## **Make Your Own Space Story:**

*Creating Your Own Space* María Davis, 2021-03-04 The relationship between women and houses has always been complex Many influential writers have used the space of the house to portray women s conflicts with the society of their time On the one hand houses can represent a place of physical psychological and moral restrictions and on the other they often serve as a metaphor for economic freedom and social acceptance This usage is particularly pronounced in works written in the nineteenth and twentieth century when restrictions on women s roles were changing anxieties about space sometimes seem to dominate the literature of both nineteenth century women and their twentieth century descendants The Metaphor of the House in Feminist Literature uses a feminist literary criticism approach in order to examine the use of the house as metaphor in nineteenth and twentieth century literature

**StoryFrames** Cynthia Pelman, 2023-12-07 StoryFrames supporting silent children in the classroom How does a teacher support a child who has recently arrived at school speaking another language and who remains completely silent at school for weeks or months not participating in class and not even playing with other children The child s parents often report that the child speaks and plays normally at home with their family and with other children who speak the child s language These children undergoing the Silent Period are usually children who have relocated from another country either voluntarily or as refugees or migrants For a variety of reasons these children do not have the resilience needed to cope with the many changes and anxieties they have experienced The losses for these children are more than the loss of familiar faces places and conversations the loss of their home language is experienced as a loss of the self they had known before the relocation The psychoanalytic theories of Colette Granger provide a way to understand the experiences of these migrant children The StoryFrames book sets out an easy to follow low cost method of supporting these children enabling them to emerge from their silence and to play with other children The book is written by a speech and language therapist but any teacher social worker or volunteer who is experienced in working with young children can run this programme The methodology of this programme is grounded in the developmental theories of Winnicott and Vygotsky and as such it stresses the nature and quality of the teacher child relationship which is at the core of this kind of work The book explores the feelings not only of the child in this situation but also of the teacher working with such a child such a teacher must deal with their own anxieties about what the child is experiencing and about whether they as the teacher who is expected to solve these problems could be doing something different The StoryFrames method is not only for second language learners It has been successfully used with children who have a wide range of communication disabilities Children with Developmental Language Disorder children who stutter children with intellectual disabilities and Highly Sensitive Children have all benefited from the use of this programme which uses narrative and pretend play to help the child to develop linguistic and cognitive skills as well as to have the confidence needed to communicate with others in spite of the difficulties This book is an invaluable source of information for anyone wanting to understand the nature of the teacher or

speech therapist's relationship with children with communication difficulties and should be essential reading for trainee speech and language therapists as well as for teachers training in early years education **Math Therapy™** Vanessa Vakharia, 2024-08-08 Anything is possible even building a better relationship with math This is much more than a book about math This is a book about hope Imagine failing 11th grade math twice and going on to be known affectionately as The Lady Gaga of Math That is the story of author Vanessa The Math Guru Vakharia Thanks to an inspiring teacher who helped Vanessa heal her own relationship with math Vanessa was then able to see math in a way that literally changed the trajectory of her life Most people have experienced math trauma at least once but by early mid elementary school many students have gotten the message that either they are a math person or they are not In Math Therapy™ Vanessa shows that with the right tools and strategies teachers can foster a culture in which every student is capable of building a better relationship with math and with themselves Through the five M's of Math Therapy™ Mythbust Moderate Motivate Makeover and Measure teachers can help their students overcome math trauma cultivate a positive math identity and develop a mathematical mindset Written in a fun and conversational style and grounded in research on math education and neuropsychology this book Provides practical hands on strategies and tools that make it easy and fun for teachers to implement each step of Math Therapy™ in their classroom Helps teachers unpack their own math history before diving in to what they can do to help their students Addresses the trauma induced stumbling blocks that many students face when tackling mathematics Includes humorous and engaging real life vignettes from celebrating Pi Day by visiting a prison to setting off a confetti cannon to celebrate a student's milestone to the time Vanessa's band opened for Bon Jovi and more Much more than a book about helping students kick butt in math class this book is about empowering students to develop the skills they need to live a life in which they truly believe that anything is possible even a better relationship with math **Home** Stafford Cliff, 2007-01-01 A compilation of personal anecdotes reflections and photographs captures the private spaces of fifty celebrities and other public figures with a rich array of design ideas and innovative philosophies from Donatella Versace Michael Graves Miranda Richardson Tommy Hilfiger Jonathan Adler Donna Hay Sebastian Coe and others **Activities for a Differentiated Classroom: Level 1** Wendy Conklin, 2011-02-01 Easily implement grade appropriate lessons suitable for Grade 1 classrooms Based on current research these easy to use lessons are based on a variety of strategies to differentiate your instruction Activities are included to allow access to all learners ZIP file contains interactive whiteboard compatible resources including sample projects templates and assessment rubrics This resource is correlated to the Common Core State Standards and is aligned to the interdisciplinary themes from the Partnership for 21st Century Skills **Exploring Maths through Stories and Rhymes** Janet Rees, 2019-05-09 This practical book is packed with tried and tested activities which draw on popular stories and rhymes and use everyday materials and objects to help young children develop their understanding and enjoyment of mathematical concepts By relating ideas of number shape size and pattern to everyday contexts stories and

experiences Exploring Maths through Stories and Rhymes improves confidence increases understanding and develops children s desire to engage with maths Offering a range of creative and exciting activities to encourage hands on learning and discussion chapters include a range of step by step activities which are easily adapted to varying needs ages and abilities use popular stories and nursery rhymes as a way of engaging children with mathematical thinking show how inexpensive everyday materials can be used to encourage learning include full colour photographs photocopyable materials vocabulary lists and key questions to help the reader get the most out of the ideas described This practical text will be a go to resource for early years practitioners and students looking to adopt a creative approach to early years mathematics *Transforming Your Library into a Learning Playground* Brittany R. Jacobs, 2017-12-01 Public libraries must offer relevant exciting and stimulating learning centers that appeal to kids This book is a step by step guide for creating affordable and effective educational programs for children and youth by focusing on one simple concept play With the standards of education rising every year and current technology making all types of information widely available to anyone with an Internet connection libraries need to stay relevant by constantly evolving One important way to strengthen a public library s identity as an irreplaceable resource is to make it an exciting and stimulating learning center that appeals to children and youth This book demonstrates how to transform the informal setting of a public library into a place where play in the guise of game based learning becomes a natural and exciting process for children and young students It also shows readers how to incorporate existing programs such as the makerspace storytime and book clubs to play to their strengths more effectively utilize the tools and resources they have and transform their libraries The first two chapters explain why learning through play and exploration isn t only for early childhood development identifies the key differences between free play and structured play and addresses why libraries are the perfect setting for learning Next the author draws on her experience in children s librarianship and as a children s book author to describe methods to listen to and understand children manage organized chaos and gain the children s trust Additional chapters explain how to write weekly or daily lesson plans how to brainstorm supporting activities to reinforce concepts being taught and how to infuse STEM and literacy objectives into daily lessons The book closes with suggestions on marketing and promotion ways to support the classroom and strategies that will keep em coming back and build an enthusiastic customer base Sacred Space The Irish Jesuits, 2018-09-17 Prayer is the raising of our hearts and minds to God It is a holy and sacred experience open to everyone We do not need to be experts in prayer to enjoy the opportunity to grow in prayerful awareness of our friendship with God Sacred Space The Prayer Book can lead us into a life of prayer and in doing so inspire new expressions and depths of faith The Scripture prayers and reflections in Sacred Space The Prayer Book will inspire you to a richer daily spiritual experience throughout the liturgical year and invite you to develop a closer relationship with God Each day of Sacred Space The Prayer Book includes a Scripture reading and points of reflection as well as a weekly topic enhanced by six steps of prayer and contemplation The Presence of God

Freedom Consciousness The Word Conversation and Conclusion Sacred Space The Prayer Book is designed to help you stay faithful to your intention to deepen your spiritual journey It is the perfect gift for your parish campus ministry program small group friend family member or yourself      Blood on the Page Lizzy Attree,2010-03-08 The fourteen interviews in this book form an unprecedented wealth of material on authors responses to HIV AIDS in South Africa and Zimbabwe They comprise a valuable archive which documents and contextualises the variety of views and opinions of different authors on their often ground breaking choices in writing about HIV AIDS Each author ranks among the first to publish fiction on HIV AIDS in their respective countries These interviews are of particular merit as these issues have not been discussed at length with any of the authors before Collectively they offer a unique range of approaches and opinions in response to the HIV AIDS pandemic in southern Africa Their significance lies in their specific literary as well as their broader social cultural and political perspectives on a disease which continues to spread despite extensive NGO medical and government intervention In both South Africa and Zimbabwe government responses have failed to address the urgent need for new political and economic solutions to the challenge of HIV infection Responses among the population have varied from widespread silence shame and fear to political activism and outspoken critiques of government inaction Writers give voice to this silence and contextualise the disparate reactions amongst diverse peoples Globally AIDS killed approximately 2 million in 2008 In 1998 AIDS was the largest killer in southern Africa nearly double the one million deaths from malaria and eight times the 209 000 deaths from tuberculosis It has long been the case that of those dying globally of AIDS the majority live in southern Africa When the associated social and cultural implications of infection with HIV are considered fictional representations contribute significantly to our understanding of the impact of HIV AIDS on communities and individuals and provide a much needed basis for humanising an epidemic which is unimaginable statistically It has been said that the feelings and reactions that HIV AIDS inspires are often too unreal for words and it is this very notion that certain diseases are taboo unmentionable and hardly even named as such that makes verbalisation of this epidemic a modern imperative      *Bold Moves* Pippa

Hallas,2019-03-19 Have you ever wanted to be a bigger braver version of yourself Can you imagine how that would expand your perspective on your career your relationships and your life Now is the time to be bold In *Bold Moves* Pippa Hallas shares the inspiring story of her great aunt Ella Bach who fled war torn Europe to start one of the world s best loved skin care companies Through conversations with other remarkable Australian women including Lorna Jane Clarkson Tracy Spicer and many more Pippa shares the moments when these women stood up spoke out and fearlessly redefined their futures As women and beauty trends have evolved over the decades Ella Bach has kept pace while holding true to the core values of the company Pippa opens up about the journey behind the brand the disruptions the innovations the mistakes and the risks that have made it what it is today Featuring personal advice as well as her own journey as CEO and as the mother of two young boys this book will show you how to embrace your personal story fortify your voice design the life you want to live love your

own skin build your personal legacy In a world of constant change ground breaking technology unprecedented transparency and unrivalled expectation it is harder than ever to live a life of truth and passion Bold Moves will give you everything you need to stand up and be bold in every part of your life Drawing the Line Erich Hatala Matthes,2022 Do the moral lives of artists affect the aesthetic quality of their work Is it morally permissible for us to engage with or enjoy that work Should immoral artists and their work be canceled Matthes employs the tools of philosophy to offer insight and clarity to these ethical questions He argues that it doesn't matter whether we can separate the art from the artist because we shouldn't

**Persona Magnified** Karan Sondhi,2007 **Traveling Through Time and Space** Mari Bolte,2023-08-01 Blast forward at warp speed or loop back to change the past Beware though the butterfly effect is a real risk Although they seem like scene stealing sci fi stories they are based in actual ideas and thought out theories How close are we to flying through space or going back in time Could we really change history or affect the future Would there be downsides The ethics of changing things should be explored and every possible thread would need to be tied up Could we even time travel responsibly or would things just unravel If only we could look into the future to be sure **Signs of Manipulation** Gabriel Barnes,2025-03-21 Are you aware of the subtle ways your decisions are being influenced Signs of Manipulation is your comprehensive guide to understanding and counteracting manipulative tactics in everyday life This book delves into the psychology of manipulation offering practical strategies to recognize and respond to these subtle yet pervasive influences We explore two central concepts identifying manipulative behaviors and developing effective responses Recognizing manipulation is crucial because it allows you to maintain autonomy over your choices and actions Without this awareness you risk being exploited personally and professionally Developing effective responses is equally vital knowledge without action is insufficient This book equips you with the tools to assert yourself respectfully while safeguarding your interests From a historical perspective manipulation has existed throughout human history evolving in sophistication alongside advancements in communication and psychology Socially understanding manipulation is increasingly relevant in a world saturated with persuasive messaging and complex interpersonal dynamics Scientifically the book draws on established psychological principles including cognitive biases emotional triggers and social influence techniques The central argument of Signs of Manipulation is that manipulation is a learned behavior and therefore can be understood anticipated and effectively countered This argument is significant because it empowers individuals to reclaim control in situations where they might otherwise feel helpless The book is structured to provide a progressive understanding of manipulation First we introduce fundamental concepts defining manipulation and distinguishing it from persuasion and healthy influence Second the book develops these ideas across key areas identifying common manipulation tactics such as guilt tripping gaslighting and emotional blackmail understanding the motivations behind manipulative behavior and assessing your own vulnerabilities to manipulation Third the argument culminates in a practical guide to responding effectively outlining specific strategies like setting boundaries assertive communication and

developing a support system Finally we examine real world applications across various contexts including relationships workplace dynamics and online interactions The book presents evidence drawn from diverse sources including case studies psychological research and sociological analyses Personal anecdotes while present serve primarily to illustrate concepts rather than serve as primary evidence Signs of Manipulation connects to several fields including social psychology communication studies and conflict resolution Integrating these perspectives enhances the book s argument by providing a holistic understanding of manipulation This book stands out because it combines theoretical understanding with practical application Instead of simply describing manipulative tactics it provides a step by step approach to recognizing and responding to them tailored to different contexts The tone is informative and accessible avoiding overly academic jargon The writing style engages the reader with clear explanations practical examples and actionable advice The target audience includes anyone who wants to improve their understanding of interpersonal dynamics and protect themselves from manipulative influences This book is valuable for individuals in personal relationships professional settings or anyone seeking to enhance their self awareness and assertiveness As a self help book with psychological backing Signs of Manipulation balances scientific credibility with practical guidance respecting genre conventions while maintaining a rigorous approach The book s scope is broad covering a wide range of manipulative tactics and contexts However it deliberately limits its focus to non coercive manipulation excluding forms of abuse that involve physical or direct emotional harm The information presented in Signs of Manipulation can be applied in numerous real world scenarios Readers can use the techniques outlined in the book to improve their communication skills set healthy boundaries and navigate challenging relationships more effectively The book addresses the common debate about the ethics of influence acknowledging that not all persuasive techniques are manipulative It highlights the importance of distinguishing between genuine connection and attempts to control

**Counter-narratives of Muslim American Women: Creating Space for MusCrit** Noor Ali, 2022-03-21 What does it mean to be a young Muslim American woman in the US educational system This book answers this question by presenting the counter narratives of 15 young women These accounts debunk prevalent stereotypes and biases and reveal an educational climate marked by Islamophobia Through these overall educational experiences readers are able to explore the role of family faith based education the mosque and community in these women s lives The social and academic learning opportunities showcase instances of both inclusion and marginalization which lead students to experience a double consciousness What this study ultimately shows is that these

students experience the dichotomous pull of religious and cultural values as they navigate their intersectional identities
