Makhzumiyyat Etudes Sur l'histoire Economique Et Financiere De l'egypte Medievale:

The Life and Legend of the Sultan Saladin Jonathan Phillips, 2019-08-20 An engaging biography that offers a new perspective on one of the most influential figures of the Crusades In 1187 Saladin marched triumphantly into Jerusalem ending decades of struggle against the Christians and reclaiming the holy city for Islam Four years later he fought off the armies of the Third Crusade which were commanded by Europe's leading monarchs A fierce warrior and savvy diplomat Saladin's unparalleled courtesy justice generosity and mercy were revered by both his fellow Muslims and his Christian rivals such as Richard the Lionheart Combining thorough research with vivid storytelling Jonathan Phillips offers a fresh and captivating look at the triumphs failures and contradictions of one of the Crusades most unique figures Bringing the vibrant world of the twelfth century to life this book also explores Saladin's complicated legacy examining the ways Saladin has been invoked in the modern age by Arab and Muslim leaders ranging from Nasser in Egypt Asad in Syria and Saddam Hussein in Iraq to Osama bin Laden as well as his huge appeal across popular culture in books drama and music The New Cambridge Medieval History: Volume 4, C.1024-c.1198, Part 2 Rosamond McKitterick, David Abulafia, C. T. Allmand, 1995 The fourth volume of The New Cambridge Medieval History covers the eleventh and twelfth centuries which comprised perhaps the most dynamic period in the European middle ages This is a history of Europe but the continent is interpreted widely to include the Near East and North Africa The volume is divided into two parts of which this the second deals with the course of events ecclesiastical and secular and major developments in an age marked by the transformation of the position of the papacy in a process fuelled by a radical reformation of the church the decline of the western and eastern empires the rise of western kingdoms and Italian elites and the development of governmental structures the beginnings of the recovery of Spain from the Moors and the establishment of western settlements in the eastern Mediterranean region in the wake of the crusades **Early Islam and the Birth of Capitalism** Benedikt Koehler, 2014-06-17 Early Islam and the Birth of Capitalism proposes a strikingly original thesis that capitalism first emerged in Arabia not in late medieval Italian city states as is commonly assumed Early Islam made a seminal but largely unrecognized contribution to the history of economic thought it is the only religion founded by an entrepreneur Descending from an elite dynasty of religious civil and commercial leaders Muhammad was a successful businessman before founding Islam As such the new religion had much to say on trade consumer protection business ethics and property As Islam rapidly spread across the region so did the economic teachings of early Islam which eventually made their way to Europe Early Islam and the Birth of Capitalism demonstrates how Islamic institutions and business practices were adopted and adapted in Venice and Genoa These financial innovations include the invention of the corporation business management techniques commercial arithmetic and monetary reform There were other Islamic institutions assimilated in Europe charities the waqf inspired trusts and institutions of higher learning the madrasas were models for the oldest colleges of Oxford and Cambridge As such it can be rightfully said that these essential aspects of

capitalist thought all have Islamic roots **les Fatimides et la mer (909-1171)** David Bramoullé, 2019-11-04 The Fatimids 10th 12th centuries C E are known to have been the first Shiite caliphal dynasty and to have founded Cairo the city that became their capital in 973 when they left Tunisia for Egypt During their reign the Fatimids built an effective war fleet that inflicted several defeats on Christian navies This is the first study on the Fatimid naval force and more generally on the role of the sea for the Fatimids whose territories touched both the Mediterranean and the Red Sea The documentation presented in this study demonstrates how in the course of two centuries this Ismaeli dynasty set up a maritime policy and developed a communication strategy in which their control of the sea helped legitimize their universalist claims against competing powers Les Fatimides 10e 12e s ap J C sont connus pour avoir t la premi re dynastie califale chiite et pour avoir fond Le Caire qui devint leur capitale partir de 973 lorsque la dynastie quitta la Tunisie actuelle pour s installer en Egypte et prendre possession d un empire qui s tendait de l Alg rie orientale jusqu la Syrie en passant par la Sicile et certains territoires de la p ninsule arabique Durant leur r gne ils dispos rent d une flotte de guerre efficace qui infligea plusieurs d faites aux marines chr tiennes Au del de la chronologie des batailles navales aucune tude n existait sur le r le de cette force navale et plus g n ralement sur le r le de la mer pour les Fatimides dont les territoires touchaient la fois la M diterran e et la mer Rouge La documentation met pourtant en vidence que sur durant plus de deux si cles les Fatimides mirent en place une politique maritime qui d passait largement les consid rations militaires Ils d velopp rent ainsi une strat gie de communication dans laquelle la mer jouait un r le majeur pour la fois l gitimer les pr tentions universalistes de cette dynastie isma lienne face des pouvoirs concurrents et pour lui permettre de survivre *Trade and Institutions in the Medieval Mediterranean* Jessica L. Goldberg, 2012-08-23 The Geniza merchants of the eleventh century Mediterranean sometimes called the Maghribi traders are central to controversies about the origins of long term economic growth and the institutional bases of trade In this book Jessica Goldberg reconstructs the business world of the Geniza merchants maps the shifting geographic relationships of the medieval Islamic economy and sheds new light on debates about the institutional framework for later European dominance Commercial letters business accounts and courtroom testimony bring to life how these medieval traders used personal gossip and legal mechanisms to manage far flung agents switched business strategies to manage political risks and asserted different parts of their fluid identities to gain advantage in the multicultural medieval trading world This book paints a vivid picture of the everyday life of Jewish merchants in Islamic societies and adds new depth to debates about medieval trading institutions with unique quantitative analyses and innovative approaches Islamic History R. Stephen Humphreys, 2020-06-16 This book will be immensely helpful to those who wish to orient themselves to what has become a very large body of literature on medieval Islamic history Combining a bibliographic study with an inquiry into method it opens with a survey of the principal reference tools available to historians of Islam and a systematic review of the sources they will confront Problems of method are then examined in a series of chapters each exploring a broad topic in the social

and political history of the Middle East and North Africa between A D 600 and 1500 The topics selected represent a cross section of Islamic historical studies and range from the struggles for power within the early Islamic community to the life of the peasantry Each chapter pursues four questions What concrete research problems are likely to be most challenging and productive What resources do we possess for dealing with these problems What strategies can we devise to exploit our resources most effectively What is the current state of the scholarly literature for the topic under study

The Great Sea David Abulafia, 2011-06-01 Connecting Europe Asia and Africa the Mediterranean Sea has been for millennia the place where religions economies and political systems met clashed influenced and absorbed one another In this brilliant and expansive book David Abulafia offers a fresh perspective by focusing on the sea itself its practical importance for transport and sustenance its dynamic role in the rise and fall of empires and the remarkable cast of characters sailors merchants migrants pirates pilgrims who have crossed and re crossed it Ranging from prehistory to the 21st century The Great Sea is above all a history of human interaction Interweaving major political and naval developments with the ebb and flow of trade Abulafia explores how commercial competition in the Mediterranean created both rivalries and partnerships with merchants acting as intermediaries between cultures trading goods that were as exotic on one side of the sea as they were commonplace on the other He stresses the remarkable ability of Mediterranean cultures to uphold the civilizing ideal of convivencia living together Now available in paperback The Great Sea is the definitive account of perhaps the most vibrant theater of human interaction in history
