**macOS High Sierra** Chris Kennedy, 2017-09-11 macOS High Sierra *Sierra Stories* Gary Noy, 2014-08-01 The author of Gold Rush Stories shares tales of the larger than life characters from the history of the legendary Sierra Nevada mountain range With its 14 000 foot granite mountains crystalline lakes conifer forests and hidden

valleys the Sierra Nevada has long been the domain of dreams attracting the heroic and the delusional the best of humanity and the worst Stories abound and characters emerge so outlandish and outrageous that they must be real Could the human imagination have invented someone like Eliza Gilbert Born in Limerick Ireland in 1818 she transformed herself into Lola Montez born in Seville Spain in 1823 and brought to the Gold Country the provocative Spider Dance impersonating a young woman repelling a legion of angry spiders under her petticoats Or Otto Esche who in 1860 imported fifteen two humped Bactrian camels from Asia to transport goods to the mines Or the artist Albert Bierstadt whose paintings Mark Twain characterized as having more the atmosphere of Kingdom Come than of California Or multimillionaire George Whittell Jr who was frequently spotted driving around Lake Tahoe in a luxurious convertible with his pet lion in the front seat These and scores more spill out of the pages of this well illustrated and lively tribute to the Sierra by a native son **I Want to**

**Change My Life** Barrie Gunter,2014-07-24 Competition talent shows have been among the most popular on television in the 21st century The producers of these shows claim to give ordinary people extraordinary opportunities to change their lives by showcasing a specific skill leading to a new career trajectory Most participants will claim that they entered to get a big break and to develop a career they have always dreamed of To what extent do these shows deliver on such promises Following through what happens to leading contestants in singing entertainment modelling cooking and business entrepreneur competitions this book shows that few go on to achieve lasting success in their chosen career Many return to obscurity or to their previous lives Some enjoy a low level career in the new direction delivered by the competition they entered Just a few become truly successful The pop and entertainment themed contests have discovered just a handful of major pop stars and entertainers out of many hundreds who have taken part after the initial auditions Turning to the cookery or business franchises there are few who go on to achieve lasting success in their chosen career In these it is equally likely that the winners go on to enjoy success with media careers rather than as chefs or entrepreneurs The most successful franchise of all is the fashion model competition Next Top Model which has yielded a high hit rate in terms of career success What the analysis here also reveals is that it isn't only the winners who ultimately benefit the most from their appearances in these shows Moreover television picks its own stars by recruiting contestants because they are telegenic or have a good backstory as much as for their relevant talents In this way a talent hungry medium has co-opted these franchises to replenish its own needs

**DISConnections** Michael Stasik,2012-10-19 This book offers an intriguing account of the complex and often contradictory relations between music and society in Freetown's past and present Blending anthropological thought with ethnographic and historical research it explores the conjunctures of music practices and social affiliations and the diverse patterns of social disconnections that music helps to shape to re-create and to defy in Sierra Leone's capital Freetown The first half of the book traces back the changing social relationships and the concurrent changes in the city's music life from the first days of the colony in the late 18th century up to the turbulent and thriving music scenes in the first decade of the

21st century Grounded in this comprehensive historiography of Freetown's socio musical palimpsest the second half of the book puts forth a detailed ethnography of social dynamics in the realms of music calibrating contemporary Freetown's social polyphony with its musical counterpart      **Sierra Leone, 1787-1987** Murray Last, Paul Richards, Christopher Fyfe, 1987
