Make Yr Gardn New:

Design Your Own Butterfly Garden Susan Sales Harkins, William H. Harkins, 2009-09 Color adds an irresistible dimension to any yard Put a pair of wings on that color and suddenly your yard is alive with life Butterflies live all over the country so you re likely to see them no matter where you live To attract butterflies to your backyard you need to provide the things they like nectar water sun and shelter For most of us this is as easy as planting some wildflower seeds in a sunny spot In just a few months the tiny seeds have grown into huge beautiful flowers that butterflies just can t resist A butterfly log house for shelter is also easy to build Everyone wins you enjoy the butterflies and the butterflies get a satisfying home

Design Your Natural Midwest Garden Patricia Hill, 2007 Gardening with native species by award winning designer shows you how to combine varieties that are perfect for the soils and climates of the upper Midwest *How to Create Your Garden* Adam Frost, 2020-02-04 Creating a garden doesn t need to be complicated This is the promise from Adam Frost BBC Gardeners World presenter and winner of multiple Chelsea Flower Show gold medals Regardless of your experience or budget with Adam s help and know how you can design your dream garden whether it s a small urban garden a classic cottage garden a suburban front garden a low maintenance space or a city roof terrace His practical no nonsense approach strips away complex garden design concepts and focuses on your needs and preferred garden style to help you plan and build a garden that works for you Starting right at the beginning Adam takes you step by step through the whole process inspiring you with simple garden design ideas to tackle a full garden makeover or a simple revamp of just one part of your garden perhaps a tired herbaceous border a neglected vegetable patch the patio or a water feature Learn how to design a garden that reflects your practical needs lifestyle budget personality soil and climate Build it yourself following the clear uncomplicated easy to understand instructions that show you everything from laying turf to terraces planting trees or building a raised bed or water feature Enjoy gardening month by month with Adam s simple checklist of what to do when to keep your garden in shape at every point throughout the year *How to Create Your Garden* is about designing an outside space that is real achievable and right for you

Climate Change: You, And Your Garden Andrew M Molloy, *Climate Change You and your Garden* Climate change has become such a common word these days that we can fall into the trap of misunderstanding its importance as gardeners and in our lives in general This general guide will help show you how your garden can help with climate change How you can add features and plants that will contribute to a user friendlier garden and how to create a more bio diverse garden to help the decline in plant insect and mammal species This book also contains some general information on climate change and how it is affecting You and Your garden The world we all share is changing and we do as gardeners need to adapt and change with the climate we all now face Your garden is yours to do as you wish so why not help the planet and also create a place for your local wildlife *Climate Crisis: You & Your Garden* Andrew M Molloy, 2022-12-26 There are many issues and obstacles we face today We know we all need to start somewhere and that

somewhere could be right outside your front or back door Our need to change is now not tomorrow There is not a single environment on the entire Earth that is not now contaminated by human activity This will continue until our biosphere can take no more Then we all lose We lose a diamond that may never exist again in any other solar system amongst billions We are still abusing fossil fuels and the simple truth is if we continue to pump greenhouse gases into our atmosphere if we deforest anymore land continue to build and extract anymore minerals from the Earth we will cook this planet to the point no life can exist Our very survival depends on our ability to change the way we live and that day is here right now So much wildlife is being lost across the globe and nearly all that loss can be attributed to human activity Your local wildlife should be important to you and you should want to help because that unseen life those plants and creatures have all contributed to our lives in ways we are yet to fully appreciate We can do so much more to help We can grow many seasonal foods We can do more than you think if the will is strong to do so My passion for wildlife is stronger now than at any time in my life The reason for that is because I know that the natural world needs me and all of you more than at any time in all of its evolutionary path We are breaking down chains of life that can recover if we act now We can reverse climate change but we all do need to act and not for no other reason that because you like me you care about our planet If this book gives you anything I hope it gives you a new perspective on how your garden is just as important as saving our oceans our forests and our kaleidoscope of magical plants and creatures we are custodians of If enough of us care I know the future can be brighter for all and not just the few I have included some fun facts in this book and a month by month gardening guide I have compiled over three decades of gardening There are fun ways to reuse materials to save them from landfill Projects that are easily achieved to save money or to simply grow more of your own food to save a few bucks pounds In truth your garden can be anything you want it to be All the projects in this book are from my own endeavours in my garden to create a place for me the food I like to grow for and the local wildlife
