**Cookbook** Dennis Wildberger, 2019-02-19 Whether they are called liqueurs aperitifs cordials or ratafias these delicious concoctions have been around for centuries Using only two basic ingredients fresh fruit or spices and a neutral spirit like vodka or brandy and a simple process called steeping or infusing the sky's the limit as to what can be created This book is a step by step guide to the best practices and principles for making delicious cordials and liqueurs right in your own kitchen Each recipe has been personally tested by the author Whether for holidays gifts or your personal enjoyment making cordials is fun and easy Rogue Science John Farrell, 2025-06-05 Scientists have made wonderful progress in preventing disease in the past two decades To take one example the human growth hormone was scarce and beyond the financial reach of most families with a child that needed it Scientists were able to insert the genes for making it into the milk producing system of cows Now ten cows can produce enough human growth hormone to meet the world's annual need Unfortunately many scientific advances can be misused This has happened in the area of gene manipulation A scientist and a lab technician took the genes that tells the coca tree in Andes to make cocaine and inserted those genes into domestic plants in the US This enabled those men to make cocaine here and avoid the risks of smuggling it in from South America Several criminals in the US wanted the lab notebooks that showed the necessary steps for making cocaine here That put Dr Susan Goodwin the lab chief where the two men in the cocaine project had been employed at risk When Susan came back from a ski trip an intruder with a large knife came at her when she was doing her laundry Fortunately Susan's hobby was archery and her longbow was nearby She grabbed her bow and put two arrows into the intruder's chest He died soon afterward Susan's lab technician Tim Benet and another scientist in the laboratory Carl Boyer were also killed The violence and death were too much for Susan emotionally and she felt a need to get away for a while She chose a resort hotel in Mexico's Baja California peninsula To Susan's dismay there was as much violence there as back in the US A gangster and his assistant tried to take over the resort hotel The gangster's assistant tried to kill the animal livestock in a corral on a local rancho but the animals killed him Two kitchen employees both tortilleras killed the gangster The shared danger made Susan and a woman assistant manager of the hotel become close friends Although Susan was distressed by the additional violence in Baja she decided it was everywhere and she might as well go back to the US *Luscious Liqueurs* A.
