Major Lyrics Of The Northern Sung Ad 960 1126:

Major Lyricists of the Northern Sung James J.Y. Liu, 2015-03-08 The *tz u* or lyric reached its full maturity in China during the eleventh century and the first quarter of the twelfth. Until now this important poetic genre has been little known to English readers and James J Y Liu's book is the first to deal systematically and critically with it. He does so by examining the work of six representative poets of the period. The poems are analyzed in terms of their exploration of worlds by which the author means the poet's probing of the natural world and the human world in which he lives as well as of his own mind. This leads into a discussion of the poet's exploration of language, his incessant effort to embody the worlds he explores in complex verbal structures and to realize the potentialities of the Chinese language as a medium of poetic expression. Preceding the general discussion of each lyricist's poetry are examples of the work of each in four forms: first in the original Chinese text, then in a romanization, next in a word-for-word translation, and finally in an idiomatic translation. Each poem is accompanied by a metrical diagram, explanatory notes, and a critical commentary. Attention is focused on poetic qualities and features such as diction, imagery, syntax, and prosody. A Cultural History of the Chinese Language Sharron Gu, 2011-12-22 Chinese, one of the oldest active languages, evolved over 5,000 years. As such, it makes for a fascinating case study in the development of language. This cultural history of Chinese demonstrates that the language grew and responded to its music and visual expression in a manner very similar to contemporary English and other Western languages. Within Chinese cultural history lie the answers to numerous questions that have haunted scholars for decades: How does language relate to worldview? What would happen to a language after it loses absolute binding power? How do music, visual, and theatrical images influence literature? By presenting Chinese not as a system of signs but as the history of a community, this study shows how language has expanded the scope of Chinese imagination and offers a glimpse into the future of younger languages throughout the world.

Washing Silk Robin D.S. Yates, 2020-10-26 Wei Chuang was a prolific Tang dynasty poet. He not only wrote in the *shih* form, poems in the old and new styles, the latter having strict rules of meter, rhyme, and euphony, but also was one of two *literati* founders of the *tz u* lyric tradition based on a popular song form. This tripartite study provides a thoroughgoing picture of his life and work. The book begins with the first detailed biography of Wei Chuang in a Western language, drawn both from historical sources and Wei's poetry. The *shih* poems are intensely autobiographical and provide insight into Wei's own experience and into the situation in China at the end of the ninth century. A second section analyzes the poetry, demonstrating that Wei's *tz u* cannot be understood without reference to

his shih compositions a new approach to the totality of Wei's work. Finally this volume presents translations briefly annotated of 110 shih poems including his major narrative poem *The Lament of the Lady of Chin* and almost all the *tz'u* attributed to him constituting more than a third of Wei Chuang's extant poetry. The translations while hewing close in meaning to their Chinese originals have considerable value as poems in English. This work offers information that is useful to those interested in the literature history and general culture of medieval China. The translations bring to modern readers of English poetry the pleasures of becoming acquainted with a complex and innovative voice from the Chinese past.

The Problem of Beauty Mark Halperin, 2020-03-23 The intense piety of late Tang essays on Buddhism by literati has helped earn the Tang its title of the golden age of Chinese Buddhism. In contrast the Sung is often seen as an age in which the literati distanced themselves from Buddhism. This study of Sung devotional texts shows however that many literati participated in intra-Buddhist debates. Others were drawn to Buddhism because of its power which found expression and reinforcement in its ties with the state. For some monasteries were extravagant houses of worship that reflected the corruption of the age; for others the sacrifice and industry demanded by such projects were exemplars worthy of emulation. Finally Buddhist temples could evoke highly personal feelings of filial piety and nostalgia. This book demonstrates that representations of Buddhism by lay people underwent a

major change during the T ang Sung transition These changes built on basic transformations within the Buddhist and classicist traditions and sometimes resulted in the use of Buddhism and Buddhist temples as frames of reference to evaluate aspects of lay society Buddhism far from being pushed to the margins of Chinese culture became even more a part of everyday elite Chinese life *Chinese Culture* ,1989 **Wang Kuo-wei** Joey Bonner,1986 In this biography of brilliant Chinese scholar Wang Kuo wei Bonner throws light on the range and course of ideas in early 20th century China She critically examines Wang s essays on German philosophy and aesthetics his poetry literary criticism and aesthetic theory and his works on ancient Chinese history particularly of the Shang dynasty *Journal of Sung-Yuan Studies* ,1992 **Chinese Poetry, 2nd Ed., Revised** Wai-lim Yip,1997-04-21 An anthology of Chinese poetry featuring 150 selections drawn from throughout two thousand years each presented in original Chinese characters coordinated with word for word annotations and followed by an English translation *The Ci Lyrics of Yuan Haowen* Christopher James Laughrun,1998 *Books Abroad* ,1975 **Gendered Persona and Poetic Voice** Maija Bell Samei,1999 **Notable Books on Chinese Studies** Chuan-hua Lowe,1978 **Lyric Poets of the Southern T'ang** Daniel Bryant,2011-11-01 This book is the first in Western literature to focus on the poetry of Li Yu and Feng Yen ssu It contains nearly one hundred translations of Chinese poems written during the brief and turbulent Southern T ang Dynasty 907 960 A D Bryant describes and evaluates the major contribution of Li Yu and Feng Yen ssu to the evolution of the poetry form known as tz u a form which reflects the highly developed cultural milieu of the period **Quarterly Check-list of Oriental Studies** ,1974 中国文学——中国文学研究 1,2009-11-01 See summary in Chinese *Ethnic and Cultural Identity in Music and Song Lyrics* Victor Kennedy,2017-06-20 *Ethnic and Cultural Identity in Music and Song Lyrics* looks at a variety of popular and folk music from around the world with examples of British Slovene Chinese and American songs poems and musicals Charles Taylor says that it is through story that we find or devise ways of living bearably in time one can make the same claim for music Inexorably tied to time to the measure of the beat but freed from time by the polysemous potential of the words song rapidly becomes our song helping to cement memory and community to make the past comprehensible and the present bearable The authors of the fifteen chapters in this volume demonstrate how lyrics set to music can reflect express and construct collective identities both traditional and contemporary *Celebration of Continuity* Peter H.
