*Sigiriya*, 2022      **The Sigiriya Royal Gardens** Nilan Cooray, 2012-10-19 Besides the efforts that are of a descriptive and celebrative nature studies related to Sri Lanka's historical built heritage largely view material remains in historical sociological socio historical and semiological perspectives There is hardly any serious attempt to view such material remains from a technical analytical approach to understand the compositional aspects of their design The 5th century AC royal complex at Sigiriya is no exception in this regard The enormous wealth of information and the material remains unearthed during more than 100 years of field based research by several generations of archaeologists provide an ideal opportunity for such analysis The Sigiriya Royal Gardens fills the gap in research related to Sri Lanka's historical built heritage in general and to Sigiriya in particular Therefore the present research attempts to read Sigiriya as a landscape architectonic design to expose its architectonic composition and design instruments      *Art, Architecture, and the Moving Viewer, c. 300-1500 CE*, 2022-04-19 Premodern architecture and built environments were fluid spaces whose configurations and meanings were constantly adapting and changing The production of transitory meaning transpired whenever a body or object moved through these dynamic spaces Whether spanning the short duration of a procession or the centuries of a building's long duration a body or object in motion created in the moment narratives that unfolded through time and space The authors in this volume forge new approaches to architectural studies by focusing on the interaction between monuments artworks and their viewers at different points in space and time Contributors are Christopher A Born Elizabeth Carson Pastan Nicole Corrigan Gillian B Elliott Barbara Franz Anne Heath Philip Jacks Divya Kumar Dumas Brigitte Kurmann Schwarz Ashley J Laverock Susan Leibacher Ward Elodie Leschot Meghan Mattsson McGinnis Michael Sizer Kelly Thor and Laura J Whatley      **The Pleasure Gardens of Sigiriya** Osmund Bopearachchi, 2006      *Architectural Conservation in Asia* John H. Stubbs, Robert G. Thomson, 2016-11-10 The first comprehensive overview of architectural conservation in Asia Internationally renowned author John Stubbs follows up on the success of his previous volumes *Time Honored A Global View of Architectural Conservation* and *Architectural Conservation in Europe and the Americas* Architectural conservation is a rapidly expanding and under researched field in Asia and international experts are often brought in making the subject of considerable interest to international academics Boxes and case studies by local experts add depth and interest to the authors meticulous research A website with extra information and resources accompanies the series <http://conservebuiltworld.com>      **Encyclopedia of Sri Lanka** Charles A. Gunawardena, 2005 Over 1 100 alphabetically arranged entries examine the history geography people government economy art and religions of Sri Lanka      *Asian Heritage Management* Kapila Silva, Neel Kamal Chapagain, 2013-03-05 The prevalent global heritage discourse has been primarily Euro centric in its origin premise and praxis Diverse cultural historical and geographical contexts such as that of Asia call for more context specific approaches to heritage management This book explores this complexity of managing the cultural heritage in Asia Case studies include sites

of Angkor Himeji Castle Kathmandu Valley Luang Prabang Lumbini and Malacca and the book uses these to explore the religious worldviews heritage policies intangible heritage dimensions traditional preservation practices cultural tourism and the notion of cultural landscape that are crucial in understanding the cultural heritage in Asia It critiques the contemporary regulatory frameworks in operation and focuses on the issues of global impact on the local cultures in the region The book goes on to emphasize the need for integrated heritage management approaches that encompass the plurality of heritage conservation concerns in Asian countries Themes are discussed from the vantage point of heritage scholars and practitioners in the South Southeast and East Asia This book thus presents a distinctive Asian perspective which is a valuable source for students and practitioners of heritage within and beyond the Asian context

*A History of Sri Lanka* K M de Silva, 2005-08-25 Sri Lanka is an ancient civilization shaped and thrust into the modern globalizing world by its colonial experience With its own unique problems many of them historical legacies it is a nation trying to maintain a democratic pluralistic state structure while struggling to come to terms with separatist aspirations This is a complex story and there is perhaps no better person to present it in reasoned scholarly terms than K M de Silva Sri Lanka's most distinguished and prolific historian *A History of Sri Lanka* first published in 1981 has established itself as the standard work on the subject This fully revised edition in light of the most recent research brings the story right up to the early years of the twenty first century The book provides comprehensive coverage of all aspects of Sri Lanka's development from a classical Buddhist society and irrigation economy to its emergence as a tropical colony producing some of the world's most important cash crops such as cinnamon tea rubber and coconut and finally as an Asian democracy It is a study of the political vicissitudes of Sri Lanka's ancient civilization and the successive phases of Portuguese Dutch and British colonial rule The unfortunate consequences of becoming a centre of ethnic tension and Sri Lanka's long standing relationship with India are also discussed Exhaustively researched and analytical this book is an invaluable reference source for students of ancient colonial and post colonial societies ethnic conflict and democratic transitions as well as for all those who simply want to get a feel of the rich and varied texture of Sri Lanka's long history
