Gilman, 1994 Specialists from a wide range of areas from the history of medicine to literary scholarship to the history of classical scholarship spent two months working on questions raised by Freud's reading and his library at the Freud Museum in London Such internationally renowned scholars as Harold P Blum Ned Lukacher Phillip McCaffrey Robin N Mitchell Boyask Michael Molnar Ursula Reidel Schrewe Ritchie Robertson and Peter L Rudnytsky gather here to apply a wide range of critical approaches from depth psychoanalysis to cultural analysis Together they present a detailed look at the implications of how and what Freud read including the major sources he used for his work      *Cassandra's Daughter* Joseph Schwartz, 2018-05-08 This work presents a complete history of psychoanalysis from its origins in 19th century medical science to the end of the 20th century The origins of psychoanalysis as well as the more immediate influences on Freud are explored as is the way the discipline he founded has developed and changed Joseph Schwartz first lays out the late Victorian approaches to mental illness and health and explains the context in which Freud's revolution took place He traces the evolution of Freud's own thought then shows how and why the rifts and shifts in the analytic community occurred He then focuses on Freud's colleagues rivals successors and detractors Jung Adler Sullivan Melanie Klein Erich Fromm to name a few For once we see how the different schools and interpretations fit together how they grew in response to each other and what separate contributions each pioneer made over the last hundred years to create an effective understanding of the world of human subjective experience      **Freud's Italian Journey** Laurence Simmons, 2006 Rather the processes of interpretation begun by Freud are turned on Freud himself thus eventually displacing and questioning his theoretical mastery      Freud, Proust and Lacan Malcolm Bowie, 1987 The views of Freud Proust and Lacan are depicted through this staging of a series of provocative dialogues between psychological science and imaginative

literature of the twentieth century     *A Cultural Citizen of the World* Siegbert Salomon Prawer, 2009 Based on an intensive study of the original German text of Freud's writings, letters and journals, S. S. Prawer's new book is the first to make a full and systematic map of Freud's use of English literature. The great psychoanalyst has long been acclaimed as a polymath, as a practical doctor who was also a theoretician, as a writer of non-fiction which was also a counterpoint to the great novels of the early twentieth century, and as an essayist who like Montaigne absorbed all of the cultural world around him. Freud was fascinated by writings from many nations and languages, and his use of English shows the great range of his reading, from Shakespeare to Bernard Shaw, Henry Fielding to George Eliot, Mark Twain to Thornton Wilder, from scientific works by Maxwell and Darwin to the economics of Adam Smith, Malthus and Keynes, and from psychology and anthropology to the origins of religion. Though Freud's genius was unique, his sense of being a citizen of a world far wider than Vienna was not, and it can tell us much about the exchange of ideas across national and linguistic frontiers. Though he was a reader par excellence, he was also a case study in how world literature can be used by men and women who are not professional literary scholars or critics, and of how much it can come to mean to them and for their sense of who they are.     **Discovering**

**Françoise Dolto** Kathleen Saint-Onge, 2019-05-22 This psychobiographical study of the renowned French pediatrician and psychoanalyst Françoise Dolto introduces both her theories of child development and her unique insights into language and identity. A friend of Jacques Lacan's, Dolto believed that we are all humanized through language and that the words we use carry unconscious traces of our early histories of love, suffering, and desire. Suggesting that infants unconsciously symbolize and that a continuous circulation of unconscious affects the transference, she prevails in all language-based relations. Her findings challenge assumptions about autism, autobiography, linguistics, literacy, pedagogy, and therapy. Dolto's own corpus, a rich archive blending the personal and professional, demonstrates this with echoes between Dolto's constructs about the child and her own challenging childhood. This fascinating book will not only introduce the work of Françoise Dolto to many readers but will be a valuable resource for all psychoanalytic researchers and theorists interested in childhood language and identity.

Jokes and Their Relations Elliott Oring, 1992-01-01 Elliott Oring offers a fresh perspective on jokes and related forms of humor. Criticizing and modifying traditional concepts and methods of analysis, he delineates an approach that can explain the peculiarities of a wide variety of humorous expression. Written in an accessible and engaging style, this book will appeal to scholar and layman alike to anyone who has ever wondered how jokes work and what they mean.     *The Lives of Lucian*
