Michelangelo and the Art of Letter Writing Deborah Parker, Michelangelo Buonarroti, 2010-10-21 Deborah Parker examines Michelangelo's use of language in his correspondence as a means of understanding the creative process of this extraordinary artist

The Invention of Papal History Stefan Bauer, 2020 The Catholic Church is among the oldest most secretive institutions in the world but in the sixteenth century a friar Onofrio Panvinio undertook ground breaking investigations into the Church's history from Christ to the Renaissance This study shows how his writings impacted on church and society but also how he changed historical writing

Rethinking the High Renaissance Jill Burke, 2017-07-05 The perception that the early sixteenth century saw a culmination of the Renaissance classical revival only to degrade into mannerism shortly after Raphael's death in 1520 has been extremely tenacious but many scholars agree that this tidy narrative is deeply problematic Exploring how we can reconceptualize the High Renaissance in a way that reflects how we research and teach today this volume complicates and deepens our understanding of artistic change Focusing on Rome the paradigmatic centre of the High Renaissance narrative each essay presents a case study of a particular aspect of the culture of the city in the early sixteenth century including new analyses of Raphael's stanze Michelangelo's Sistine Ceiling and the architectural designs of Bramante The contributors question notions of periodization reconsider the Renaissance relationship with classical antiquity and ultimately reconfigure our understanding of high Renaissance style

Inspiration: Bacchus and the Cultural History of a Creation Myth John F. Moffitt, 2005-05-01 The purpose of this book is to reveal the antique pedigree of a now commonplace term Inspiration an essential creation myth now propelling notions of self expression in modern art making Knowledge of the ancient sources of such supposedly modernist fixations will make a significant contribution to historical cultural thinking particularly by showing in detail the facts of an unrecognized evolutionary continuity In order to personify Inspiration this study initially focuses upon Michelangelo's Bacchus of 1496 so revealing now forgotten meanings once typically to be attached in a generic way to any Bacchus Then it demonstrates how these Dionysiac concepts arose in ancient Greece Later developments particularly from the Middle Ages through the Renaissance are traced here for the first time Due to further modifications by Friedrich Nietzsche Dionysiac expressionism eventually became a staple of modern art theory and practice

Mysterium Magnum: Michelangelo's Tondo Doni Regina Stefaniak, 2008-02-28 This study presents the Tondo Doni to the new Florentine republic as a model of the great sacrament of marriage from the New Testament book of Ephesians Following fifteenth century theology Michelangelo portrayed Mary as a humble wife dominated and possessed by a virile guardian Joseph the couple united as if two in one flesh To compensate for their symbolic propinquity the painter cast her as a paragon of virginity a muscular mulier fortis In order to keep this virago in her place Michelangelo coupled the Virgin in spiritual union with Christ maenad Psyche to bacchic Eros attempting to mystify her social subordination into self sacrificing love via Ficinian commentary and Saint Paul Then firing the Doni infant's vehemence with a distinctly violent

strain of Christian love the painter turned to Dante's *Rime petrose* to continue the implied action and authorize a new painterly style a sculptural style aspro Brill's *Studies on Art Art History and Intellectual History* vol 1 **Locating**

Renaissance Art Carol M. Richardson, 2007-01-01 Renaissance art history is traditionally identified with Italian centers of production and Florence in particular Instead this book explores the dynamic interchange between European artistic centers and artists and the trade in works of art It also considers the impact of differing locations on art and artists and some of the economic political and cultural factors crucial to the emergence of an artistic center During c 1420 1520 no city or court could succeed in isolation and so artists operated within a network of interests and local and international identities The case studies presented in this book portray the Renaissance as an exciting international phenomenon with cities and courts inextricably bound together in a web of economic and political interests **Art and Love in Renaissance Italy** Metropolitan Museum of Art (New York, N.Y.), Kimbell Art Museum, 2008 Many famous artworks of the Italian Renaissance were made to celebrate love marriage and family They were the pinnacles of a tradition dating from early in the era of commemorating betrothals marriages and the birth of children by commissioning extraordinary objects maiolica glassware jewels textiles paintings that were often also exchanged as gifts This volume is the first comprehensive survey of artworks arising from Renaissance rituals of love and marriage and makes a major contribution to our understanding of Renaissance art in its broader cultural context The impressive range of works gathered in these pages extends from birth trays painted in the early fifteenth century to large canvases on mythological themes that Titian painted in the mid 1500s Each work of art would have been recognized by contemporary viewers for its prescribed function within the private domestic domain **BOOK JACKET**

Making & Meaning, the Young Michelangelo Michael Hirst, 1994 **Michelangelo A&I** Anthony Hughes, 1997-09-12 A survey of one of the greatest masters of the Renaissance **Michelangelo** Paul Joannides, 2003 This fascinating book presents one of the most superb **The Cabinet of Eros** Stephen John Campbell, Stephen L. Campbell, 2004-01-01 The Renaissance studiolo was a space devoted in theory to private reading The most famous studiolo of all was that of Isabella d'Este marchioness of Mantua This work explores the function of the mythological image within a Renaissance culture of collectors **Michelangelo** Carmen C. Bambach, Claire Barry, Francesco Caglioti, Caroline Elam, Marcella Marongiu, Mauro Mussolin, 2017-11-05 Consummate painter draftsman sculptor and architect Michelangelo Buonarroti 1475 1564 was celebrated for his *disegno* a term that embraces both drawing and conceptual design which was considered in the Renaissance to be the foundation of all artistic disciplines To his contemporary Giorgio Vasari Michelangelo was the divine draftsman and designer whose work embodied the unity of the arts Beautifully illustrated with more than 350 drawings paintings sculptures and architectural views this book establishes the centrality of *disegno* to Michelangelo's work Carmen C. Bambach presents a comprehensive and engaging narrative of the artist's long career in Florence and Rome beginning with his training under the painter Domenico Ghirlandaio and the sculptor Bertoldo and ending with his seventeen year

appointment as chief architect of Saint Peter's Basilica at the Vatican. The chapters relate Michelangelo's compositional drawings, sketches, life studies, and full-scale cartoons to his major commissions such as the ceiling frescoes and the Last Judgment in the Sistine Chapel, the church of San Lorenzo and its New Sacristy, Medici Chapel in Florence, and Saint Peter's, offering fresh insights into his creative process. Also explored are Michelangelo's influential role as a master and teacher of disegno, his literary and spiritual interests, and the virtuoso drawings he made as gifts for intimate friends such as the nobleman Tommaso de' Cavalieri and Vittoria Colonna, the marchesa of Pescara. Complementing Bambach's text are thematic essays by leading authorities on the art of Michelangelo. Meticulously researched, compellingly argued, and richly illustrated, this book is a major contribution to our understanding of this timeless artist.

A Short History of Renaissance and Reformation Europe Jonathan W. Zophy, 1999. In an effort to bridge the gap between the often different worlds of professors and students, this exploration of Renaissance and Reformation Europe offers an accessible, engaging approach that pays sufficient attention to the roles and contributions of women. Its conversational tone and concise presentation are examples of an approach that is more representative than comprehensive, introducing historical figures and concepts as they flow through the narrative without frequent interruption to include and define technical and foreign terms. Rather than a compendium or grand summa, the text serves as a brief introduction to some of the major personalities, issues, events, and ideas of the Renaissance and Reformation age.

Artibus Et Historiae, 1980. *In Your Face* Douglas Biow, 2010. *In Your Face* concentrates on the basic Renaissance concern with self-fashioning by examining the behavior of some notorious Italian artists and writers, including Michelangelo and Benvenuto Cellini, who upset the decorum of their time on a grand scale.
