**Rachel Carson and Her Sisters** Robert K Musil,2014-04-01 In Rachel Carson and Her Sisters Robert K Musil redefines the achievements and legacy of environmental pioneer and scientist Rachel Carson linking her work to a wide network of American women activists and writers and introducing her to a new contemporary audience Rachel Carson was the first American to combine two longstanding but separate strands of American environmentalism the love of nature and a concern for human health Widely known for her 1962 best seller Silent Spring Carson is today often perceived as a solitary great woman whose work single handedly launched a modern environmental movement But as Musil demonstrates Carson s life s work drew upon and was supported by already existing movements many led by women in conservation and public health On the fiftieth anniversary of her death this book helps underscore Carson s enduring environmental legacy and brings to life the achievements of women writers and advocates such as Ellen Swallow Richards Dr Alice Hamilton Terry Tempest Williams Sandra Steingraber Devra Davis and Theo Colborn all of whom overcame obstacles to build and lead the modern American environmental movement

After the Death of Nature Kenneth Worthy,Elizabeth Allison,Whitney Bauman,2018-11-09 Carolyn Merchant s foundational 1980 book The Death of Nature Women Ecology and the Scientific Revolution established her as a pioneering researcher of human nature relations Her subsequent groundbreaking writing in a dozen books and over one hundred peer reviewed articles have only fortified her position as one of the most influential scholars of the environment This book examines and builds upon her decades long legacy of innovative environmental thought and her critical responses to modern mechanistic and patriarchal conceptions of nature and women as well as her systematic taxonomies of environmental thought and action Seventeen scholars and activists assess praise criticize and extend Merchant s work to arrive at a better and more complete understanding of the human place in nature today and the potential for healthier and more just relations with nature and among people in the future Their contributions offer personal observations of Merchant s influence on the teaching research and careers of other environmentalists

**Natural Disasters, Cultural Responses** Christof Mauch,Christian Pfister,2009-03-16 Catastrophes it seems are becoming more frequent in the twenty first century According to UN statistics every year approximately two hundred million people are directly affected by natural

disasters\_seven times the number of people who are affected by war Discussions about global warming and fatal disasters such as Katrina and the Tsunami of 2004 have heightened our awareness of natural disasters and of their impact on both local and global communities Hollywood has also produced numerous disaster movies in recent years some of which have become blockbusters This volume demonstrates that natural catastrophes\_earthquakes hurricanes floods etc \_have exercised a vast impact on humans throughout history and in almost every part of the world It argues that human attitudes toward catastrophes have changed over time Surprisingly this has not necessarily led to a reduction of exposure or risk The organization of the book resembles a journey around the globe\_from Europe to North Africa the Middle East and Asia and from the Pacific through South America and Mexico to the United States While natural disasters appear everywhere on the globe different cultures societies and nations have adopted specific styles for coping with disaster Indeed how humans deal with catastrophes depends largely on social and cultural patterns values religious belief systems political institutions and economic structures The roles that catastrophes play in society and the meanings they are given vary from one region to the next they differ\_and this is one of the principal arguments of this book\_from one cultural political and geographic space to the next The essays collected here help us to understand not only how people in different times throughout history have learned to cope with disaster but also how humans in different parts of the world have developed specific cultural social and technological strategies for doing so

**Major Problems in American Women's History** Mary Beth Norton,Ruth M. Alexander,2003 This text appropriate for courses in U S women s history presents a carefully selected group of readings that allow students to evaluate primary sources test the interpretations of distinguished historians and draw their own conclusions Designed to encourage critical thinking about history the Major Problems in American History series introduces students to both primary sources and analytical essays

**Theodore Roosevelt** Kathleen Dalton,2007-12-18 He inherited a sense of entitlement and obligation from his family yet eventually came to see his own class as suspect He was famously militaristic yet brokered peace between Russia and Japan He started out an archconservative yet came to champion progressive causes These contradictions are not evidence of vacillating weakness instead they were the product of a restless mind bent on a continuous quest for self improvement In Theodore Roosevelt historian Kathleen Dalton reveals a man with a personal and intellectual depth rarely seen in our public figures She shows how Roosevelt s struggle to overcome his frailties as a child helped to build his character and offers new insights into his family life uncovering the important role that Roosevelt s second wife Edith Carow played in the development of his political career She also shows how TR flirted with progressive reform and then finally committed himself to deep reform in the Bull Moose campaign of 1912 Incorporating the latest scholarship into a vigorous narrative Dalton reinterprets both the man and his times to create an illuminating portrait that will change the way we see this great man and the Progressive Era

**Creation, God, and Humanity** Catherine Wright,2017 Examines the history and development of ecological theological anthropology and how it engages human

suffering so that people of faith can better understand the suffering inherent to earth's creative processes and that inflicted by human sin
