Sigilla Regum Reges Sigillorum:

Seals and their Context in the Middle Ages Phillipp R. Schofield, 2015-01-08 *Seals and their Context in the Middle Ages* offers an extensive overview of approaches to and the potential of sigillography as well as introducing a wider readership to the range interest and artistry of medieval seals. Seals were used throughout medieval society in a wide range of contexts: royal, governmental, ecclesiastical, legal in trade and commerce and on an individual and personal level. The fourteen papers presented here, which originate from a conference held in Aberystwyth in April 2012, focus primarily on British material but there is also useful reference to continental Europe. The volume is divided into three sections looking at the history and use of seals as symbols and representations of power and prestige in a variety of institutional, dynastic and individual contexts; their role in law and legal practice and aspects of their manufacture, sources and artistic attributes. Importantly and distinctively the volume moves beyond the study of high status seals to consider such themes as the social and economic status of seal makers, the nature and meaning including reflections of deliberate wit and boastfulness of specific motifs employed at various levels of society and the distribution of seals in relation to the location of, for instance, religious institutions and along major routeways. In so doing it sets out ways in which sigillography can open new pathways into the study of non-elites and their cultures in medieval society.

Ruthenians (the Rus') in the Kingdom of Hungary (11th to mid- 14th Century) Myroslav Voloshchuk, 2021-08-24 This book presents a collective portrait of the inhabitants of the Carpathian and Angevin era Hungary identified by their countrymen as Rutheni. Many members of this group hailed from the lands of Halych, Chernihiv, Kyiv and Volhynia and migrated to Hungary under the pressure of circumstances, eventually carving out for themselves a position of prominence in the kingdom's social hierarchy and political affairs. Drawing on a range of sources, this is the first work to make extensive use of Latin language documents to throw light on the vicissitudes of the life of Rus settlers and those bearing Rus-related names or bynames in medieval Central Europe, revealing their important role in contemporary social and political life.

A Companion to Seals in the Middle Ages, 2019-02-11 *A Companion to Seals in the Middle Ages* is a cross-disciplinary collection of fourteen essays on medieval sigillography. It is organized thematically and it emphasizes important, often cutting-edge methodologies for the study of medieval seals and sealing cultures. As the chronological, temporal and geographic scope of the essays in the volume suggests, the study of the medieval seal, its manufacture, materiality, usage, iconography, inscription and preservation is a rich endeavour that demands collaboration across disciplines as well as between scholars working on material from different regions and periods. It is hoped that this collection will make the study of medieval seals more accessible and will stimulate students and scholars to employ and further develop these material and methodological approaches to seals. Contributors are Adrian Ailes, Elka Cwiertnia, Paul Dryburgh, Emir O. Filipovi, Oliver Harris, Philippa Hoskin, Ashley Jones, Andreas Lehnertz, John McEwan, Elizabeth A. New, Jonathan Shea, Caroline Simonet, Angelina A. Volkoff and Marek L. Wojcik.
