Cosmopolitanism, Globality Gesine Müller, Mariano Siskind,2019-10-21 From today's vantage point it can be denied that the confidence in the abilities of globalism mobility and cosmopolitanism to illuminate cultural signification processes of our time has been severely shaken In the face of this crisis a key concept of this globalizing optimism as World Literature has been for the past twenty years necessarily in the need of a comprehensive revision World Literature Cosmopolitanism Globality Beyond Against Post Otherwise offers a wide range of contributions approaching the blind spots of the globally oriented Humanities for phenomena that in one way or another have gone beyond the discourses aesthetics and political positions of liberal cosmopolitanism and neoliberal globalization Departing basically but not exclusively from different examples of Latin American literatures and cultures in globalized contexts this volume provides innovative insights into critical readings of World Literature and its related conceptualizations A timely book that embraces highly innovative perspectives it will be a mustread for all scholars involved in the field of the global dimensions of literature

Routledge Companion to Literature and the Global South Alfred J. López, Ricardo Quintana-Vallejo,2023-10-20 The Routledge Companion Literature and the Global South offers a comprehensive overview of the field at a key moment in its development a snapshot of where Global South literary studies stands in its second decade As the aftermath of a string of global cataclysms since the rise of neoliberal globalization has demonstrated it is the poor the disenfranchised and the marginalized who consistently bear the brunt of the suffering What defines the Global South is the recognition across the world that globalization's promised bounties have not materialized It has failed as a global master narrative Global South studies centers on three general areas Globalization its aftermath failure and how those on the economic bottom survive it Organized into three parts this volume consists of original essays by 25 contributors from around the world Part I focuses on the origins and objects of Global South studies and how this field has come to define and historicize its organizing concept Part II considers subsequent critical developments in Global South studies particularly those that embrace interdisciplinary and transdisciplinary approaches Part III features case studies which highlight a range of applications and interventions The

contributors critique the boundaries and definitions explored in the earlier parts and push settled literatures or methods into new analytical spaces This innovative collection is an invaluable resource for anyone studying and researching Global South studies and literature but also those interested in world literature contemporary literature postcolonialism decolonizing the curriculum critical race studies gender studies and politics [Esperanza, pero no para nosotros. [The Savage Detectives Reread](#) David Kurnick, 2022-02-01 The Savage Detectives elicits mixed feelings An instant classic in the Spanish speaking world upon its 1998 publication a critical and commercial smash on its 2007 translation into English Roberto Bolaño's novel has also been called an exercise in 1970s nostalgia an escapist fantasy of a romanticized Latin America and a publicity event propped up by the myth of the bad boy artist David Kurnick argues that the controversies surrounding Bolaño's life and work have obscured his achievements and that The Savage Detectives is still underappreciated for the subtlety and vitality of its portrait of collective life Kurnick explores The Savage Detectives as an epic of social structure and its decomposition a novel that restlessly moves between the big configurations of states continents and generations and the everyday stuff parties jobs moods sex conversation of which they're made For Kurnick Bolaño's book is a necromantic invocation of life in history one that demands surrender as much as analysis Kurnick alternates literary critical arguments with explorations of the novel's microclimates and neighborhoods the little atmospheric zones where some of Bolaño's most interesting rethinking of sexuality politics and literature takes place He also claims that The Savage Detectives holds particular interest for US readers not because it panders to them but because it heralds the exhilarating prospect of a world

in which American culture has lost its presumptive centrality

Territorio, guerra, memoria e imaginario

Abilio, Vergara Figueroa,2023-08-10 Este libro expone las líneas epistemológicas y metodológicas de construcción del territorio confrontando desarrollos específicos de diálogo a espacio social y espacial prácticas nominaciones relatos memoria historias a las políticas de identidad integrando en el análisis la escalaridad desigual del sujeto desplazado y arraigado por la guerra que procesa memorias retroproyectivas en búsqueda de sentido como horizonte espacio temporal para reterritorializar en el posconflicto. Así se emplaza a la guerra como factor de territorialización violenta que fractura drásticamente las articulaciones territoriales y por ende las relaciones sociales territorializadas mediante diferentes mecanismos de contención que imponen los poderes en pugna como anular nodos y cruceros restringir o eliminar redes y flujos mediante esquemas y figuras del patrón territorial. El Partido tiene mil ojos y o dos como un control molecular del territorio y las retiradas por parte de Sendero Luminoso como una forma de bloquear violentamente el acceso del rival el Estado sus fuerzas armadas y policiales las instituciones a las masas campesinas e indígenas.

Caminos a la autoficción

Diana Diaconu,2022-01-18 Frente a los enfoques temáticos y de corte formal este ensayo trae a primera plana un aspecto crucial para una teoría de la autoficción latinoamericana. Se trata del significado estético y cultural del nuevo género narrativo en América Latina es decir de su dimensión histórica que permite entenderlo como una manera distinta de interpretar y evaluar la realidad contemporánea y la tradición literaria. Aquí se parte de la premisa según la cual la autoficción en sus expresiones genuinas es uno de los caminos centrales de renovación en el mapa a través de trazar de la narrativa latinoamericana contemporánea. Despues de un estudio dedicado a la obra de Fernando Vallejo en este se explora el camino que lleva al surgimiento de un nuevo y desconcertante género narrativo la autoficción con sus particularidades propias de la contemporaneidad latinoamericana. Razón por la cual urge rescatarla del gran saco donde cabe todo bajo la etiqueta de las escrituras del yo que resulta de manera arbitraria la producción narrativa contemporánea en primera persona y donde se pierde su particular y valioso mensaje. A través de la lectura paralela de tres libros de excepción como sin remedio de Antonio Caballero Los detectives alvajes de Roberto Bolaño y Respiración artificial de Ricardo Piglia se enfocan aspectos esenciales que conducen al género el pacto de lectura específico que propone el nuevo lector que crea la figura de autor que inventa y las estrategias narrativas que convierten en escritura este ambicioso y retador proyecto estético.

Discourse

,2010 Luis Arenas,2021-03-15 Ha pasado ya más de una década desde que la crisis de 2008 acabara de resquebrajar el mundo surgido tras la Segunda Guerra Mundial. Desde entonces los esfuerzos por clarificar este horizonte convulso y aparentemente ininteligible siguen dando escasos resultados. La desorientación se extiende en los ámbitos políticos y en los económicos ante las amenazas que impone un entorno

caracterizado por graves tensiones medioambientales por el desafío de la robotización e informatización y la inteligencia artificial por los flujos migratorios por el calentamiento global por la irrupción de la extrema derecha o por la creciente desigualdad e injusticia global. Todos los datos apuntan a un agotamiento sistémico cuyo sentido más evidente es el cansancio que parece mostrar el capitalismo desde hace más de una década. En este contexto resulta en extremo optimista dar por sentados logros culturales políticos y civilizatorios que se creían consolidados hasta hace poco por lo que vale la pena repensar de manera radical para las proximas décadas los supuestos económicos, ecológicos, geopolíticos, culturales y pedagógicos asumidos actualmente como telón de fondo de nuestras vidas. Porque incluso si como muchos sospechan estamos ante el amanecer de un sistema completamente distinto al que conocimos no hay garantías de que lo que finalmente acabe por triunfar se parezca más a nuestros sueños políticos que a nuestras pesadillas. Lo fascinante de la encrucijada a la que nos enfrentamos es que sabemos que el pasado quedó atrás para siempre y no volver pero aún no somos capaces de vislumbrar qué será lo que lo sustituya.
