Organ Music in Print Thomas R. Nardone, 1975 *Charles Koechlin (1867-1950)* Robert Orledge, 1989 In 1942 Wilfrid Mellers classed Koechlin among the select number of contemporary composers who really matter yet it is only in the 1980s that Koechlin has begun to achieve the recognition he deserves as a composer of breadth vision and powerful originality a pioneer of polytonality and a master orchestrator who was greatly admired by contemporaries such as Faure Debussy Satie and Milhaud Lavishly illustrated with photographic and musical examples this book provides the first comprehensive evaluation of Koechlin's life and works As well as concentrating on major symphonic works like Koechlin's Jungle Book cycle it also discusses his attraction to the early sound film and the music inspired by such stars as Lilian Harvey Marlene Dietrich and Charlie Chaplin in the 1930s Koechlin's career provides a fascinating study of the triumph of integrity and independence over almost overwhelming odds and his rich and varied output offers a veritable treasure trove for performers scholars and enthusiasts alike

The Amateur Flautist Hugh Evans, 2014-10-28 Many people learn the flute Most give it up as an adult because they cannot easily find anyone to play with and a lack of practice makes it less enjoyable to play This book is aimed at helping such people The first chapter diagnoses why most amateur flautists give up playing and sets out a number of remedies The most important is finding other musicians with whom to play whether in an orchestra or more importantly in chamber groups The author explores how you might set about finding players for chamber music and how you might set about finding the music itself The second chapter gives guidance about the music for all the principal combinations of chamber groups which involve the flute The most significant ones are flute and piano two to four flutes trio sonatas with another melody instrument and piano and the wind quartet The author describes the principal works for each of these groups which are fun and manageable for amateurs rather than listing everything that is available Listed are the significant works that are available for free on the internet The third chapter suggests a short practice regime to counteract the deficiencies in the playing of most amateur flautists which are poor tone and tuning Practicing half an hour a few times a week should do the trick

Organ Literature Corliss Richard Arnold, 1995-01-01 This third edition is a basic textbook on the development of pipe organ composition in geographically diverse schools Its nineteen chapters include charts of organ composers and a historical background of contemporary events and figures for each organ composition school Chapter bibliographies cover readings published in the seventies eighties and early nineties A listing of Bach organ compositions with pagination of various editions is also included
