Gebser's major work *Ursprung und Gegenwart* Stuttgart Deutsche Verlag 1966 offers certain fundamental insights which should be beneficial to any sensitive scientist and makes it available to the English speaking world for the recognition it deserves. The path which led Gebser to his new and universal perception of the world is briefly as follows. In the wake of materialism and social change man had been described in the early years of our century as the dead end of nature. Freud had redefined culture as illness, a result of drive sublimation. Klages had called the spirit and he was surely speaking of the hypertrophied intellect, the adversary of the soul propounding a return to a life like that of the Pelasgi, the aboriginal inhabitants of Greece, and Spengler had declared the Demise of the West during the years following World War I. The consequences of such pessimism continued to proliferate long after its foundations had been superseded. It was with these foundations, the natural sciences, that Gebser began. As early as Planck it was known that matter was not at all what materialists had believed it to be, and since 1943 Gebser has repeatedly emphasized that the so-called crisis of Western culture was in fact an essential restructuration. Gebser has noted two results that are of particular significance: first, the abandonment of materialistic determinism of a one-sided mechanistic causal mode of thought; and second, a manifest urgency of attempts to discover a universal way of observing things and to overcome the inner division of contemporary man who, as a result of his one-sided rational orientation, thinks only in dualisms. Against this background of recent discoveries and conclusions in the natural sciences, Gebser discerned the outlines of a potential human universality. He also sensed the necessity to go beyond the confines of this first treatise so as to include the humanities such as political economics and sociology as well as the arts in a discussion along similar lines. This was the point of departure of *The Ever Present Origin*.
