitical factors that forced the Song to buy horses, and graphically describes the difficulties of driving them more than a thousand miles through rugged mountains with only inexperienced conscripts as trail hands. In this study of fiscal sociology, Smith also explains how the Tea and Horse Agency transformed the Sichuan local elite, which was notorious for its resistance to state power, into imperial civil servants eager to tax their own region. He draws on modern theories of corporate behavior to explain what made the inner workings of the Agency an extraordinary departure for the Chinese civil service, and he demonstrates how the agency put into practice the most radical New Policies theories of state economic activism. The Agency made entrepreneurs out of bureaucrats but ultimately became ruinously tyrannical as the system of state rewards and punishments drove its personnel to actions that crippled key sectors of the economy. *Atlas of Religion in China: Social and Geographical Contexts* Fenggang

Yang, 2018-09-04 The speed and the scale with which traditional religions in China have been revived and new spiritual movements have emerged in recent decades make it difficult for scholars to stay up to date on the religious transformations within Chinese society. This unique atlas presents a bird's-eye view of the religious landscape in China today. In more than 150 full-color maps and six different case studies, it maps the officially registered venues of China's major religions: Buddhism, Christianity, Protestantism, and Catholicism, Daoism, and Islam at the national, provincial, and county levels. The atlas also outlines the contours of Confucianism, folk religion, and the Mao cult. Further, it describes the main organizations, beliefs, and rituals of China's main religions, as well as the social and demographic characteristics of their respective believers. Putting multiple religions side by side in their contexts, this atlas deploys the latest qualitative, quantitative, and spatial data acquired from censuses, surveys, and fieldwork to offer a definitive overview of religion in contemporary China. An essential resource for all scholars and students of religion and society in China. *All Under Heaven* Carolyn Phillips, 2016-08-30 A comprehensive contemporary portrait of China's culinary landscape and the geography and history that has shaped it, with more than 300 recipes. Vaulting from ancient taverns near the Yangtze River to banquet halls in modern Taipei, *All Under Heaven* is the first cookbook in English to examine all 35 cuisines of China. Drawing on centuries worth of culinary texts, as well as her own years working, eating, and cooking in Taiwan, Carolyn Phillips has written a spirited symphonic love letter to the flavors and textures of Chinese cuisine. With hundreds of recipes, from simple Fried Green Onion Noodles to Lotus Wrapped Spicy Rice Crumb Pork, written with clear step-by-step instructions, *All Under Heaven* serves as both a handbook for the novice and a source of inspiration for the veteran chef. *Los Angeles Times* Favorite Cookbooks of 2016 **China** John Keay, 2011-12-06 An
