Siegfried Line Campaign U S Army In Worl:

The Siegfried Line Campaign Charles B. MacDonald, 2015-07-28 Includes maps To many an Allied soldier and officer and to countless armchair strategists World War II in Europe appeared near an end when in late summer of 1944 Allied armies raced across northern France Belgium and Luxembourg to the very gates of Germany That this was not in fact the case was a painful lesson that the months of September October November and December would make clear with stark emphasis The story of the sweep from Normandy to the German frontier has been told in the already published Breakout and Pursuit The present volume relates the experiences of the First and Ninth U S Armies the First Allied Airborne Army and those American units which fought under British and Canadian command on the northern flank of the battle front that stretched across the face of Europe from the Netherlands to the Mediterranean The operations of the Third U S Army in the center from mid September through mid December have been recounted in The Lorraine Campaign those of the Seventh U S Army on the south will be told in The Riviera to the Rhine a volume in preparation Unlike the grand sweep of the pursuit the breaching of the West Wall called for the most grueling kind of fighting Huge armies waged the campaign described in this book but the individual soldier pitting his courage and stamina against harsh elements as well as a stubborn enemy emerges as the moving spirit of these armies In the agony of the Huertgen Forest the frustration of MARKET GARDEN the savagery of the struggle for Aachen the valor of the American soldier and his gallant comrades proved the indispensable ingredient of eventual victory **The Siegfried Line Campaign** Charles Brown MacDonald, 1993 *The Siegfried Line Campaign* Charles B. MacDonald, 1984 **The Siegfried Line Campaign** Charles Brown MacDonald, 1963 The story of the First and Ninth U S Armies from the first crossings of the German border in September 1944 to the enemy's counteroffensive in the Ardennes in December including the reduction of Aachen Huertgen Forest and Operation MARKET GARDEN in Holland

American Military History, 2005 Ruhr River Battles David R. Higgins, 2020-01-10 An account of the ups and downs of a six month long WWII campaign with a well detailed chronological order of the battles and interesting photographs Armorama A selection of the Military Book Club Following the Allied breakout from the Normandy beachhead in July 1944 the vaunted German Army seemed on the verge of collapse As British and US forces fanned out across northwestern France enemy resistance unexpectedly dissolved into a headlong retreat to the German and Belgian borders In early September an elated Allied High Command had every expectation of continuing their momentum to cripple the enemy's war-making capability by capturing the Ruhr industrial complex and plunging into the heart of Germany After a brief pause to allow for resupply Courtney Hodge's First Army prepared to punch through the ominous but largely outdated Westwall the Siegfried Line surrounding Aachen But during the lull German commanders such as the lion of defense Walter Model reorganized depleted units and mounted an increasingly potent defense Though the German Replacement Army funneled considerable numbers to the front they too often strained an overburdened supply system and didn't greatly enhance existing combat

formations More importantly the panzer divisions once thought irretrievably destroyed were resupplied and reinvigorated When the Allied offensive resumed it ran into a veritable brick wall gains measured in yards not miles if any were made at all While both sides suffered equally in an urbanized environment of pillbox infested hills impenetrable forests and freezing rain the Germans were on the defensive and better able to inflict casualties out of proportion to their own For the US First Army what was originally to be a walk through turned into a frustrating six month campaign that decimated infantry and tank forces alike The broad front as opposed to a Schwerpunkt strategy led to the demise of many a citizen soldier Drawing on primary Wehrmacht and US sources including battle analysis and daily situation and after action reports The Roer River Battles provides insight into the desperate German efforts to keep a conquering enemy at the borders of their homeland Tactical maps down to battalion level help clarify the very fluid nature of the combat Combined they serve to explain not just how but why decisions were made and events unfolded and how reality often differed from doctrine in one of the longest US campaigns of World War II
